LETTER OF TRANSMISSION.

ROOMS OF THE MARYLAND HISTORICAL SOCIETY.

BALTIMORE, *October* 1, 1924.

To the Maryland Historical Society:

GENTLEMEN:

We have the honor to submit the forty-third volume of the Archives of Maryland, containing the Journal and Correspondence of the State Council from October 27, 1779 to 1780, and being the fifth volume of the sub-series devoted to this subject. The last volume of this Journal &c. was the twenty-first of the whole series and was printed in 1901. It seemed well to your Committee to return to the Revolutionary period in Maryland's history and to diversify the contents of the series by publishing this volume, not only because of the fact that, by so doing, a service would be rendered to those who may investigate the records for purposes of political, military or economic history, or for genealogy; but also because it is desirable to remind those who care for the past of Maryland that several kinds of manuscripts remain to be published in the Archives and further, because a considerable part of the material used in this volume was transcribed by Miss Harrison, over a score of years ago and so could be used without additional expense.

A few days after the beginning of the period covered by this volume, the term of office of Thomas Johnson, the first Governor of the State, expired and he was succeeded upon November 9, 1779, by Thomas Sim Lee, who was elected by the General Assembly, in accordance with the provisions of the State Constitution, to serve for one year.

The Journal and Letter Book of the Council are among the manuscript volumes of Archives deposited by the State with the Society. The letters to the Council are to be found in two collections, both deposited with the Society. The more important of these letters were secured from Annapolis by Col. Brantz Mayer very early in the Society's history and were bound into volumes known from the color of the binding as Black, Brown, or Red. Another large collection of letters was received from Annapolis by the Society, largely through the efforts of Mr. J. W. M. Lee about 1883. These letters were not untied until the late autumn of 1922 and the collection has not been used in any previous volume of the Archives. At some time in the future, it may appear desirable to issue a volume containing the supplemental material to the first four volumes of this Revolutionary Series.

In the early volumes of this sub-series of the Archives, the Journal of the Council for each day was followed by letters sent by the Council and those addressed by the Council upon that day. The plan has now been changed and

letters addressed to the Council are placed together and chronologically. The less important of these letters are printed only in abstract. The date when these answers are sent is not that when the Council received them and to try to place these with the Journal on the date of receipt would be confusing and would often only be done by conjecture. The result of this change in the method of printing is that a part of the letters to the Council for this period will be printed in a subsequent volume of the Archives, since to include them in this volume would have swelled it to an unwieldly size.

There are few special studies of this period. The editor's "Western Maryland in the Revolution" appeared in 1902 in the Johns Hopkins Studies in Historical and Political Science (Series XX No. 1). Beverly W. Bond, Jr., is the author of a useful monograph in these Studies upon the "State Government in Maryland 1777-1781." (Series XXIII No. III—1905).

There are few printed sources of importance which need reference. Some letters from Washington to Mordecai Gist appeared in I Md. Hist. Mag. at page 40 and Gist's Plan for reorganization of the Continental Army was printed in 3 Mag. Hist. (2nd Series) at page 270. A letter from Otto Holland Williams to Alexander Hamilton of August 30, 1780, is printed in the latter's Official and Other Papers I (1842) p. 424.

During the period covered by this volume, Maryland refused to sign the Articles of Confederation and her refusal was treated brilliantly by the late Herbert B. Adams in the Fund Publications and the J. H. U. Studies. In April, 1910, A. M. Dyer in the N. E. His. Gen. Reg. at page 167 treated the same subject in an article upon "First Ownership of This Land."

The period is rather a dreary one, but one editing manuscripts (or reading them when edited) must bear in mind the wise saying of Prof. George P. Fisher that: "We must take history as it is and not seek to read into it our reasonings and inferences. If we do not find philosophers self consistent, we must let them remain self inconsistent, instead of altering their systems to suit our ideas of logical harmony."

The interest in the work of the Council for 1780 is rather economic than military. We learn much of how the armies were fed and clothed and of the efforts to prevent extortionate prices for grain. The depreciation of the continental paper currency is noteworthy. A decided difficulty arose between the men who were buying grain for the American Army and those who were purchasing it for the French fleet and many letters passed upon that subject.

Joseph Walker, on February 3, 1780, offered Gov. Lee woolen cloth for uniforms and the sample which he submitted is as fast as if woven yesterday.

The permits to trade with Bermuda, an archipelago which did not produce grain for the sustenance of its inhabitants, form an unusual feature of the war.

Many persons obtained permission to cross the lines and go to New York City, which was held by the British. A specimen of such passes is given herewith:

ANNAPOLIS, MARYLAND 3d February 1780. In Council

Leave is hereby given to Mrs. Achsah Chamier Widow of Daniel Chamier Esquire deceased, to ship from New York on Board an unarmed Vessel, and therein to transport to the Road off Annapolis, the Household Furniture, wearing Apparel and other Goods mentioned in the List hereto annexed; She having made Affidavit that the same (except a few Articles that belong to her Daughter Mrs. Elizabeth McCall who lived with her while in New York) are her own Property, and having executed a Bond, in the Penalty of 20000 Pounds, with good Securities, that she will not dispose of the same in the way of Trade and Merchandise—Mrs. Chamier has Liberty to reship the said Goods, in Hampton Road on Board Bay Craft, to be transported to Baltimore Town.

THO. SIM. LEE

To the editor of this volume the fact is of interest that on page 295 appears the first reference in the series to any of his ancestors in the direct male line, for Capt. John Stoner, there referred to, used two spellings of his family name and his descendants in Maryland have kept to the original one—Steiner.

In an admirable article by George Macauley Trevelyan, which appeared in the English Magazine History for July, 1924, that able historian wrote: "The use of history is to train the minds of men by a just contemplation of the past." "There are, roughly speaking, these three parts of the historian's work: Collection of the facts (scientific), Interpretation, and Exposition (literary)." "To weigh the stars, or to make ships sail below the sea, is not a more astonishing and ennobling performance on the part of the human race in these latter days, than to know the course of events that had been long forgotten, and the true nature of men and women who were here before us." To aid in the scientific part of the work and thus to assist in enabling men to have "a just contemplation of the past" is the purpose of this publication of the State's Archives.

The Index to this volume has been prepared, as is our usual custom, by the editor, who has solaced himself in the tedium of so doing with the thought expressed in the Times (London) Literary Supplement for July 3, 1924: "No literary labor can be more onerous or less inspiring than index-making: it is the kind of work with which the Greeks and Romans would have saddled their galley slaves had the index been as necessary in ancient times as it is today."

In Council Annapolis 27th Octr 1779

Sir We have inclosed you a Letter to his Excelly Genl Washington, requesting that a fourth Company of Artillery may be formed of the three we have at Camp, to be commanded by a Major; there are Men enough for it & still to spare and it will give an Opportunity of gratifying the Officers of Brown's & Dorsey's Companies, who complain, with, at least, a Shew of Reason, and we shall then keep our own Men together. We request the Favor of you to deliver the Letter at a proper Time and, as far as you may think it right, join in our Request to the General. We are &ca

[Council to Gen'l G. Washington]

p. 34 Sir. On hearing that the two Companies of Matrosses kept here and at Baltimore by this State, were directed by the Assembly to be incorporated and sent into the Continental Service, Capt Lieut James Smith of Brown's Company & Capt Lieut Edward Finley of Dorsey's Company, wrote to the Governor proposing their Pretensions to rise, if any Appointments were to take Place in that Company. The Manner of their Writing, it being with great Temper on what they esteemed an interesting Point of Right, is a Confirmation, in some Degree, of what we have heard of their Merit: before we received their Letter, the Company was commissioned, and that, as we conceive, in the Manner we should have been obliged to commission it, if we had received the Letter, immediately on the Act of Assembly

passing. It is much our Desire to remove every good Ground for Complaint amongst our Officers and perhaps, as to the Artillery Officers from Maryland, it might be done by making, of the three Maryland Companies, a fourth, the whole to be considered as one Corps under the Command of a Major; this would leave Room to place every Officer in the Situation he thinks himself entitled to, each Company would still have more Men than the Establishment and we apprehend, it would be more convenient for every Purpose. If your Excellency should entertain the same Sentiments, we shall be obliged to you to regulate this Matter in the proposed Way, or to recommend it so that it may be done. We have the Honor to be with the most perfect Esteem & Respect &ca Liber C C No. 22

[Council to Board of War] p. 34

Gent. Colo Hall of the 4th Maryland Regiment, some Time since, wrote us, "Mr James Smith's Resignation dated 20th June 1779 and "Mr Nathaniel Twining's dated 1st June 1779 leaves a Capt Lieu-"tenancy and a first Lieutenancy vacant. Lieutenant Cromwell is "entitled to the Capt Lieutenancy and Mr John Hamilton, who has "acted as Paymaster to my Regimt these two years and by the Ar-"rangement appointed to an Ensigncy is by Promotion, entitled to "the first vacant Lieutenancy." In another Letter Colo Hall recommends Mr John Randall for a Commission in the same Regiment; we approve the Promotions and appoint Mr Randall to an Ensigncy in the fourth Maryland Regiment and request Commissions may issue accordingly. Colo Williams of the sixth Maryland Regiment writes the 14th Inst. "Some Time in August, I furnished Major "General the Baron DeKalb with a List of Vacancies in the Mary-"land Line, to be transmitted to your Excellency; the Officers who "are entitled to Promotion are impatient for their new Commis-"sions and I am sorry to inform you there are Losses, where, for "want of them, Officers do not that Duty which otherwise might be "expected and would be done with Satisfaction. Mr Samuel Hamil-"ton, whom I took the Liberty to recommend for the Commission "of Ensign about the first of June last and whose Name was after-"wards inserted in a List of those to be recommended to the Board "of War, has been doing Duty in my Regimt since the first of "August; if my Recommendation is not rejected, Mr Hamilton will "bear Rank in the Regiment next after Mr Lynn." We have not p. 35
received the List mentioned to have been furnished to Major Genl the Baron DeKalb; we could wish, if the List has been transmitted to your Board that the Officers entitled to Promotion may have their Commissions. We approve Mr Samuel Hamilton and appoint him an Ensign in the sixth Maryland Regiment and desire his Commission may issue. Lieut Colo Thomas Woolford of the 2d Maryland

Liber C C No. 22 Regiment writes the 14th Inst. "Capt Lieut Benjamin Price, from "the Resignation of Capt Wright, who resigned the first of July "79. is entitled to a full Captaincy and Lieut John Gassaway from "the same Date, entitled to Capt Lieut and Ensign William Wool-"ford with the Rank of second Lieut entitled to a first Lieutenancy "from the Resignation of Lieut. John Read, who resigned 11th Apl "1779." be pleased to issue the Commissions accordingly. Col. Woolford also in another Letter recommends Mr Zedekiah Moore as Ensign in the second Maryland Regiment; we approve & appoint him. General Gist has recommended Thomas Boyd Son of Abraham for an Ensigncy in the second Maryland Regiment, we approve and appoint him and request his Commission to issue. General Smallwood mentions that Edmond Compton has acted for some Time by Brevet as Ensign in the first Maryland Regiment, we approve and appoint him an Ensign in that Regiment and request he may be commissioned. We are apprehensive the only Way to settle the Rank in these new Appointments will be to leave it to the Officers of the Division or with the General commanding it and we wish it to be so if it can be done with Propriety.

Liber C C No. 22 p. 35

Sir. We yesterday received your Letters of the 26th and send you by Mr John Smith the Bearer of them £40000. which is within £20 of the whole in the Continental Treasury and ours is not at present able to assist it. We see the destructive Tendency of making Contracts to be setled by the Rise of the Market and, pressing as the Occasion is for Flour, will risk every Thing rather than concur in such ruinous Measures and therefore request you'll make no further Engagements on which the Price is to depend at all on any future Contingency. The Assembly may probably take up this Matter next Week and, if it is suffered to go on without any Restraint on Avarice, we had rather the Evil should be continued as well as begun by any Body, other than those of our Appointment; nor are we anxious for your extending your Purchase of Wheat (as you have enough to keep the Mills going for a while) at the exorbitant Price, 'til we see whether any Thing is done by the Assembly. Mr Giles wrote for a Licence and it would have been sent him, if he had enclosed his Appointment, but for Want of it, the License could not issue. The Wheat you have you'll have ground and forward to the Army with all Expedition

Sir. We enclose you the Licences desired—The Accounts we have of the Purchase from every Part agree pretty much with the State of it in yours. As you have wrote to Col. Blaine on the Subject of Col. Hemsley's Flour, we hope he'll give you precise Orders with Respect to it; for our Parts we cannot bring ourselves to advise Contracts for Prices to depend on Contingencies; the Power of the Assembly only is adequate to the Occasion, and much depends on their exerting it—

Sir. We are much surprized to hear Mr Faw has purchased Linen altogether improper for the Use of our Troops: Directions will be given to Mr Faw, by this Opportunity, to make no more Shirts of that Kind of Linen, but to send what he has, immediately, to the Care of Capt Keeports. We wish you to purchase the Cloth and Blankets of Messrs Smith and Jefferies without Loss of Time; the surplus Cloth, after making up the Deficiency for Overalls and Socks, you are to leave with Capt Keeports, with an Invoice of the Quantity and Quality.

[Council to Capt Geo. P. Keeports]

Sir. Capt Shelmerdine will deliver over to you six thousand Pounds, to enable you to continue your Purchase of Linen, which we wish you particularly to attend to, as there is Reason to believe there will not be the Supplies from other Purchasers, we had Reason to expect. When you make up your Accounts, we hope you will make it convenient to ride down, and we will endeavour to supply Cloaths for the Soldiers from the State Store. Mr Crisall has Orders to forward Beef by the first Opportunity, as it is probable that Article may be laid in here on better Terms than at Baltimore, and until you receive it, you must continue to subsist the Troops on fresh Provisions. Liber C C No. 22 p. 40 Sir. Enclosed you have your Commission, with a Licence to purchase within this State; agreeably to Act of Assembly. By the Act alluded to, no Authority is vested in this Board to licence, unless the Commission of the Person applying is previously produced; you did not transmit yours when you wrote for a Licence; I believe that was the sole Cause of Governor Johnson's not complying with your Request. Our Treasury is in a very exhausted State at present, which renders it impossible for us to supply you with Cash, if we had been expressly directed, but as matters are circumstanced we are of Opinion, it would be more convenient and proper that you should draw your Supplies from Colo Blaine. Advise us frequently

of the Progress you make in your Purchases and your Prospects. Every Assistance in our Power will be afforded you in the Execution of your Commission. Liber C C No. 22

[Council to The Honble, the President of the Board of War]

Sir. We had not the Honor of receiving your Favor of the 11th of the current Month 'til Yesterday. Before this its probable the Prisoners destined for Washington County have left Philadelphia. We lament the Necessity Colo Rawlings was under of discharging the Militia Guard; we are yet ignorant of the Cause, but conclude from our Knowlege of the Colo that the Measure was a prudential one. Orders heretofore given the Lieutenants of the several Counties in the Vicinity of Fort Frederick, to furnish the necessary Guard, are considered as still subsisting and we doubt not a Proper one will be in Readiness to receive the Prisoners upon their Arrival. The Powder furnished the Continent in Consequence of the Requisition of your Honorable Board was sold under a Resolution of our Assembly directing the Governor and Council to dispose of such Quantity of that Article as might be spared. Frequent, and the most pressing Applications of Individuals had little Weight with this Board when put in Competition with your Requisition, and it was immediately determined the Public Interest should be preferred: thirty thousand Pounds, the utmost Quantity we could spare, were accordingly delivered to your Agent and, as we are informed, was removed to Baltimore, returning it again to our Magazines would be attended with much Expence and Trouble and, all Circumstances considered. we flatter ourselves you will not view our Conduct in not consenting to credit the Continent for the Powder, in an unfavourable Light.

[Council to Capt. John Green] p. 41

Sir. You have herewith an Invoice of 62 Barrels of Flour and 5 of Beef, the Cargo of the Dolphin, which you are to deliver without Loss of Time, to the French Agent or his Deputy; one or the other, we have Reason to believe, is now at Hampton, for the use of his most Christian Majesty's Fleet or that Part of it which may be in Chesapeake Bay. In the Absence of the Agent or his Deputy, you are to deliver your Cargo to the Commander of the Fleet, taking a Receipt therefor.

As the Fleet may have immediate Occasion for these Provisions and their Stay in this Bay limited, We trust, without repeating it, you are sufficiently impressed with the Necessity of Dispatch. We wish you a safe Voyage and are &ca

[Council to The Sheriff of Cecil County]

Liber C C No. 22 p. 42

Sir Basil Williams hath, by his Petition, set forth to us that he was some Time in the Year 1777 deprived of a Negro Man by the Enemy whereby he hath greatly suffered, and it appearing to us by Deposition of the said Basil Williams and the Certificates of several Gentlemen of Reputation that the said Facts are true and we esteeming it proper that the Collection of the present Assessment of the said Basil Williams should be suspended, do direct you not to collect the same or any Part thereof

[Council to Richard Dallam Esqr.]

Sir Your Situation is certainly distressing; every immediate Assistance in the Power of this Board has been given in sending you twenty thousand Dollars by Mr Francis Dallam and we have to lament that an Agent so truly active and faithful as we have every Reason to believe you have been, should be involved in Difficulty by Exertions for the Public Benefit. This Sum, it is hoped, will suffice for the present, if it is applied to the Payment of those who are most pressing, and shortly, large Payments may be expected from Sheriffs of the several Counties: in the mean Time, we hope your Creditors will be patient. The Continental Treasury in this State has been drained for the Purpose of sending you this Supply and 8000 Dollars over and above were drawn from the Treasury of this State to make up the 20000. We have hitherto in no Instance drawn Orders on the Sheriffs for the supplying Money to Purchasers of Provisions, and would with great Reluctance adopt a Measure of that Kind. Mr Wederstrandt has made frequent and pressing Applications for Cash and complains that the 12000 Dollars from the Continental Treasury should be sent you as he actually deposited them

Sir. Your Letters of the 26th and 30th Ultº were laid before the General Assembly with a Recommendation from this Board to revive and amend the Law for impressing Vessels &ca and to make the necessary Provision for the quartering and otherwise accommodating the Troops of our Allies. When the necessary Regulations are determined upon by the Assembly you may rely, we shall advise you of them; as yet, nothing has been done. We have not the least Objection to your making Use of the Barracks and wish them better calculated for the Number of Sick and wounded you expect

[Council to Richard Dallam Esqr.] p. 43

Sir. By a Letter just received from Colº Blaine dated the 1st Inst. we are informed you are about to deliver over to Mr Smith, the French Agent, all the Flour you have on Hand. This is a Step we did not expect, nor can we consent to it by any Means, whilst our Army, as we have great Reason to believe, is in Danger of suffering by the Want of Bread Provisions and the French Agent has secured at least the Quantity he was permitted to purchase. You will without Loss of Time, be pleased to deliver your Flour into the Hands of Mr Giles, the present Continental Agent, who has Orders to forward it with the utmost Speed.

[Council to His Excellency The Cheval'r. de la Luzerne, Minister plenipo. to his Most Christian Majesty.]

We were honored with your Excellency's Letter of the 17th ultº The polite Assurance that you received Pleasure when you understood the Commander of his most Christian Majesty's Squadron had made Choice of this Station because you could rely on us for Succour, communicated the highest Satisfaction. Such is our Inclination to render every Assistance in our Power to the Troops of our illustrious Ally, that nothing was necessary to prompt us to an Exertion for their Relief, but a Communication of their Wants and sufferings. Our Duty seconded by our Attachment to Friends who have bravely fought and bled in the Cause of Liberty, lead us to consider their Distresses as our Own, and make our Exertions to provide the Sick and wounded with suitable Lodgings and proper Sustenance, the most pleasing Task. Victualling the Squadron is certainly an important Object and demands our utmost Endeavours to enable Monsr DeGrasse or any other French Commander, to procure full and Speedy Supplies for the Use of the Fleet. The Congratulation of your Excellency, is flattering. Convinced that America is interested in the judicious Appointments of your King, it gives us infinite Pleasure in felicitating you and United America, on your Excellency's Appointment, which alone can console us for the Loss

Sir. We are informed by the Attorney General that Boisbrun was tried on two several Indictments for Theft and convicted, but that the Court had suspended the Punishment which the Law appoints, until Application could be made to us and our Pleasure known therein. The Good and Safety of the Community require that Offenders should be punished, to restrain them from repeating the Offence and to deter others whose malevolent Dispositions might otherwise prompt them to imitate their pernicious Examples, from violating the Law and disturbing the Tranquility of the State; yet, in this particular Case, the Rigour of the Law may be relaxed to avoid that Disquietude which a good and reputable Family would suffer by inflicting an ignominious Punishment on the Culprit, and we are willing to pardon the Offender, on Condition that he enlist in the Service of the United States

Sir. In the Opinion of this Board you have been rather irregular in allowing the Mariners and Passengers of a Vessel to take a larger Quantity of Provisions than necessary to subsist them their Voyage out and Return to the Port from whence they sailed. As the Instance you mention is the first, so we hope it will be the last

[Council to Mr. Stephen West]

Sir. Good strong Stockings are much wanted for our Soldiers, and it would give us Pleasure to have it in our Power to provide them on reasonable Terms. The Samples sent appear to be good and such would suit us. The Reason you give for offering them to us, are very sufficient and we trust the former "contributing to the Relief of the Army" will induce you to part with them on such Terms as will justify us in making the Purchase. The Price hitherto given has not exceeded twenty five Dollars, but as yours are of a superior Quality, we are willing to give from thirty to thirty five Dollars, according to their Goodness and will take 200 Pairs. If you are inclined to sell them at that Rate, be pleased to inform us by the first Opportunity. We are convinced the Examples of others in demanding exorbitant Prices for what they sell will have no Influence on you, because they have a Tendency to obstruct the Object you and we have so much at Heart "the Relief of the Poor Soldiers."

The Barracks in Frederick Town are not in a State to accommodate Troops and as probably Part of the American Army may be quartered in that Town this Winter, we wish you to have them put in a more eligible Condition as speedily as possible. It is represented to this Board that in a short Time and with little Expence, they may be made fit for Use and that now, so far from answering the Purpose for which they were erected, they serve for a Rendezvous for Negroes in the Night, by which they are in Danger of being burnt and a Nuisance to the Inhabitants. [Council to Capt. Geo. P. Keeports]

Sir. The Quality of the Cloth is too good for the Purpose it is wanted and consequently the Price too high; it would therefore be proper to purchase the Cloth we mentioned in our last at £7.10 which supposing it to be about 300 yds will leave a Deficiency of Cloth to make up 165 Overalls wanted in the Whole to compleat 2000 Overalls, as we are informed by Mr Randall: this Deficiency, we request you to purchase on the best Terms you can. The coarse Linen you mention may be used in lining the Overalls, at least to the Knees. We are sorry to find Mr Faw has not lately sent you any Supplies; we expect you will soon receive from him, some Shirts and Stockings and that by next Week you will be prepared to send the Whole to Camp. If the Quality of the Stockings is such as will answer our Purpose, and the Price within Bounds, they must be bought. Cannot you obtain a Preference to the State, and inform us of the Quality and Price? if not, we must leave it to your Discretion to obtain on the best Terms. We have lately bought some in this town, the quality indeed not very good, at 28 Dollars ꝑ pair.

Sir. Your Letter of Yesterday this Moment came to Hand. As our Army want Stockings and those offered by Mess[rs] Dorsey & Hammond, tho' rather high, are from your Description, proper; We desire you will close with the Gentlemen at £175 p[r] Dozen; the Quantity is one among other Inducements with us, to accept the Offer. The Blankets you have heretofore mentioned, we incline to take, even at £112..10..0 and therefore request you will immediately secure them. The Council yesterday in their Answer to yours of the 11th Ins[t] gave you a discretionary Power of purchasing particular Cloths for Overalls and at the same Time refused to accept of those offered by Dorsey and Company, deeming them too good and too high for the Purpose intended. Leather Breeches, Col[o] Forrest thinks, would by no Means Suit Soldiers at this Season of the Year, if so they are not an Object with us. If the ten Pieces of $\frac{5}{8}$ brown French Rateen at £11.5 ℔ yard and the 11 Pieces of $\frac{6}{4}$ blue Baize at £16..10 ℔ yard, will do for Overalls; We request you will purchase them We rely upon your Attention and Activity in the Purchase of Linen for Shirts and that you will advise us from Time to Time of your Prospects in getting Supplies of that and likewise the Article of Blankets Send a List of the Cloathing carried to Camp by M[r] Randall that we may ascertain the Deficiency. Surely you will not suffer the Gentlemen from Philadelphia or others, to carry from this State, any Article of Cloathing required by our Troops, when the Law of July Session 1779 entitled "An Act for the effectual preventing of Forestalling and Engrossing and for other Purposes therein mentioned" expressly prohibits such Practices, unless licenced by this Board.

Sir The extreme Severity of the Season and the Wants of our Troops, induce us to request of you, a sufficient Number of Waggons to convey the Cloathing already purchased by the State to Mr Randall. The Quantity on Hand is not so considerable as we could wish, but some of the Articles are in great Request, more especially the Blankets; we therefore solicit your good Offices in having them sent on without Loss of Time. There are five Men now in Baltimore of our Line, Sergeant Neary and four Privates; these might serve as a Guard, if you could put them under the Command of a commissioned Officer, and, in Case no Officer should be on the Spot, a prudent Man hired for the Purpose of commanding the Guard would answer the Purpose.

Gentlemen. The General Assembly reposing the most entire Confidence in your Integrity Patriotic Zeal and Attachment to the common Cause, have appointed you Commissioners for—County to carry into Execution the " Act for the immediate Supply of Flour and other Provisions for the Army." The enclosed Copy of his Excellency General Washington's Letter, manifests, in the strongest Terms, the great Distress of the Army, and the urgent Necessity of your most vigorous Exertions to procure and forward a sufficient Supply of Flour and the other Articles enumerated in the Act. Your own Discernment is sufficient to point out the manifold Evils that would result from so calamitous an Event as the Disbanding the Army and will suggest to you that the Happiness of yourselves and Posterity, may depend on your Diligence and Activity in executing the Law, and your Endeavours to dispose the People of your County, not only to acquiesce in, but further the Measures of the General Assembly in attaining so desirable an Object as the immediate Supply of our Army with Flour and other Necessaries. Sir. Enclosed we send you an Act for the more effectual preventing forestaling and Engrossing and for other Purposes therein mentioned, containing Matters, we apprehend, necessary for your Information

[Council to His Excellency Benjamin Franklin]

Sir You will perceive by the enclosed Act, that the General Assembly of this State have invested you with Authority to appoint one of the five Gentlemen nominated therein, Trustee for the Purpose of carrying the same into Execution, in Case the Trustees heretofore appointed by the Province of Maryland, should neglect or refuse to act. We request your Excellency to transmit a Copy of the Act to Messrs Russell, Grove and Hanbury, Trustees appointed by the old Government, and desire their immediate Answer, whether they will transact Business, sell out the Stock, accept and pay the Bills drawn in Pursuance of the Act. If they will execute the Trust, we

If the Trustees decline acting, we desire you would send the Trustee appointed by your Excellency, a Copy of the Act, with similar Directions to those above. Sir We have it in Command from the General Assembly of Maryland to transmit to you a Copy of the Act for calling out of Circu-

In Case either of those Events should happen we request your Excellency to transmit a Copy of the Act to Messrs Russell, Grove and Hanbury, Trustees appointed by the old Government and desire their immediate Answer whether they will transact the Business, sell out the Stock, accept and pay the Bills drawn in Pursuance of the Act If they will execute the Trust, we would have them directed to sell out the Stock immediately and place the Money in the Hands of some capital Banker in Amsterdam or Paris, subject to their Draughts in Case Bills should be drawn on them. [Council to William Smith Esqr.]

Sir We received your Favors of the 3^{d} Ins^{t} by Express. As the grand Object of the Act for the immediate Supply &^{ca} is to procure an immediate and full supply of Provisions for our Army, it was necessary that the Commissioners should be vested with extraordinary Powers, that those Powers should be accurately defined and that the Mode to be pursued by them should be plainly delineated, which is done. We do not think that Flour and Wheat purchased for the Marine of France priveleged or exempted from Seizure; and we are certain it was not the Intention of the Legislature that those Articles should be, because such Exemption would in a great Degree, if not wholly frustrate the Design of the Law. We esteem it our Duty to afford the Commissioners every Aid in our Power to facilitate the Execution of the Law, and therefore cannot at this Time, grant Permission to export Flour, because we should thereby restrain that extensive Operation of the Act, by which alone we can obtain an immediate Supply adequate to our pressing Wants. We are sensible of its Importance that the Marine of France should be furnished with Flour and it is with the utmost Regret, we have refused Permission and Nothing could have induced us to do it but the alarming and distressful Situation of our Army, and when we have Assurances that their Wants are relieved, we shall with Pleasure, grant Licence as heretofore. The numerous Evils that would result from procrastinating, the Supplies when contrasted with the Inconveniencies alluded to by you, will, we trust evince the Propriety of our Conduct and justify our Refusal. We will send you the Account for that furnished Capt Harrison by the next opportunity

[Council to the Commissioners of Cecil County]

Gentlemen—We received your Letter of the 14th Ins^{t} and cannot forbear expressing our Surprize that our Letter of the 29th December had not then come to Hand, it was delivered to Mr Ward one of the Delegates for your County; we sent with it a Copy of the Act for the immediate Supply &^{ca} an Extract of General Washington's Letter and a Number of Certificates. You will receive with this, Copies of the Act and our former Letter and an Extract from General Washington's Letter. In Case of Disagreement between the Commissioners and the Person whose Property is seized, the Law points out the Mode to be pursued to ascertain the Price. It is our Opinion that Flour and Wheat purchased by the pretended or real French Agents is as Subject to Seizure as any other Flour or Wheat; because the Words of the Law are general and the Object of it is an immediate and full Supply for our distressed Army. After Seizure made of such Flour and Wheat, we advise you to take a particular Account of the

Quantity of each and of the Persons in whose Possession it is seized, in Order that we may fix with the utmost certainty the precise Quantity purchased under the Pretext of purchasing for the French. This will lead to a Detection of that Villany which we have the strongest Reason to Suspect and to which we think the present Distresses of our Army may in great Measure be imputed. We would not have the Flour, seized in the Hands of French Agents, transported, until you receive our Orders, unless you have Assurances from good Authority, that it is necessary for the Relief of the Army; for it is our Desire to avoid every-Thing that is offensive to the Minister of France or which may in any Manner counteract the Schemes or Plans concerted by him, to annoy our common Enemy, or which may be construed into a Disinclination in us to grant him the necessary Supplies. We do not esteem it necessary, at this Time, to add any Thing more to what is suggested in our circular Letter. Liber C C No. 22

[Council to the Commissioners for Baltimore Town] Liber C C No. 22

Gentlemen We received your Letter of the 14th Inst and should have attended to it sooner, had not other Business of Consequence, that then lay before us, required our immediate Notice. We lament that in the Execution of the Act for the immediate Supply &ca the Utility of which is recognized by every Friend to his Country, you should be embarrassed with so many Difficulties. Little did we expect the Commissioners of Baltimore Town would have met with Opposition from any of its Inhabitants, in their Endeavours under the Act to procure Supplies for the Army, and less did we think any p. 56 should be found so destitute of real Patriotism, as to bid Defiance to the supreme Authority of the State and the Officers appointed to execute the Law, that the Rest who have nobly distinguished themselves in the Cause of Freedom and indicated a sincere and inviolable Attachment to their Country and Love for the Army, would with a Criminal Indifference, stand by and suffer the Officers of the State to be insulted and the Act, made for the professed and laudable Purpose of relieving the Army, suspended by arbitrary Power. We cannot suppose that the Inhabitants of the Town, whose Courage and Magnanimity were never questioned with Impunity, were deterred from rendering their Aid to the Commissioners, by the impotent Threats of a Few Individuals, of repelling Force, by Force, nor can we think they possess so little Discernment as to allow themselves to be imposed on by the shallow Artifices mentioned in your Letter, that the Commissioners had no Authority to impress Waggons in the Country from whence it is inferred that they had no Power to seize Flour purchased for the French: this must be the Conclusion, or it could have no Relation to the Subject. That if the Flour was seized, the Inhabitants would perish! Were the Inhabitants to be supplied with that Flour? if they were, it was an Infringement of the Law and liable to be seized. Mr Smith cannot despise our Opinion more than we contemn his Conduct, which we esteem highly reprehensible, because it leads to Anarchy and Confusion and has a palpable Tendency to defeat or elude a Law founded on the most evident Necessity, the Execution of which the public Safety requires. On the most mature Consideration of the Business referred to us, we find no Reason to recede from our former Advice and Instruction and for your Satisfaction we will repeat so much as respects the present Subject. We think Flour and Wheat purchased for the French, liable to Seizure, and therefore would advise you to seize and secure such and to take a particular Account of the Quantity of each and the Person in whose Possession Seized. We are more particular because we are Solicitous to ascertain the Quantity of Flour and Wheat purchased in this State under the Pretext of acting as Agents for the French. We instruct you not to transport the Flour and Wheat purchased for the French, until you receive our further In-

structions; because we would, as far as the public Good admits, avoid doing any Thing offensive to the Minister of France or which might counteract any Plans or Schemes concerted by him to annoy our common Enemy, or which might by the most forced Deductions be construed into a Disinclination in us, to furnish the French with the necessary Supplies. You are authorized by the Act to enter into any Granary; warehouse, Storehouse &ca where you Suspect any Flour or Wheat may be concealed or kept; this you are to do peacebly, if the Owner will permit you, but if you meet with Resistance you must call on the Justices, Sheriff, his Deputies, the Constables and all other the Inhabitants of your County, to assist you to carry the Law into a full and Speedy Execution. If they should refuse, which we cannot suppose, or in Case their Assistance should be insufficient, you must inform us, and we shall take proper Measures
p. 57 to strengthen your Hands and enable you to do your Duty. It rests on our Minds that the Minister of France has Licence to purchase Flour and Wheat in our State to the Amount of eight thousand Barrels but we cannot, at this Time, after the most deligent Search, lay our Hands on the Papers from which we should be able to give you precise Information

[Council to His Excellency The Chevalier De la Luzerne Ministr. Plenipo.]

Sir. We had the Honor of receiving your Excellency's Letter of the 10th Ins^{t} with a Copy of a Letter from Mr Holker, and your Memorial to Congress. It is so remote from the Inclination of this Board to obstruct any Measures concerted by our noble Ally, or to counteract the Operations of your Fleets and Squadrons, that we esteem it our indispensable Duty, to contribute all in our Power to their Success and, be assured our Wishes coincide with our Duty in this, as well as every other Instance in which the Interest of our Ally is concerned. To decide on the Propriety of the Law and our Conduct, consequent thereon, it will be necessary to take a comprehensive View of every Thing that relates to this Subject. Application was made to this State, by the Agent for the Marine of France, for Permission to purchase Flour and to export it for the use of the French Marine which was chearfully complied with and a Clause inserted in the Act passed in Iuly 1779 to prohibit for a limited Time, the Exportation of Wheat, Flour &^{ca} enabling the Governor and Council to grant Licence on the Requisition of the Minister Plenipotentiary of his most Christian Majesty or the Agent of the Marine of France to transport any of the Commodities mentioned therein from this State to any Part or Place out of the same: In pursuance whereof the Governor and Council did give Permission to the French Agent to buy up a certain and limited Quantity of Flour and Wheat, some of which has been exported under Licence from us. The General Assembly during their last Sessions, received Information, that various and great Abuses had been committed under the Permission aforesaid, by the Persons employed by the Agent of France and others pretending to act as such, to the great Detriment of the United

States, and being solicitous to restrain or defeat the pernicious Effect of such Conduct enacted that all Purchases of Wheat or Flour made above the Quantity allowed should be deemed made for the Use of the United States. The Representation of his Excellency General Washington of the alarming Situation of the United States Army received just before the Close of the Session, demonstrated the Necessity of making the most vigorous Efforts to procure an immediate and full Supply of Flour and induced them to make the Law from whence it is apprehended such Mischiefs will result to our Ally. Your Excellency must be sensible the Distress which occasioned the above Representation was real, not fictitious; and we flatter ourselves, you will concur with us in Opinion that the using every Means in the Power of the State to obtain an immediate and full Supply of Provisions for our distressed Army is highly conducive to the reciprocal Advantage of united America and her Ally, and could alone avert a Calamity replete with Evils too numerous to be recapitulated, and of such Magnitude as cannot but be discerned. The General Assembly could not hesitate about the Expediency, indeed Necessity of employing their utmost Exertions to afford Relief, and the Information communicated to them, that the French Agents had purchased Wheat and Flour in this State, far exceeding the Quantity permitted, rendered it the more necessary to make the Law general; for the Exception of Wheat and Flour purchased by the Agents of France might have frustrated the Law, by exempting that Surplus or Excess of Quantity from Seizure: another Good, we expect will result from the Generality of the Law and a strict Execution of it; this State will be enabled to ascertain with Precision, the Surplus Wheat and Flour, and detect the Persons to whose collusive Practices, the Distresses of the Army, may be in some Measure, if not wholly attributed. We are well convinced that the primary and grand Object of the Legislature was, to procure a full Supply for the Army, with the utmost Expedition, and that every Thing else was to be subservient to it, and we trust such Conduct must correspond with the Feelings of your Excellency and meet with your Approbation though it may interfere with your Plans of Operation; because it is better the Marine of France should submit to a temporary Disappointment, than that we should hazard the Disbanding of the Army of the United States, by procrastinating the Supplies. We have instructed the Commissioners to observe the Directions of the Law and to seize all the Wheat and Flour purchased by the French Agent and to take a particular Account of it, and have directed them not to transport or send forward such Wheat and Flour until they receive further Instructions. As soon as we have Assurances from Congress or his Excellency General Washington, that the Army has a full Supply of Provisions, we shall order the Commissioners to restore such a Part of the Wheat and Flour purchased by the French Agents, as will make up the Quantity he was allowed to buy: until then, we

Liber C C No. 22

p. 59

Liber C C No. 22 have no Authority to dispense with the Law, or suspend the Operation of it, in any other Manner than that we have mentioned. We hope the Enumeration of these Facts, and the Reasons and Observations suggested by us will be deemed satisfactory and induce your Excellency to think with us, that nothing incompatible with the combined Interest of France and America has been done or intended to be done by the General Assembly or the Executive of this State, No Inconvenience hath, as yet, arisen from the Law; the Navigation of the Bay and Rivers having been, ever since, obstructed by the Ice, and will, most probably continue so far some Time, in the mean Time we most ardently desire to have the Pleasure to inform your Excellency, we have received such Assurances as will enable us to comply with your Request.

[Council to Mr. John Randall]

Sir Mr Keeports sets off Tomorrow from Baltimore Town, with some Cloathing for the Army: he has £30.000 for you, Part of the £50.000, which we hope will enable you to answer all immediate Demands. We should have sent the whole by this Opportunity; but our Treasury is almost exhausted, and it is all we can, now spare; we expect to have it in our Power to furnish you with more, in a
p. 60 short Time. We have requested Mr Keeports, if he should not meet with you in Philadelphia, to lodge the Money with one of our Delegates in Congress, to whom you must apply, in such Case. All our Endeavours to procure a sufficient Quantity of Cloth, suitable for Regimental Uniforms have proved ineffectual, some of the Officers down here on the Recruiting Service have taken the mixed Colours which has induced us to send them to Camp

[Council to Hon'ble The Board of War]

Gentlemen Brigadier General Smallwood some Time past, wrote us " Should there be any Vacancies still in our Line, I must beg Leave to recommend Ensigns David Luckett, and John Nelson, they received their Appointments in Col° Gist's being one of the 16 additional Regiments, on the 4th of July last; they were originally of Col° Grason's Regiment, raised in Maryland & have been out ever since the Spring 1777. In their own Corps, they were without Interest or Friends to recommend them: but on account of their Merit and good Conduct, were promoted; I know them to be qualified and young Men of Merit, therefore if consistent with the Views of the State, should be glad they could be commissioned." We approve of, and appoint them to Ensigncies in the first Brigade of Maryland Troops and desire Commissions may issue. He also writes us: " As our Line will want many Officers, I would beg Leave to recommend Mr. Henry Baldwin, he has served upwards of two Years, during which Time he has ever acted under an Expectation of a Commission, which was promised him by Colos Gist and Ramsay, but could not be obtained, before the Rank of our Line was setled." We observe by the Returns made us, that he ranks as Ensign, in the 3d Maryland Regiment, but cannot find any Appointment, by this Board; if he is not commissioned, we desire he may be an Ensign in the

3d Maryland Regiment. He also writes "I have enclosed you a List of such Sergeants and others of the first Brigade, who have been recommended for Commissions, by their Field Officers and Captains. I believe their Services and Merit entitle them to such Reward, where it can be granted consistent with the Views of the State. Perhaps it might be well to avoid fixing their relative Rank, as that might be determined by a Board of the Field Officers, agreeable to their Merit and Pretensions" Here follows the List William Noyes Sergt Major, Francis Shepherd, Mark McPherson, Richard Coe, of the first: John Trueman, Henry Clements, Robert Halkerston, Walter Dyer, of the 3rd William Reason, John Cheers of the 5th David Green, Sergt Major, Robert Green, Thomas Jenkins, Benjamin Fickle, Robert Yeates of the 7th James Thompson and William Smoot of the first and John Smith of the 3d Regiment. We appoint them to Ensigncies in the first Brigade and desire Commissions may issue, leaving the Rank to be setled hereafter. He also writes "I must beg Leave to recommend Theophilus Tabbs, a Brother of Surgeon Tabbs of the 7th Maryland Regiment, lately resigned, he is descended of a good Family and tis probable he will make a good Officer. He is a Stranger to me, & I have no particular Recommendation of him; his Brother has applied on his Behalf" We appoint him an Ensign in the first Brigade and desire a Commission may issue to him. Colo Josias Carvil Hall writes "I have no Sergeant, at this Time to recommend, except the one I had the Honor to propose, by my Letter of Iuly last; as I have not heard whether or not he was approved of, I beg to mention Sergeant Jacob Rittenhouse Shoemaker again We cannot find any such Letter, nor do we remember receiving one from him, recommending the Sergeant. We approve of and appoint him an Ensign in the second Maryland Brigade and desire a Commission may issue. We ratify and confirm the Promotions of Lieut Colos Adams and Woolford, Lieut Colo Adams to the first and Lieut Colo Woolford to the fifth Regimt Lieut Colo Thomas Woolford writes I cannot, without Injustice to Sergeants Lowe, Mason, Sears and Crawford, who have served under me in the second Maryland Regiment for these three Years past, during which Time their Merit and Services entitle them to every Mark of Gratitude and Favor from their Country which possibly can be shewn them. As there are Vacancies in the Regiment, will be happy in having them commissioned as Ensigns. I can assure your Excellency that I would by no means recommend them, had I not been an Eye witness of their Behaviour and past Services." We approve of the Preferments and desire Commissions may issue to John Tolson Lowe, Caleb Mason, John Sears and Jacob Crawford as Ensigns in the second Regiment of Maryland Troops, leaving the Rank to be setled hereafter as before mentioned.

Commission issued to Joseph Baxter reappointed Sheriff of Balto. County.

By his Excellency Thomas Sim Lee Esquire Governor of Maryland

A Proclamation

Whereas the house of Senate stands adjourned to the twenty ninth Day of March next and the house of Delegates to the first Day of the same Month and Affairs of Importance requiring the Consideration of the General Assembly as soon as well may be I have thought proper, that the General Assembly of this State should meet on the second Day of March next, and do therefore In virtue of the Power with which I am invested by the Constitution and Form of Government hereby appoint the said second Day of March for the Meeting and holding the General Assembly, of which the several Sheriffs of this State are hereby enjoined to give Public and Due notice.

Given at Annapolis this third day of February in the year of our Lord one thousand seven hundred and Eighty. Tho. Sim Lee

By his Excellency's Command T. Johnson Junr Secy

God save the State.

Leave is hereby given to Mrs Achsah Chamier widow of Daniel Chamier Esquire deceased to ship from New York on board an unarmed Vessel and therein to Transport to Hampton Road in Virginia the Household furniture, wearing apparel & other Goods mentioned in a List Lodged with this Board, she having satisfied the Governor & Council as to the Property of the same, and having also given Bond in the penalty of £200000 not to dispose of the same in the way of Trade or Merchandize.

Sir We received yours of the 31st Janry and refer you to our last Letter. We are sensible of the pernicious Tendency of Mr Ewings Conduct and think it merits the Censure of every good Whig and Friend to the Army and we make no Doubt but a strict Adherence to the Law and vigorous Exertion of the Powers communicated to you thereby, will enable you to defeat the sinister Views and selfish schemes of Persons whose Interest will prompt them to throw Obstacles in your way, because their Profits are diminished in Proportion to the Quantity of Flour and Wheat collected by you. The Continental Purchasers and French Agents have no Right to act after the first Inst without taking a particular Oath and receiving a Licence

from us. You must seize all the Flour and Wheat purchased by the French Agents and others pretending to act as such. You must Seize all the Flour and Wheat in the Possession of the Continental Purchasers and others, in the Manner the Law directs and send it forward. As to the Flour purchased for the French, you must pursue our former Instructions. We have delivered blank Certificates to Mr Cole which are to be filled up, according to the Circumstances of the Case, and signed and countersigned as the Law directs.

[Council to His Excellency General Washington]

Sir We have given Permission to Mrs Chamier, Widow of Dan[l] Chamier Esqr deceased, to bring her Household Furniture, Wearing Apparel and other Goods mentioned in a List annexed thereto, from New York to Hampton Road, in Virginia. We are induced from Motives of Compassion and the generous Conduct of her late Husband, to many of our Prisoners, to grant her Leave, and to solicit your Excellency's Interposition to obtain her the desired Indulgence, if you esteem it consistent with Propriety.

Sir We are informed by Col^o Rawlings, that the Company you ordered to Fort Frederick, as a Guard to Prisoners, marched as far as Frederick Town on their way, where he met them, and having Reason to believe that the Prisoners would not arrive at Fort Frederick, during the Term of their Service, he permitted them to return, with Orders to hold themselves in Readiness to march on the shortest Notice. The Col^o has Reason to believe his Orders were complied with and, as the Term has expired for which they were to serve, we think their Tour of Duty performed. You are therefore requested to order the next Class in Rotation, to consist of the same Number of commissioned and non commissioned Officers and Privates as heretofore ordered.

Sir Your Letter of the 29th Ultimo came, this Moment, to Hand. We have enclosed you an Order on the Collector of Kent County for £3000 to enable you, with the greater Facility to execute the Law for procuring immediate Supplies for the Army. Your Discretion will point out to you the particular Cases, in which it may be necessary and proper to pay Cash and we trust you will not do it in any other. It is most clearly the Opinion of this Board that the Grain and Flour purchased by the French Agents, are liable to Seizure but we have desired that a particular Account be taken of such Grain and Flour and that it may not be sent to Camp until further Orders from this Board.

That Resolve has not yet been transmitted to us. We request the Favor of you to procure and forward it, and at the same Time, beg Leave to apply through you, to Congress, for Permission to supply the Officers of the Maryland Line, provided we may be allowed to draw from the Continental Treasury of this State, to reimburse the Money that may be expended in the Purchase of them

[Council to Monsr. Holker]

Sir We shall embrace the next Opportunity of answering your Letters of the 28th of Ianry and 9th of Febry and in the mean Time remain with due Consideration &ca

[Council to His Excellency The Chevr De la Luzerne.]

Sir It is with deep Concern we find that the Measures adopted by this State to obtain an immediate Supply to relieve the extreme Distresses of the Continental Army have occasioned such Uneasiness to your Excellency and created even the Semblance of a Doubt of our firm Attachment to the Alliance. We think with you that it is the incumbent Duty of this State to exert themselves in the same Degree for the Preservation of the Fleets of France as the American Army, and can, with Confidence assure you that if your Fleets had
p. 67 been in the same Distress, Steps equally vigorous and efficacious, would have been used to extricate them. We are exceedingly hurt that you should esteem the Seizure of the Flour allowed to be purchased for our Ally a Violation of our Engagement when the pressing Wants of the Army urged the General Assembly to it and when too, we informed your Excy that it would not be used, if those Wants could be otherwise relieved; but that it should be restored to Mr Smith and Permission given for the Exportation of it, as soon as Congress or his Excellency Genl Washington assured us that the Distresses of the Army ceased to be alarming. It gives us Pain to repeat the Information we communicated in our last, that our Power is so circumscribed and limited, that we cannot, without committing a manifest Infringement of our Constitution and acting inconsistent with the Trust delegated to us, suspend the Law, until we have Assurances from Congress or General Washington, that the Army is

supplied. The Recommendation of Congress to restore the Flour, has been received; but that cannot give us Authority to do it; because, at the same Time, we were informed by them that the Wants of the Army were pressing and require immediate Relief. No Inconveniencies have, as yet, we apprehend, have arisen from the Seizure and as the Obstruction to the Navigation still remains, we flatter ourselves it will be in our Power to obviate any; to that End, as well as with a View of removing every Cause of Uneasiness or Disgust, we have called a Meeting of the General Assembly the second Day of March next in Order to Submit to their Consideration your Excellency's Letters and the whole Proceedings of the Commissioners and we have no Doubt but that the Result of their Deliberations will be highly satisfactory to your Excellency. We cannot refrain from expressing our Disapprobation of the Conduct of Mr Smith, in resisting the Officers appointed to carry the Law into Execution. Whatever his Sentiments might be respecting the Propriety of it, we think, an Attempt in any Individual to trample on the Authority of the state and to frustrate its Acts, ought not to escape without Reproff. It is not in our Power at this Time to point out any Species of Misconduct in Mr Smith, or others employed under him in the Purchase of Flour and Wheat, but as soon as we make any Discovery of male Practices, we shall impart them that your Excellency may take proper Precautions to prevent a Repetition

Liber C C No. 22

[Council to The Delegates from Maryland in Congress.]

Gentlemen In the Execution of the Law to procure an immediate Supply &^ca^ we have been embarrassed, but nothing has given us more Uneasiness than the Idea that the Conduct of our State, in seizing the French Flour, may, possibly be imputed to some Motive different from that of relieving the alarming Distresses of the Army, which has rendered us the more desirous that you should converse with the Minister of France and explain the Whole of this Business. We would have him convinced of our firm Attachment to the Alliance, our Desire to promote the Interest of France and facilitate the Operation of their Fleets and Armies, and to supply them with the Means of Subsistence, and that Nothing but the most urgent and pressing Necessity could have constrained us to subject the French Flour to Seizure; that we wish to have, from Congress, or the General, that the Army is supplied, on which Event, we shall not hesitate to order Restitution of the Flour and Wheat, lawfully purchased. We request you to explain the Nature of our Power, that we act in a Subordinate Capacity and cannot make, repeal or suspend the Execution of any Law. The Minister informs us that he has imparted to Mr Plater, some fatal Consequences which will result from our not restoring the Flour besides the Inconveniences suggested to us; we cannot conjecture what they are. We have not yet been furnished with Re-

turns from all the Commissioners of the several Counties, of the Flour and Wheat obtained under the Law, but from those received, the Quantity does not exceed 8000 Barrels, exclusive of the Flour purchased for the French. It would give us infinite Pleasure to be favoured with a Communication of the several Matters of Importance agitated in Congress which relate to this State.

[Council to Colo. Isaac Perkins, Kent]

Sir We received yours of the 12th Ins^{t} As to the Line of Conduct to be observed by you, with Respect to the Flour and Wheat purchased for the French, and the other Matters submitted to our Con-

sideration; we refer you to our Letter of the fifth, a Copy of which is enclosed. We think the Certificates given by the Commissioners, are discountable out of the Assessments that the Sheriffs are now collecting, or any future Assessment at the Option of the Bearer of the Certificate. We have sent you an Order on the Collector of your County for the further Sum of £3000. Liber C C No. 22

[Council to Colo. Henry Hollingsworth.]

Sir Sundry of your Letters have been received by this Board, which we have hitherto wanted Time and Opportunity to answer. Agreeable to your Request on the 30th of Decr an Order was drawn upon the late Collector of Cecil County in Favor of Mr Harwood the Continental Treasurer for £93750 Subject to your Order as a Part of the sum granted to Charles Pettit by Warrant from Congress. In Answer to your second Letter, of same Date, we have to observe that no Charges have been exhibited against you for Misconduct The Letters and Certificate which you enclosed were returned through Mr Harwood, as we were pressed in Point of Time and he had Occasion to write you. Yours of the 15th of January, gives us a high Sense of your Attachment to the Interest of America and your unremitting Exertions to discharge the important Duties of your Office: your Measures are prudential and very pleasing to us. It certainly would be most adviseable to remove the Flour from the interior Parts of the Country first, as there will be a Chance of having Water Carriage for what lays on Rivers and the Bay before the whole is sent off. The Attention you mention in your Letter of the 26th of Jany to have given to the Flour then lying at Susquehanna, was very necessary and may be a Means of preserving much that, otherwise, would be exposed; the expensive Manner of forwarding it will most certainly be avoided, as soon as we are informed that the Army is well supplied. Your Returns of the Quantity of Flour sent forward, are received. The Conduct of the Commissary, in ordering the Wheat to be carried to Mills out of the direct Route to Camp, is very extraordinary, nor is that of the French Agents p. 69 more easily to be accounted for. As to Certificates for Money lent to the Continent, that Business is solely with the Commissioner and as we are not inclined to multiply ours, which we are sorry to find considerably encreasing every Day; therefore refer you to him suggesting at the same Time, that the Law under which you were appointed to receive Loans expired the last Session. We had heard of several valuable Officers refusing to qualify under a Law of the last Session and we had Apprehensions of losing you; but the Receipt of yours of the 31st Ultimo, gave us Relief and Pleasure. By your Letter of the 8th Inst you are somewhat perplexed by the Dispute between the State Commissioners and the Commissary. We have determined finally on this Point, of which these Commissioners are

Liber C C No. 22

fully informed. We approve fully of the Steps you have taken to detect Frauds and Impositions in purchasing of Flour and trust you will continue to act with your wonted Circumspection; such Abuses ought to be corrected and discouraged. We shall not fail to take the necessary Measures to strengthen and cooperate with you in a work so laudable and Salutary as preventing such Practices in future. Your Complaints of the Order of Flour sent you, are repeated in yours of the 13th Inst^t where it is necessary, we wish you to have it repacked and in every Instance, it may not be amiss to weigh it. It surely is the proper Province of the Commissioners to see that Justice is done the Public in the Weight as well as the Quantity of the Flour and the Inattention of those of Baltimore and Harford, on whom we greatly relied, surprizes us. Mr Wright is licenced according to the Law of the last Session, and your Request, for the sixth District. In Answer to yours of the 15th Inst^t we inform you, that your Licence is granted and enclosed. Your Motives for continuing in your Department and not buying Provisions, by which a Competition would be created with the Commissioners, are truly praiseworthy. An Extension of your Care and Attention, to Baltimore Town, would not be amiss, as the only acting Person in that District is in an inferior Station, and may require your Advice and Aid. The Contract made by Mr Wright with the Gen^t of Virginia, we think advantageous to the Public, and as our Interposition would be rather out of our Line, advise you to request Genl Green to apply to the Government of Virginia to permit an Exportation of the Grain purchased. Mr Wright has the Order on the late Collector of Cecil for the Money you require

Sir Having received and answered some Letters from His Excellency the Chevr De la Luzerne on the same Subject with yours of the 28th ultº & 9th Instt we have less Occasion to be particular in our Answer to yours of those Dates. they shall be laid before the General Assembly, which is to meet the 2d of next Month. In the mean Time we request you to inform us on what Foundation you ground your Expectation of having, from this State, 12000 Barrels of Flour. We have looked over the Papers on this Subject and find, in a Letter from a Committee of Congress, July 13th 1779, that we are desired to let Mr Smith have 5000 Barrels of Flour on your Account, and Orders were given accordingly. The following is an Extract from Mr Gerrard's Letter 21st Augt 1779 "Permit me in availing myself of this Regulation to entreat your Excellency's Permission for exporting, in the Month of November next, about 5 or 6000 Barrels of Flour and about 5 or 600 Barrels of Salt Provisions." We refer you to your Letter of the 26th August 1779 wherein you inform us that you had authorized Mr Smith in Baltimore to purchase with all Speed 4000 Barrels of Flour to be shipped for Martinico, in Addition to 2000 Barrels Part of those he had in Store, which were furnished by Orders of the Committee of Congress. Since the Receipt of that Letter, we cannot find among our Papers, any from you, until yours of the 28th ultº came to Hand. Every Motive combines to induce us most earnestly to wish for certain Information of the Army's being supplied that we may not only have it in our Power to grant permits to the Vessels which are to sail under Convoy of the Fendant, but that all the Flour legally purchased under your Directions may be applied to the Purpose for which it was first intended. p. 70

[Gov. Lee to ———]

Sir Messrs Rogers Hepburn and Leeke have represented to the Council and myself and we believe very truly, that the Flour which you lately seized in Patuxent River, in Virtue of the Law for the immediate Supply of the Army, was purchased in Baltimore for the Consumption of their several Families. That, at present they are entirely without, and that ten or eleven Barrels, which is the Quantity you have taken, is not more than three Families can consume in four Months. Under such Circumstances, the Council join me in requesting you to restore to those Gentlemen, the whole of their Flour, apprehending this Case is not within either the Spirit or Letter of the Law. You have a Power to impress Vessels to transport the Articles you Seize, to the Head of Elk and the other Places mentioned in the Law, and we think it will conduce more to the Interest of the State to keep the Corn on Board the Vessel and send it away in her, than to land it

[Council to His Excellency Governor Jefferson of Virginia]

Sir We had the Honor to receive your Excellency's Letter of the 30th Iany The Necessity which constrained our Assembly to enact a Law, the extensive Operation of which has interfered with the Purchases made by your Agent, for the Subsistence of the Military of your State, we must deplore, and can assure you that an anxious Solicitude for the Welfare of the United States and an Opinion that nothing short of the most vigorous and sudden Exertions, could procure an immediate and full Supply for our distressed Army were the only Motives which prompted them to make it so general. We are Satisfied it is not the Intention of the Act, to provide Supplies for State Troops, because, when it was made, it was not known that the Military of any particular State was in Distress. The Object of the Assembly being an immediate and full Supply for the Army, we cannot admit your Exposition of the Law, because it would in some Degree counteract the Purpose of it and because we think the word "others" was inserted with a View of including every Person in whose Possession any Flour or Wheat was found and may well comprehend the Agent of Virginia; and that, unless such Construction is made, as there is no other Person except the Agent of the Marine of France (whose Flour is also deemed Seizable) to whom it can relate, that word would be deprived of its Effect, and a well known Principle in expounding Acts of the Legislature would be infringed, that a Law ought to be so construed that no word should be rendered void or insignificant if it can be prevented. We must further observe that the Intention of the Assembly ought to prevail, which is to be collected from the *Cause* or *Necessity* which induced them to make the Law. We cannot esteem it necessary to enter into a minute Discussion of the present Question or to resort to nice and subtil Reasoning to justify an Exertion which was requisite to prevent the numerous Calamities which must result from the Dissolution of the Continental Army. We are sensible it is the mutual Interest of both States to preserve the Harmony that subsists between them which, added to our Desire to contribute all we possibly can to the Relief of your Distresses, make us wish to receive Information from Congress or His Excellency General Washington, that the Army is supplied, that we may have it in our Power to restore your Flour, before you feel any Inconveniencies from the Seizure of it. Our Assembly will meet the second Day of March when your Excellency's Letter will be laid before them for their Consideration.

Present as on Yesterday.

By a Certificate transmitted to this Board by James Shaw one of the Justices of the Peace of Dorchester County in the State of Maryland, it appears that Freeborn Garretson was carried before him as a Disaffected Fugitive from the State of Delaware, who on Examination by him acknowledged he had not taken the Oath of Fidelity to his State or either of the United States and refused to take the Oath prescribed by an Act of the General Assembly of Maryland entitled an Act for the better Security of the Government, Whereupon he committed him to the Goal of Dorchester County. Ordered that the said Freeborn Garretson be released from his Confinement on his entering into a Bond in the Penalty of £20000 with good and sufficient Security for his Personal Appearance before the Executive Council of the State of Delaware within 20 Days from the Date of the Bond and also to return a Certificate from the said Executive Council of his having made his Personal Appearance before them with 30 Days from the Date of the said Bond.

Leave is hereby given if his Excellency General Washington shall approve the same to William Potts Esq[r] to bring from New York by the same Conveyance in which Mrs. Achsah Chamiers Furniture is brought, a Mahogany Bedstead, Feather Bed and suit of Curtains, he having satisfied this Board that they are his Property & not intended for Sale

[Council to James Woolford 3d Esqr. Shffe of Dorchester County]

Sir It appears to this Board by the Certificate of James Shaw that a certain Freeborn Garretson has been apprehended as a disaffected Fugitive from the State of Delaware and committed to the Iail of Dorchester County in Virtue of the "Act for the better security of the Government" after his Refusal to take the Oath prescribed by the said Act. We have determined to release the Prisoner, on his giving Bond with good and sufficient Surety in the sum of twenty thousand Pounds, to make his personal Appearance before the Executive of the State of Delaware within twenty Days after the Date of such Bond; and on complying with the Terms specified in the Bond herewith sent, the Blanks of which Bond we request you will have filled up and legally executed previous to giving a Discharge, and transmitted to this Board

[Council to Colo. Henry Hollingsworth]

Sir We have received a Letter from the Board of War, informing us, that by Letters from the Commissary General of Issues, it is by no Means improbable that the Army will be obliged to disband, unless the Speediest Relief is afforded by forwarding as much Flour as possible, to prevent the Distress likely to fall on the Army, and the dangerous Consequences which may probably attend it. Under these Circumstances, we have to request your utmost Exertions and that you will inform us frequently, of the Quantity of Supplies forwarded by you

[Council to The Commrs for Charles & St. Mary's Counties]

Gentlemen We request you to supply to the Recruiting Officers and others returned on Furlough, in your County, Provisions and Forage on their producing General Smallwoods Requisition for the same.

[Council to Gen'l Smallwood.] Liber C C No. 22

Sir Your Letter of the 7th Inst was handed to us this Day by Colo Ienifer and by the same Opportunity we enclose you Letters to the Commissioners of Charles and Saint Mary's Counties, desiring them to furnish, upon your Requisition, supplies of Provision and Forage, for Recruiting Officers and Parties, in those Counties and also for Officers on Furlough. The late Resignations of Commissaries and Quartermasters have been attended with Inconvenience which, we hope, may be, in some Measure, remedied, in this Instance, at least, by the step we have taken.

[Council to Honble Board of War]

Gentlemen We had the Honor of receiving your Letter of the 7th Inst at 6 o'clock last Evening: the Subject is of a most Serious and alarming Nature and you may rely upon our immediate Attention to it. Every Exertion shall be made on our Part to extricate the Army from its present Difficulties and Distress, we, however, cannot avoid expressing our Astonishment on finding the Magazines in such an exhausted State, after the Numberless Accounts received of plentiful Supplies being received at Camp. These Accounts, we must observe, were not officially given but they, however came through such a Variety of Channels, we thought them entitled to some Credit, especially as we had received nothing contradictory from Congress Your Honble Board or the General. We again beg you to be assured that we will make every Effort to send forward to Camp, all the Flour that is or may be collected, without Loss of Time.

[Council to the Commissioners of the several Counties] p. 75

Circular Extract of a Letter from the hōnble the Board of War, to the Governor dated March 7th 1780—

" We are alarmed and most feelingly distressed at the Accounts we have just received from the Commissary General of Issues, of the State of the Magazines of Provisions at Camp. Unless the Speediest Relief is afforded it is by no Means improbable that the Army will be obliged to disband the Vicinity of the Camp and indeed the whole State of Iersey being exhausted by its Exertions for the Supply of the Troops this winter. We have therefore most earnestly to request the Assistance of your Excellency and the Honorable Council upon this disagreeable Exigency and we beg you will cause as much Flour as possible to be forwarded that the Distress likely to fall on the Army and the dangerous Consequences which may probably attend it, may be prevented "

Gent. The above, we trust, is sufficient without any Exhortation of ours, to impress on your Minds the absolute Necessity of forwarding, without Delay, all the Flour you may have in Readiness and to

Liber C C No. 22 hasten the manufacturing of the Wheat in your Hands; the Flour and Wheat taken from the French Agents excepted.

The following Post script to be added, to the Commissioners for Baltimore County, "The enclosed Order on the Collector of Baltimore County for £8000 is sent at Mr Stevenson's Request, contained in his Letter of the 8th Inst"

[Council to Mr. John Page, Kent County]

Sir—We have received yours of the 2d Inst and approve of your Storing, at convenient Landings the Provisions collected in Virtue of the Act for the immediate Supply of Flour and other Provisions for the Army: they must certainly be transported with more Expedition as well as Ease by Water, than by Land and it must have been the Intention of the Legislature to furnish the Army in the Manner the least burthensome and inconvenient to the State, if it could be done with equal Speed and as you are peculiarly circumstanced, the Mode you have adopted is the most preferable. You are to retain in your Hands the Vessel and Grain, which is said to be the Property of Mr James Hutchings, until you make a thorough and satisfactory Enquiry into the Nature of that Transaction. If the Cargoe is the Property of the State, the Vessel must have been freighted by some of the Commissioners to remove it, of this you may satisfy yourself without Difficulty. You have an undoubted Right to seize the Grain, Flour &ca which may be found in the Hands of Mr Wederstrandt and every other Person under the Restrictions pointed out by the Law. We invariably directed the Commissioners to seize, as the Law warrants, all the Flour and Grain purchased for the French Agent, of which they are to take a particular Account and transmit to this Board, but no such Flour or Grain is to be removed or sent forward to Camp, without our further Orders; this is mentioned for your Government in such Cases. The Purchases of Millers are equally liable to Seizure, the Law makes no Distinction betwixt them and other Purchasers. The Ship Stuff and Bran you are to send an Order on the Collector of Kent County for £2000 and Certificates are herewith sent agreeably to your Request

p. 76 [Gov. Lee to Colo. Henry Hollingsworth]

Sir Aaron Ringrose Skipper of a Boat with 117 Barrels of Flour, this Moment called upon me for Instructions as to its Destination. The Flour is sent by Colo P. Tilghman one of the Commissioners for Talbot County, who did not know to whom the Council and I would have it forwarded and by his Directions, I have been applied to. The wind is fair and the Man uneasy to get under way, I have therefore, for the Sake of Dispatch, which is essentially necessary at this critical Iuncture, and without troubling the Council in the Business, ordered him to deliver his Cargoe to you

Sir Yours of the 7th Ins^t came to Hand Yesterday Morning and Aaron Ringrose the Skipper of the Vessel, with 117 Barrels of Flour was immediately dispatched to the Head of Elk with Directions to deliver his Cargoe to Col° Henry Hollingsworth, to whom we must request you will forward all the Flour Wheat &^ca you may collect in Virtue of the Act for the immediate Supply of Flour and other Provisions for the Army, and as water Carriage is attended with less Expence to the Public as well as less Inconvenience to Individuals we prefer that Mode of Conveyance. We are clearly of Opinion that the Flour &^ca purchased by the French Agents are liable to Seizure by the Letter as well as the Spirit of the Law under which you act, and upon every Application made to us by the Commissioners, we have invariably directed them to take such Purchases into their Possession, and transmit to us a particular Account thereof but to wait our further Instructions before they are forwarded to Camp

[Council to Capt. Levin Handy]

Sir—We are sorry to hear your Endeavours to procure Recruits have not been attended with the Desired Success. The Assembly will probably meet in a few Days and if it should appear to them that the Public will receive an Advantage by extending the Term beyond the first of April for giving the State Bounty to Recruits, there is little Doubt but it will be done; we have not the Power to continue it beyond the Time limitted by the present Recruiting Law. Col° Dashiell informs us that it has been suggested to that Order of People who were most likely to enlist, that a Draft from the Militia would probably take Place, which may have induced many to decline entering into the Service for the Present, from an Expectation of getting more as Substitutes. We think there is no Prospect of a Draft as by a Letter from His Excellency the General, the Deficiencies of the Maryland Quota is much less than we expected

Sir Mr McComas informs us you have refused to receive Certificates given in Virtue of the Act for the immediate Supply of Flour and other Provisions for the Army in Payment of the late Assessment. We think it must have been the Intention of the Legislature to have taken every Measure in their Power to soften and reconcile to the People a Law which was founded in Necessity. It would have been rather hard, first to strip the Subject of the only Means of raising Money and afterwards refuse Certificates which they esteemed equivalent to Money, in Discharge of the Assessment. We are therefore the more inclined to think it must have been the Design of the Assembly to have made the Certificates discountable in the late as well as future Assessments.

Sir. We enclose you an Order on the Collector of the Tax for six thousand Dollars to pay for the 200 Hats you mention, with which you are to close your Purchases

[Council to The Commissioners for Baltimore Town]

Gentlemen The General Assembly in Conformity to a Requisition of Congress have requested us to direct fifteen thousand Barrels of Flour to be delivered to the Agent of France, including the Quantity he was heretofore permitted to purchase by Authority of this State. We therefore request you to have delivered to Mr William Smith of Baltimore Town, all the Flour and Wheat seized by you in Pursuance of the Act for the immediate Supply &^ca If any of the Wheat seized by you has been manufactured you must deliver the Flour &^ca produced therefrom to Mr Smith

[Council to William Smith Esqr.] p. 83

Sir You will perceive by the enclosed Resolve of the General Assembly that the Governor and Council are requested to direct a Quantity of Flour to be delivered to Mr Holker or his Agent which, with what he has been already permitted to purchase by the Authority of the State may in the Whole, compleat the Quantity of fifteen Thousand Barrels. It appears by a Letter from the President of Congress accompanying the Recommendation upon which the above Resolve is founded, that this State is to be credited with all the Flour with which the French is to be supplied exceeding the Quantity heretofore permitted to be purchased in this State for their Use. We cannot after the strictest Search among our Papers, discover, that the Minister or Agent of France, either by a direct Application to this State or through Congress or a Committee of Congress was ever allowed to purchase more than 8000 Barrels in the whole, for the Use of the Marine of France and must request you to inform us what Quantity the French Agent was permitted to purchase by the Authority of this State and if it exceeds 8000 Barrels, to point out when and in what Manner the Allowance of this State was obtained. We also desire you to inform us what Quantity has been purchased by you and your Deputies for the French Marine and how much has been Shipped by you for that Use, and when, and the Names of the Deputies employed by you. In desiring such precise Information from

you, we are actuated by the following Reasons; If the Agent of France, as has been insisted by Mr Holker, had Licence from this State to purchase 12000 Barrels; we shall have Credit for only 3000, but on the Contrary, if he was allowed to purchase only 8000 Barrels, we shall have a Right to claim a Deduction of 7000 Barrels out of the Quota of 20000 to be furnished by this State, agreeable to a Requisition of Congress of the 25th Febry last. We have sent you Permits to load the Schooners Holker and Morris with Flour for the Use of the French Fleet and Army and have directed the Commissioners of Baltimore Town to restore all the French Flour and Wheat in their Possession seized by them and if any of the Wheat has been manufactured, to deliver the Flour produced therefrom

Sir On Mr William Smith's Application to export 500 Barrels of Flour and the same of Bread, to Virginia for the Use of the

French Marine, Permits are to be granted under similar Restrictions expressed in our other Permits for that Purpose Liber C C No. 22

[Council to Wm. Smith, Esqr.]

Sir. Your Letters of the 3d Instant, we have received and have sent a Permit to load the Schooner Baltimore and a Copy of the Resolve of the Genl Assembly of the 30th March which our Secretary was directed to enclose in our last we shall write to the Naval Officer of Baltimore to permit you to export the Quantity of 500 Barrels of Bread and 500 of Flour, to Virginia for the use of the French Marine. The French Agent is not at Liberty to continue his Purchases; such a Quantity of Flour will be delivered to him by our Order, as with what he has already been permitted to purchase, will make in the whole 15:000 Barrels. We are anxious to have the precise Quantity purchased by you and your Deputies ascertained as speedily as possible, that we may give Directions to have the enclosed Resolve fully complied with. The Extract of our Letter of the 17th Iany last which you obtained by Accident appears to have given you more Uneasiness than we think any Expressions contained therein can justly excite: those Parts which you deem so offensive, have p. 85 not any Allusion to you or your Conduct, they relate to those Persons who, desirous of deriving considerable Advantages from their illegal Purchases and contriving to elude the Law, pretended that the Wheat and Flour in their Possession was purchased for the French, expecting thereby, to exempt those Articles from Seizure. Our Letter was wrote to the Commissioners of Cecil in Consequence of Information received from them, that many Obstacles were thrown in their way to retard, if not prevent the Execution of the Law and particularly that the Possessors of Wheat and Flour to avoid a Seizure, pretended they were purchased for the French, and was a Direction to them pointing out the Line of Conduct to be pursued under the Law in procuring Supplies for the Army and was calculated to frustrate the Artifices of pretended French Agents, who were sedulous in Attempts to defeat the desirable End of the Law. We have laid all the Letters and Papers that relate to the Seizure of French Flour and the Part you have taken therein, before the General Assembly and we make no Doubt that, that Body, on your Application, will afford you an Opportunity of vindicating your Character and freeing it from the Aspersion attempted to be cast on it

[Council to the Board of War]

Gentlemen We have been informed there have been frequent Instances of States exchanging Officers taken by the Militia for those of their respective States, in the Hands of the Enemy even without an Application to your Honorable Board or His Excellency. If we are rightly informed, and such Practice has generally prevailed and been acquiesced in, it is our earnest Desire that Lieu^{t} Colonel Connelly who was captivated in this State and is now in your Custody, being deemed and adjudged by Congress a Prisoner of War and redeemable, should be exchanged for Lieu^{t} Col^{o} Ramsay, an Officer of extraordinary and distinguished Merit in the Maryland Line. As those Gentlemen are equal in Rank, we flatter ourselves no Objection can be made to such Exchange. This Application would not have been so long neglected, if we had not expected that a general Cartel would have been established and rendered it unnecessary.

[Council to His Ex'y Gen'l Washington]

Sir We have wrote to the Board of War, requesting that Lieu^{t} Col^{o} Connelly, who was captivated in this State, and is adjudged by Congress, a Prisoner of War and redeemable, may be exchanged for Lieu^{t} Col^{o} Ramsay, an Officer in the Maryland Line. The extraordinary Merit of this Gentleman makes us very solicitous, that this Exchange should take Place and has induced us to desire your Excellency's Interposition in his Favor, if it should be approved by you. We are informed that there have been several Instances of such Exchanges having been made to the Advantage of other States, and from thence are led to hope there will be no Difficulty in complying with our Request in the first Instance

Sir The Difficulty you are under, in Consequence of your Contract with Thos Maccaulley appears to us to have arose from your purchasing instead of seizing the Corn in his Possession. You have still a Power of seizing it, which you ought to do and pursue the Directions of the Law. Some Certificates are sent by the Bearer.

[Council to Colo. Josias Carvil Hall.]

Sir—We received your Favor of the 6th Inst and have agreeable to your Request, appointed Adam Hoops Capt Lieut to fill the Vacancy occasioned by the Resignation of Mr Cromwell. Mr John Randall was appointed an Ensign, but the Board of War refused to commission him, his being State Agent at the Time, we conjecture to be the Reason, and therefore conclude a Reappointment previous to his Resignation, would be unnecessary. We cannot appoint Mr James Clark, consistent with the Recommendation of Congress, by which we are desired to forbear any further Appointments. We shall transmit a Certificate of the Appointment of Capt Hoops, to the Board of War. By an Act passed in October 1777, the County Courts are empowered to afford Assistance to the Families of Recruits raised in Virtue of it, during the Absence of such Recruits, if they stand in Need, and we observe similar Clauses are inserted in the subsequent recruiting Acts. The Soldiers that enlisted prior to October 1777, under former Laws, are not comprehended within the Letter of either of those Clauses, but we have no Doubt of their being within the Spirit, and think their Families equally entitled to the Assistance of the Public

[Council to Mr. Elijah Cole]

Sir We received your Letter of the 27th March and have sent you an Order on the Collector of Cecil for two thousand five hundred Pounds current Money for the Purpose of purchasing Flour Barrels, which we imagine will be fully sufficient, if not, inform us.

[Council to Mr. William McBryde]

Sir Your Letter of the 19th Jan^ry we lately received. You must send forward the 152 Barrels of Flour purchased by Order of the Governor and Council and deliver it to Mr Henry Hollingsworth at the Head of Elk and take his Receipt; you must also deliver the Corn to Mr Hollingsworth and send us an Account of the Quantity.

[Council to Gen'l Smallwood]

Sir We had the Pleasure of receiving your Favor of the 15th Ins^t by M^r McClain and have given him an Order for Cloathing for the Recruits and an Order on the Collector of Charles County for 3000

Dollars. It is not in our Power to furnish them with Blankets at this Place. We are much concerned that Mr Randall, by his Manner of distributing the Cloth purchased for the Officers has given Cause for the Complaint of Partiality, mentioned in Colo Gunby's Letter to you and can assure you that it is our Inclination to remove that and every other Ground of Disgust and Uneasiness among the Officers and we shall take such Measures as will effectually prevent the like Complaint

Sir Upon a Consideration of all Circumstances, we prefer the Purchase of Mr Hudson's Blankets to Colo Dorsey's Baize and therefore desire you to engage all he has at £125 to be paid for in a reasonable Time, that is to say, when the State of our Treasury will admit of it. You are to secure the 500 yds of Oznabrigs immediately and we wish you to make a considerable Addition thereto, especially if to be had for 17 Dolls the whole to be made into Overalls. If the Maryland Troops should march to the Southward, Linen Overalls will be indispensably necessary, as well as a large Supply of Shoes. To call your Attention to the Purchase of those important Articles of Cloathing, we trust is needless, shall therefore only recommend Expedition. You will not deliver the shoes without further Orders, as we apprehend the Officers have no Claim upon the State for them. Send us a particular Account of all the Cloathing you have on Hand with a Description of the Qualities as near as can be. We are sur-

Sir—It is with great Pleasure we inform you that the General Assembly have passed an Act, enabling us to afford Assistance to the Captive Officers of this State in New York. If a Flag and Passport can be obtained, we have a Power to send into New York or such Place as the Enemy will permit, such a Quantity of Flour, Corn, Beans, Peas, Bacon and Pork, in Barrels, as may be deemed sufficient by this Board, for the Support of the Officers of this State now

with the Enemy, and as much Bar Iron and Pine Plank, not exceeding one Inch in Thickness as will furnish each Officer with Specie to purchase Cloaths, Linen and other necessary Apparel and to defray contingent Expences. Our Wish that this Business should be conducted in such a Manner as will most speedily relieve the Wants of the Officers and give them Satisfaction, induces us to hope a Flag and Passport may be procured from the Enemy to send into New York for the Captive Officers of this State not more than 125 Barrels of Flour, 50 Bushels of Peas 6000^{lt} of Bacon and 10 Barrels of Pork thirty Tons of Bar Iron and 40,000 Feet of Pine Plank; a Blank to be left for the Name of the Vessel and the Names of the Captain and Hands to navigate her. We do not think the above mode liable to any Objection, because the Extent and Kind of Supplies to be sent will be known and if they do not exceed what will be sufficient to answer the Purposes of relieving the Wants of the Officers and supplying them with Specie to purchase Cloathing no Inconvenience can possibly result to the Enemy from their Indulgence. If the Enemy will not grant a Flag and Passport in a Way so general, be pleased to let us know by the earliest Opportunity, in what Manner they may be obtained, that the most effectual Measures may be fallen on to expedite the necessary Supplies.

Sir You are to proceed down the Chesapeake in the Plater State Boat and keep a careful and diligent Look out for the Ships of War and Cruisers of the Enemy, lest they are apprized of the Route of our Troops destined for reinforcing the Southern Army, and may attempt to intercept them on their Passage down the Bay. If upon a careful Examination of the Vessels in the Bay, you receive any Intelligence of the Enemy, you are to give immediate Information to this Board and to the Vessels transporting Troops, which you may fall in with on your Return. We recommend the greatest Attention and Vigilance in the Execution of this important Trust, and wish you a safe Return.

Same Letter sent to Capt Middleton of the Dolphin, with the following Addition. " The Letter to the Governor of Virginia must be delivered, if possible, into the Hands of some proper Officer, to be forwarded immediately to him."

Enclosed you have an Order on the Collector of Baltimore County for twenty thousand Pounds to enable you to comply with your Contract. You must transmit us an Acc^{t} of the Money expended by you in the Purchase of Pork and Beef

[Council to the Collectors of the Tax]

Sir We have transmitted you a Copy of a Resolve of the General Assembly, requesting us to send to the Collectors to make immediate

Payment of the five Pound Tax. Our Treasury is empty and, unless the Collectors exert themselves and pay in the Money as soon as received it will not be in our Power to conduct the Public Business for without Money nothing can be effected. The Necessity of obtaining a large Sum for the Officers to enable them to bear their Expences on their March to the Southward, we are satisfied, is sufficient to prompt you to use the utmost Diligence in Collecting.

Liber C C No. 22 p. 101

[Council to the Commissioners of Baltimore Town.]

Gentlemen One Half of the Maryland Division are now at this City, on their March to the Southward, the other is daily expected. Before they can proceed, it is absolutely necessary that two hundred thousand Pounds should be distributed among the Officers, to enable them to defray their Expences on their March. Congress have resolved that the Officers be indemnified in the Loss they have sustained by the Depreciation of the Money, but cannot comply with their Resolution at this Time, being destitute of Money. The General Assembly impressed with the Necessity of Supplying the Officers with a Sum adequate to the above Purpose, and revolving in their Minds the exhausted State of the Treasury and the Want of other Means to procure Money, found themselves constrained to have recourse to the Expedient of Borrowing and have authorized and requested us to make Application to the Inhabitants of Baltimore Town for a Loan of two hundred thousand Pounds. If the Expedient should fail, we cannot say what will be the Result, but the most dreadful Consequences are to be apprehended, from detaining the Troops here, and the Officers cannot march without Money. The Inhabitants of Baltimore must receive the highest Satisfaction from the Idea Suggested by the Resolve that the Treasury is exhausted and all other Resources to procure Money fail the Virtue, Magnanimity and patriotism of Baltimore may be depended on, to extricate the State from its Embarrasments and Difficulties at the most critical Conjuncture. We have candidly represented our Situation without Colouring or Exaggeration and flatter ourselves that will be a Sufficient Inducement with them to render the Assistance required. The Money lent is to be repaid within three Weeks. We request you to convene the Inhabitants of the Town immediately and to lay this Letter and the enclosed Resolves before them. If you think the Money will be lent keep the Express and send it down by him.

As we do not know where you intend to make the Purchase and are not sufficiently acquainted with the Landings on the Eastern Shore, we must leave it to your own Iudgment whether it would not be best to have the Plank conveyed to Baltimore, where the Vessel in that Case might take in all her Loading if a Flag is obtained, or if not, it might be readily sold for at least Cost and Charges

[Council to Jonathan Hudson Esqr]

Sir We have just received yours of the 5th Inst and on making an Enquiry into the State of the Treasury, are concerned to find it is not in our Power at present to pay the Whole of Mr Keeport's Order in your Favor. We yesterday paid Mr Keeport's Order at Sight for £2000 and have given an Order for five thousand to Mr Blake in Part of the Order for thirty thousand Pounds and the Remainder will be paid as soon as possible. We have to lament your Disappointment and to assure you it is founded in the exhausted State of the Treasury only and not in Want of Inclination in us.

Sir The Distress of the State for Money has been so very great, that the General Assembly to supply the Officers to enable them to bear their Expences on their March to the Southward, have been constrained to Solicit a Loan of £200,000 from the Inhabitants of Baltimore Town. We are not so sanguine as to expect this Requisition will be fully complied with and therefore have sent this Express for all the Money you can spare, to make up the Deficiency of the £200,000 and to answer the ordinary Demands on the Treasury. As this Money is to be paid in three Weeks, we have wrote to the Collectors of the several Counties to make Payment of the five Pound Tax, as soon as possible, and hope you will use every Method to induce them to bring in the Money without Delay and for that Purpose request you to forward the Letters herewith sent.

Sir Your Letter of the 8th Instt we received. It is not yet in our Power to ascertain the Quantity of Flour and Wheat purchased for the French Marine, that was seized by the Commissioners of this State; when we have Information on this Subject, it shall be communicated. The Commissioners have been directed to restore to Mr Smith and his Deputies what was seized, and if Restitution has been made of less than was seized, the Commissioners must account to us for the Residue. Mr Smith must know what was seized in his Possession, and when his Deputies make Returns of what was purchased by them and seized by the Commissioners and since restored, in Pursuance of our Directions, he will be enabled to ascertain with exact Precision, the Quantity purchased, the Quantity seized, and the Quantity since delivered up. If the Commissioners have not restored what they seized, Measures will be adopted to compel them to account for the Deficiency. We do not mean to give Assurances that cannot be depended on, and therefore must delay complying with your Request, 'til we obtain a full and satisfactory Account of the Flour and Wheat procured in Consequence of our late Law. If we p. 103 p. 104

were to act otherwise, the Evils resulting from a Disappointment would be justly imputable to us. Our Sense of the Importance of supplying the French Fleets and Armies, corroborated by our earnest Desire that every Matter transacted in this State for the Interest of our Ally should give entire Satisfaction to the Minister, will prompt us to give the Assurance solicited as soon as possible and to use every Exertion to prevent his Plans and Operations from being disconcerted or in any Manner embarrassed. In our Letter of the 1st of April to Mr Smith we requested him to inform us what Quantity of Flour and Wheat has been purchased in this State for the French Marine, and how much exported. By his Letter of the 13th April, he has promised to let us know the Amount of the Purchases made by him and his Deputies. This Information is necessary and we have no Doubt will be given, as soon as Mr Smith can get Returns from his Deputies. You may rest assured the 15000 Barrels will be made up, but, such is our present Situation that we cannot say when the whole will be delivered—

[Council to John Hanson and John Henry Esqrs.]

Sir—A Letter received yesterday Afternoon from the President of Congress, dated the 19th Ins^t advises that the State of Maryland is,

at this Time unrepresented in Congress and "That Matters of great Importance are now lying before Congress, which require the united Councils and vigorous Exertions of all the States," at the same Time earnestly requesting that Maryland may be represented as soon as possible. We take the Liberty of enclosing you an Extract of a second Letter from the President, received by the same Opportunity which fully evinces the Propriety of the first and the Necessity of an immediate Compliance with the Request therein contained

[Council to the Agents appointed to receive Loans on the several Counties]

Sir The exhausted State of the Continental Treasury, arising from the Depreciation of the Paper Currency, the Backwardness of the States in furnishing their respective Quotas and the want of other effectual Resources, have induced Congress to solicit this State in the most earnest and pressing Manner to supply them with 1.234.350 Dollars by the 15th of Iune. This Money is our Proportion of ten millions of Dollars to be appropriated to the sole Purpose of bringing Our Army into the Field. The Recess of the General Assembly at this alarming Crisis and the Impossibility of convening them in proper Time to take Measures to comply with the above Requisition, make it incumbent on us to exert ourselves and to devise the most effectual Means in our Power to obtain that Sum. We are deeply impressed with the Necessity of putting our Army in motion and furnishing such Supplies as the Exigency and Nature of the Service require. In this Situation, no Mode so likely to procure the desired sum, within the Time limited, has occurred to us, as that of attempting a Loan. We are the more inclined to think this Measure cannot fail of Success from a recent Instance, that the Contributions of some of our virtuous and patriotic Citizens have afforded us. We know such is the Virtue and Patriotism of our Citizens, that they will contribute their Money and exert themselves to the utmost, to relieve our Army and enable them to cooperate with our noble Ally in accomplishing a Termination of the present War, and removing those Evils and Calamities which are incident to it. We request you to apply to all the Inhabitants of your County, who you think can and will lend Money on this important Occasion, shew them this and the enclosed Extracts of a Letter from Congress and conjure them by that Love of their Country and Desire of Independence and establishing a permanent and happy Peace, which are the desirable Objects we are contending for, to lend us all the Money they can spare, upon this trying Emergency. The Money you obtain, you are to give a Receipt for and to engage the Repayment of, with 6 ꝑ Cent Interest by this State, as soon as a Sufficient Sum of the present Assessment is collected to enable us to do it. We desire you to pay the Money to the Treasurer of either Shore, as fast as it is obtained.

[Council to the Members of the General Assembly]

Sir You will perceive, by the enclosed Extracts of a Letter and Resolve of Congress of the 19th Inst that our State is called on for 1.234.350 Dollars their Proportion of ten Millions of Dollars, without which the Army cannot be put in Motion. Congress have pointed out so fully the pressing and indispensable Necessity of an immediate Compliance with that Requisition, that we esteem it quite unnecessary to superadd any Arguments to evince the Propriety of the Assembly's meeting to adopt the most efficacious Measures for that and other Purposes of the greatest Moment. Nothing but the most important Business could have induced the Governor to convene the Assembly so early as the seventh Day of June, and we hope that, and the Consideration that you may dispatch the Business in Time to return to Harvest, will influence you to meet on that Day without Reluctance

[Council to Richard Dallam Esqr]

Sir We have received yours of the 7th & 14th Ins^{t} A Law is passed for obtaining a Loan, which will be shortly published and every Person willing to serve his Country that way, will know the Terms, and your Friends have an Opportunity of lending the Money due them from the State. We cannot say any Thing particularly about the Provision you mention; the Subject is before the General Assembly. By this Time, it is probable you can ascertain the Quantity of Provision you have procured by Purchase, and by the Comm^{rs}, by Certificates, and what has been forwarded. We wish this to be done, likewise to know what you have purchased, agreeable to our late Request, and what you may reasonably expect to obtain.

p. 116

[Council to Thomas Donellan]

Sir We have Occasion to deliver to Mr Wm Smith, Flour to a considerable Amount, We expect the Commissioners of Frederick and Baltimore will immediately deliver you a Quantity; and the Harford Comm^{rs} are likewise directed to send to you the Flour in their Hands most convenient to Baltimore Town, the whole of which we request you will deliver to Mr Smith, if it should not exceed 3000 Barrels; if it should, you are to retain the Excess, and advise us of the exact Quantity

[Council to Honble Mr Holker] Liber C C No. 22

Sir Your Letter of the 10th June we have received and shall endeavour to have the Quantity of Flour you think necessary for the Use of the Fleet, lodged with Mr Smith, as speedily as possible. If it should not be in our Power (which we hope will not be the Case) to furnish the whole, agreeable to the Resolve of the General Assembly, as soon as there may be a Demand for it; that the Fleet may not be disappointed of the Supplies expected from us, we will give Mr Smith every Assistance necessary to accelerate his Purchase; we shall not have Occasion for any Bills. Your being at a Loss how we could be under any Difficulty in ascertaining the precise Quantity of Flour purchased for the Use of the French Marine, we can but attribute to the mistaken Opinion entertained by you, that the whole was seized by our Commissioners; if it had been so, we should not have applied to your Agent, Mr Smith, for Information on that Subject

[Council to William Smith Esqr]

Sir We yesterday received a Letter from Mr Holker, of the 10th Inst requesting us to comply with the Resolve of the General Assembly with all possible Speed and to place 4 or 5000 Barrels of Flour in your Hands for the use of the French Fleet. It gives us Concern that, from the Irregularity of the Returns made to us by the Commissioners and the Uncertainty we are under of the Quantity forwarded, we cannot point out where and from whom the Deficiency may be received immediately. Mr Donnellan receives the Flour from the Commrs of Baltimore and Frederick Counties who have had Orders to send it down without Delay. This we have directed him to place in your Hands as fast as it comes down, but as this probably p. 117
will not be sufficient we have wrote to the Commissioners of Harford to reserve the Flour most convenient to Baltimore to be delivered to Mr Donnellan, who is directed to apply it, or Part thereof, that Way. We shall still remain under an uncertainty about Deficiency as we do not know what you have lately purchased, and request you to inform us likewise of what was exported before the Act for the Supply of the Army & if any, and of what has been returned by the Commissioners of the 15000 Barrels. This probably might be done best, by conversing with you, as we might mutually give Information on the Subject. The Importance of this Business, which we must all desire to have closed, induces us to wish you to ride down, if convenient

Sir We received your Favor of the 16th and have laid it, with the Resolution of your Excellency and Council, before the General Assembly. As soon as the Result of their Deliberations thereon is made known to us, we shall communicate it to your Excellency. We are sensible that your Design in laying the Embargo, may be frustrated, unless a similar Resolution is adopted by this State, and therefore we should not have hesitated, in the Recess of the Assembly, to have imposed such a Restriction as would have prevented the Evil suggested in your Letter. Nothing has a stronger Tendency to preserve that Harmony so desirable between our States, as mutual Endeavours to facilitate the Execution of Measures concerted by either for the general Good and being under that Impression, we shall, on every Occasion chearfully cooperate with your Board in furthering them.

[Council to Colo. Richard Dallam]

Sir We are much concerned it is not in our Power to relieve you from your distressed Situation; there is not a Dollar in the Treasury. We have enclosed you an Order on the Collector of Harford County for 10,000 Pounds, in Lieu of one of the Orders on the Treasurer of the 15th May, for that Sum, and hope it will answer your Purpose. It is our earnest Desire the Collector would exert himself to supply you

[Council to the Commissaries for Purchases in the several Counties]

Sir The great Confidence we repose in your Integrity, Zeal and Activity in executing any Measure adopted by the Legislature to promote the common Interest, have induced us to appoint you Commissary for Purchases for —— County to receive at any Time antecedent to the last Day of September next from any Person inhabiting within your County, such Articles enumerated in the Supplement to the Act for the Assessment of Property within this State, passed last March Session, as such Person may elect to pay in Lieu of the 28 Pounds of Tobacco imposed by that Act on every hundred Pounds worth of Property.

p. 125

For your Direction in the Management of this Business entrusted to you, we have sent you a Copy of those Clauses of the Act, which relate to your Department. It is absolutely necessary that an extra supply of Provisions of the Bread Kind should be procured for the Continental Army with the utmost Expedition and for that Purpose, we direct you to buy up, in your County, all the Wheat, Wheat Flour, Bread in Barrels, Bacon, Salted Pork, and Beef in Barrels that can be obtained, and contract for the same in Paper Money, Tobacco, or Certificates, the Certificates to bear an Interest of 6 ꝑ C^{t} and to be discounted in the Payment of the public Assessment. To incline the Possessors of those Necessaries to dispose of them on reasonable Terms with greater Promptitude, it will be proper for you to inform them that, unless a sufficient Supply is purchased by a short Day, the Governor and Council are invested with Authority to order a Seizure, in the Manner heretofore made. Acquaint us by every Opportunity

of your Success in purchasing, and we will send you such Sums of Money and Tobacco as may be necessary. If you can make your Contracts for Certificates, we prefer that Mode, 'til the present Assessments are collected and brought in. You have Copies of the Acts to procure an Extra Supply &ca and to procure a Supply of Salt Meat &ca We have selected one Letter from General Washington and two from the Committee of Co-operation, from many we have lately received on the same Subjects; the enclosed Extracts from which, so strongly and pointedly evince the urgent and pressing Necessity of making the most vigorous Exertions to procure those Supplies, that we deem it unnecessary to Superadd any Arguments to the reasons and Motives contained therein, to Stimulate you to do your utmost. We have already waded through a Sea of Difficulties, but our Distresses were never so alarming as at present; the most manly Fortitude, Perseverance and Indefatigable Industry, are essentially necessary to retrieve our Affairs and free us from those Calamities which Supineness and a criminal indifference will involve us in; we therefore exhort you, in the most earnest Manner, by that Patriotism, Love of Liberty and tender Regard for Posterity, which so eminently distinguished the Conduct of the virtuous Sons of America, in the Beginning of this Contest, not to cease your most unremitting Endeavors to carry into Execution the important Purposes of those Acts 'til the Army is amply provided with every Necessary.

Gentn We have sent by Mr Isaac McHard 200,000 Continental Dollars, to be delivered over to the Continental Treasurer in Philadelphia, being in Part of the 1.234.350 Dollars required of our State by the Resolution of Congress of the 19th of May last. We are much concerned it is not in our Power to comply fully with that Demand at this Time. When that Requisition was received, our Treasury was quite exhausted, owing chiefly to the continental Drains by Payments of considerable Sums, for the Use of Congress, the Assessments imposed, previous to the Resolution, have not yet been collected; the sum remitted was procured by Loan. We must request you to represent these Facts to Congress, and to inform them that this State, from a Sense of the vast Importance of complying with the Resolution to the Extent, have made every Exertion to procure the Money and that we shall not remit our Attention, til the whole is forwarded

[Council to Committee of Coöperation]

Gentn In Consequence of the Resolutions of Congress, Letters from his Excellency Genl Washington, and the Committee of Co-operations, relative to Men, Money and the Supplies of Provisions, Horses and Waggons allotted to be furnished by this State, the General Assembly impressed with an adequate Idea of the wants of the army and the indispensable Necessity of providing in the most ample Manner for their Relief, feeling the Difficulties that surround and embarrass our worthy Commander in Chief, and impelled by that patriotic Zeal which has actuated their Conduct upon every trying Emergency, and anxiously Solicitous to free our illustrious General from his distressing and cruel Situation and to enable him to concert and execute such a Plan of Operations as his Wisdom may suggest, have passed the following Laws, " An Act to procure Recruits &ca A Supplement to the Act to procure Recruits &ca " An Act to expedite the raising an additional Battalion of Regulars " " An Act to procure a Supply of Salt Meat for the Use of the Army " An Act to procure an extra Supply of Provisions of the Bread Kind, also Waggons & Horses &ca Copies of which we have the Honor to transmit, We have appointed Persons in the several Counties to carry these Laws into full Execution, and have directed them to inform the People, that the extraordinary Power vested in us by the Law (that of Seizure) will be exercised, unless they readily furnish those Articles, so necessary for the army. It is not in our Power precisely to determine and explicitly advise you what will be the Result of our Endeavours under those Acts, but we can with Confidence assure you that if the Abilities of our People and our utmost Exertions are competent to the Purposes intended to be effected by them, every Thing required will be supplied as expeditiously as possible, If we should fail of completing the Extraordinary Regiment within the Time limited, the Militia are to be ordered out to make up the Deficiency in the Manner directed by the Act, and then we shall have it

in our Power to assist his Excellency with a Troop or more of Light Horse, composed of some of our most respectable Citizens. You will perceive by the enclosed Copy of an Act to encourage the raising a Volunteer Troop of Light Horse &ca that a Number of Gentlemen in Baltimore Town have offered to form themselves into a Troop of Light Horse and to furnish themselves at their own Expence; this laudable and disinterested Conduct, we hope will be emulated by the Gentlemen of the several Counties in this State. We shall constantly correspond with and inform you of the Success in the Execution of the enclosed Laws, and give you full and Speedy Intelligence of all Matters that may tend to promote the Interest of the United States and assist the Operation of this Campaign Liber C C No. 22

Sir Colo Henry Hollingsworth has informed this Board that you have in your Hands a Quantity of Flour &ca belonging to the Public which you have refused to deliver, until you are paid for what has been delivered. The Assembly passed an Act the last Session to enable Mr Wederstrandt as a public Agent, in a Degree to Satisfy his Creditors, but whether the Measure will sufficiently answer your Purpose or comprehend your Case, we know not; however as you are a good Whig and must have the common Cause at Heart, we trust that any Argument in Favor of an immediate Delivery of all the public Provisions in your Hands, would be unnecessary and Superfluous, after informing you that the army is now and has been for some Time past greatly distressed for every Species of Provisions and that we are ready now and shall be on all future Occasions, to do every Thing in our Power to lessen the Inconveniences which have unavoidably attended the public Purchasers in performing their Contracts. Our Treasury is entirely drained at present, but we have Reason to expect it will be replenished ere long; then we shall with Pleasure furnish Mr Wederstrandt with Money agreeable to the Warrant in his Favor, after deducting such Sums as he is enabled to draw for on the Collectors. The Army must be furnished with Bread therefore we hope you will not detain the Flour and oblige us, against our Inclination, to exert the Powers with which we are invested by the Assembly for this Purpose

[Council to His Exy Genl Washington]

We have appointed fit Persons in the several Counties to carry these Laws into full Execution, and have directed them to apprize the People of our Intention to make Use of the extraordinary Power, of Seizure, with which we are vested, if they do not readily and chearfully furnish those Articles so necessary for the Army. It is not in our Power, precisely to ascertain and explicitly advise you, what will be the Effect of our Endeavours under these Laws, but we can with Confidence assure you that if the Abilities of our People and our utmost Exertions are competent to the Purposes intended to be effectuated by them, every Thing required will be supplied as expeditiously as possible. We do not apprehend Failure in our undertaking to raise an additional Regiment within the Time limited, in Lieu of the Militia required, but if it should happen, they are to be ordered out to make up the Deficiency, in the Manner directed, and then we shall have it in our Power to assist your Excellency with a Troop or more, of Light Horse, composed of some of our most respectable Citizens. You will perceive by the enclosed Copy of an Act to encourage the raising a voluntier Troop of Light Horse &^ca^ that a Number of Gentlemen in Baltimore Town have offered to form themselves into a Troop of Light Horse, and to furnish themselves at their own Expense; this laudable and disinterested Conduct, we hope, will be emulated by the Gentlemen of the several Counties in this State. Sir Last Evening we had the Honor to receive by Express your Excellency's Letter of the 29th Ulto with a Resolution of Congress of the same Date, directing Warrants to be drawn in Favor of the Treasurer of the United States on the Treasurers of the several States from New Hampshire to Maryland, inclusive, for their respective Proportions of the ten Million of Dollars specially called for by the Resolution of the 19th May last. When that Resolution and the Letter accompanying it were received, the General Assembly was not sitting, and we were induced from the urgent Necessity of complying with it, to appoint Persons in the Several Counties of this State to solicit a Loan of our Proportion of that Sum, and to prevent, as far as possible the Evils that might result from a Failure. We convened the General Assembly immediately, in Order that the most efficacious Measures might be adopted to procure it. The Resolution and Letter were laid before them and several Laws enacted for the Purpose of obtaining the Quota of this State; in Consequence of which and the Assessment Acts, not more than 200,000 Dollars have been drawn into our Treasury, beyond what we have advanced for the Use of the Continental Army which we can assure your Excellency, though we cannot precisely ascertain the

Liber C C No. 22 Quantum, is far from being inconsiderable. The 8th Inst we sent by Express 200,000 Dollars to the Continental Treasurer and wrote the Delegates of this State on the Subject of the Requisition of the 19th May. It is with the utmost Regret we inform Congress of our Inability to comply with the earnest and pressing Application. Nothing could in the least alleviate the poignant Anxiety we feel from
p. 134 contemplating the Miseries that must ensue on a Dissolution of the Army or a Suspension of the Operations of the present Campaign, but a Consciousness that the Failure of the Supply required is not imputable to Supineness or unwillingness in this State to render every Assistance, but to the Want of Time to execute the Laws and in some Measure to the Scarcity of Money to answer the various Demands incessantly made on the People to support Government and to provide Men, Money and Provision for the Army of the States. We can assure Congress that the full sum required, will be forwarded to the Treasury of the United States, as procured and that our Attention will not be remitted, but every Exertion made to facilitate the Procurement of it. The Expedient of borrowing has been resorted to with such Frequency and our Credit has received such a Wound from our not complying punctually with our Engagements, that we can expect to derive little or no Relief from the Adoption of it in future. We have transmitted herewith a Copy of the Act for sinking the Quota required by Congress of this State of the Bills of Credit emitted by Congress.

You are, if possible, to procure them on Hire, and have a Power to make a Contract to pay the Wages in Paper Money, Tobacco, or Specie as may be most advantageous to the Public, not allowing in Specie more than at the Rate of twenty Shillings per Day for the Hire of a Waggon, four Horses and a Driver and in Paper Money or Tobacco, in the same Proportion. If you cannot hire the Waggons Horses and Drivers required, you are to purchase what is deficient and pay for them in the Manner above mentioned, but for your more particular Direction, we refer you to the Law. You are confined by the Law to Frederick County and ought not to interfere with the Contractors of the other Counties because such a Competition will certainly and unavoidably enhance the

We hope and expect the Farmers will readily vend their Wheat, Flour &ca and receive Certificates or wait a Short Time for their Money which we shall be enabled to pay as fast as Taxes come in. We think you ought not to exceed 22..10..0 for Wheat 67..10..0 for Flour, 375 £ for a Barrel of Pork and 60s. for a Pound of Bacon; these are high and generous Prices. It is altogether out of our Power to furnish you with the Money you require, and still Trust that you will be able to make your Purchases on the Credit of this State. Sir We received your Favor of the 21st Inst and, after considering the Requisition of the Minister of France and the Act of Congress of the 7th founded thereon, requesting us to grant Permission to the Agent of the Minister of France to purchase within this State and export three thousand Barrels of Flour to some of the Spanish Colonies for the use of his Catholic Majesty, have determined to give you Permission to purchase and export that Quantity for the Uses aforesaid and in the Manner the Minister shall direct. We esteem our present Situation delicate and embarrassing; willing and desirous to grant the Supplies necessary to carry on the military Operations here and in the West Indies and to render our Assistance to facilitate the Procurement of them, and at the same Time anxiously solicitous to comply with prior Engagements, and to avoid every Thing that may have the least Tendency to obstruct the Execution of Laws formed for the professed Purpose of obtaining Provisions and to prevent a Competition highly detrimental to the Interest of the States in affording an Opportunity to the Avaricious and Designing to make the most unreasonable and exorbitant Demands for Provisions; We do request and desire you to use every Precaution in your Power to obviate the mischievous Consequences pointed out, and that might otherwise flow from this Permission. We expect, in making your Purchases you will not interfere with the State Commissaries or exceed the Prices to which they are limited, 60 Dollars a Bushel for Wheat and 67..10..0 a Hundred for Flour, and that you will not buy of any Person who has purchased with a View of deriving an Advantage by selling again, for as this extraordinary Demand and the Allowance to procure and export it must be known, we do
p. 138 not hesitate to pronounce from Experience that many adventurous and enterprising Persons will be busily and industriously employed in buying up and storing those Necessaries, to avail themselves of the public Necessities, and to extort such a Premium for their Trouble and Hazard as unbounded Avidity may suggest. The Commissaries have received Directions to use their utmost Diligence in executing the Laws to obtain the necessary Supplies of Provision and you may depend upon having such a Quantity turned over, as soon as procured, as will make up the Proportion allotted to the French and desire you would acquaint us what the Deficiency is at present. Mr Bolton is appointed Commissary of Issues for your Shore; we have given him an Order on the Collector of Kent County for Money, and have requested Mr Voorhees to furnish him with any Provision he may collect, with which, we hope the Recruits may be amply supplied. The Scheme for borrowing Money of the Recruits is a good one, and if any of them are inclined to lend their Money to the State, the Agents who are appointed to receive Money on Loan in Kent County, would be the proper Persons to apply to. The exhausted State of our Treasury puts it totally out of our Power to send you any Money at this Time

[Council to President of Congress]

Sir We are honored with your Letter of the 8th Ins^{t} enclosing an Act of Congress of the 7th recommending to the State of Maryland to grant Permission to the Agent of the Minister of France, to pur-

chase 3000 Barrels of Flour to be exported to some of the Spanish Colonies in the West Indies. We have complied with the Recommendation of Congress & given Permission to Mr William Smith of Baltimore Town, the Agent appointed by Mr Morris who is entrusted by the Minister, with the Management of this Business to purchase the Quantity above Specified. This Permission interferes with the Mode chalked out by the Legislature to obtain Supplies for the Continental Army and, we are apprehensive, will procrastinate the Procurement of them, 'til that Quantity is furnished and expose us to the Artifices and subtle Contrivances of Engrossers and other designing Men, whose Attention to the Public Purchases and inordinate Love of Gain will prompt them to buy up the Wheat and Flour to sell to the public Purchasers whereby the present Prices (far from being moderate) will be greatly augmented. Our earnest Desire to give every Assistance to render the Military Operations in the West Indies effectual and Defference for the Opinion of Congress and Minister of France determined us to give the Permission and hazard the Inconveniences already suggested. We cannot refrain from intimating to Congress, that, if this State should fail in supplying their Quota of Flour for the Continental Army and the French Marine, such Failure cannot, justly, be ascribed to Inefficacy in our Laws, or want of Exertion in this Board, but to Inability arising from our gratifying the numerous Demands, unexpectedly made, on this State.

[Council to Delegates in Congress]

Gent. We have enclosed you a Copy of a Letter from the Baron DeKalb, addressed to this Board. He represents the Maryland Division to be in great Distress for want of Provisions, the scarcity of which will prevent them from approaching nearer the Enemy's Lines, unless proper Measures are taken to supply them. We esteem it necessary that this Representation should be laid before Congress, in Order that some Mode may be pointed out to furnish them immediately, which is impracticable, by this State, the Distance being so great, and, if it could be done the Expence would be enormous. It, certainly, would not be inconvenient to the States of North Carolina & Virginia to provide for their Subsistence. We have, upon all Occasions exerted ourselves to take Care of the Troops of other

Our Desire to promote the Military Operations in the West Indies and to comply with the Requisitions of Congress for Supplies will induce us to render every necessary Assistance to Mr Smith, to facilitate his Purchase. We have already given Orders to procure & forward the Flour to be furnished by this State, for the p. 142

[Council to Delegates in Congress]

Gent^n The General Assembly on the 12th June last, took into Consideration the Trade of this State and entered into the following Resolution (☞ vid. resol.) which was transmitted to Congress, and by them, referred to the Board of Admiralty: The Result of whose Deliberation thereon, has not yet been communicated to us, nor do we know that the Requisition of the Assembly will be complied with. Our Coast has lately been much infested with the Privateers and Cruisers of the Enemy, our Trade and Navigation obstructed and many of our Vessels captured, to the great Detriment of the Public, Ruin of some, and Distress of many of our Merchants, and we can assure you, unless two, or one, at least, of the Continental Frigates are so stationed as to afford Protection to the Trade of Virginia and this State, that there is little or no Probability of our providing Cloathing and other Necessaries for our Quota of the Army. As this State have, on every Occasion, exerted themselves in an extraordinary Degree, in support of the Common Cause, and have, and do contribute their Proportion of the Expence of the Continental Navy, and have not, hitherto, derived any Advantage from it, we can but think it reasonable that our Request should be gratified. We have just received a Letter from the commercial Gentlemen from the Town of Baltimore representing, that the Successes of small armed Vessels, have invited a very formidable Enemy into our Bay, and that not less than twenty of their most valuable Vessels, outward bound are now blocked up in Patuxent River, and have been for some Time past and that, every Day they receive Accounts of their Vessels being taken or destroyed. This Representation of the Distresses and Embarrassments of the Trade and Navigation of the States of Virginia and Maryland, not only merits the immediate Notice of Congress, but, we think cannot fail to induce them to order such a Number of Frigates to be stationed at the Capes of Chesapeake, as will afford ample Protection to the
p. 143 Commerce thereof. We entreat you, in the most earnest Manner, to lay this important Subject before Congress and to use your utmost Efforts and the weight and Influence of this State to obtain the Protection desired.

[Council to Robert Morris Esqr]

Sir We have been favored with your Letter of the 18th Ins^t accompanied by Letters from their Excellencies the President of Congress and Minister of France, Mr William Smith is furnished with the desired Permission to purchase and export 3000 Barrels of Flour for the Supply of his Catholic Majesty's Fleets and Armies acting in the West Indies and, at the same Time, we requested Mr Smith to act with that Caution, in the execution of your Commission,

necessary to prevent the pernicious Effects of a Competition with our Commissaries Liber C C No. 22

[Council to Daniel Jenifer, Esqr.]

Sir Yours of the 25th Instt we have this Day received. We have given Orders to the Commissaries in the Several Counties of this State, not to exceed 22..10..0 ꝑ Bushel for Wheat & 67..10..0 ꝑ Ct for Flour. This is the highest Price allowed to be given, yet we hope you may be able to procure it on better Terms. Your Application to be Commandant of the Regiment Extraordinary to be raised, did not reach us until after the Officers were appointed. You will have the Bacon sent to this Place as soon as possible, as we shall want it for the Recruits. It is altogether out of our Power to furnish you with the Money you require, but hope you will still be able to proceed in your Purchases

Saturday 29th July 1780 July Liber C B No. 23 p. 177

Present as on yesterday

Ordered That the Collector of the Tax for Dorchester County pay to John Caile Harrison Commissary of Purchases for said County six thousand Pounds to be by him Accounted for.

That the Collector of the Tax for Prince Gs County pay to John Beall six thousand Pounds to be expended in the Purchase of Horses p. 178 &ca under the Act to procure a Supply of Provisions &ca on Account.

Ordered That the western shore Treasurer pay to Thomas Tillotson from this State Surgeon General in the Hospital Department one hundred and Fifty Pounds the Gratuity allowed by the Resolution of the General Assembly of the 11th of Decemr 1778 and also the further Sum of Two thousand Dollars in lieu of Articles allowed by the Act relating to the Officers and Soldiers &ca passed July 1779 agreeable to a Resolution of the Genl Assembly 17th June 1780

That the said Treasurer pay to Captain Robert Berry three hundred Pounds on Account.

Permission is hereby given to James Townley Rigby and Ann Rigby his wife, of this State to solicit leave from his Excellency Genl Washington or the Commanding Officer at the out Posts of the American Army at Elizabeth Town, to go to New York for the Purpose of obtaining a Passage from thence to Great Britain not to return again into this State during the present war between America and Great Britain without the Leave of the Governor and Council for the Time being first had and obtained with Liberty to take their Child

[Council to John Caile Harrison Esqr]

Sir Yours of the 22d is received. We have directed the Commissaries in the several Counties of this State, not to give more than 22.10.0 for Wheat 67..10..0 for wheat Flour 60s. for Bacon and 1 Dollar for Pork and we would not have you exceed those Prices. As there are such plentiful Crops of Wheat made, we expect to get sufficient at the Prices above mentioned and we have not given more than the Sums for Bacon and Pork and delivered at the Head of Elk. The Assembly have given us a discretionary Power of Seizing Provisions, which we shall certainly exercise, if sufficient cannot be obtained by Purchase. It is out of our Power to furnish you with any Money from the Treasury but have sent you an Order on the Collector of the Tax for 6000£ which we hope will answer the Purpose

[Council to Ignatius Wheeler Jr. Esqr.]

Sir The Lowness of our Treasury hinders us from sending you any Money and, as the Collector of your County has made up his Accounts and no Prospect of your getting any from him, you must endeavor to make your future Purchases in Tobacco, until we shall be able to give Orders for more Money. The Horses and Waggons you have already purchased you will have particular care taken of, and not to hire Waggoners for them until you receive Orders for their being sent forward. We cannot say any Thing respecting your enlisting the Waggoners as Part of our Quota, the Law not authorising us. As for the Time for which Waggoner are to be hired, you will receive further Information, at the Time you will have Orders for their being sent to the Army

[Council to Henry Hooper, Esqr.]

Sir Your Letters of the 26th Inst are received. We think neither the Deserters taken up nor the Men enlisted under the Act passed at November Session last, can be applied to the Regiment Extraordinary, but will be deducted from the Quota of your County to complete the Battalions of this State in the Continental Army. We wish we had it in our Power to transmit you the Sum of Money you require, but the Deficiency in paying the Taxes, renders it altogether impossible. We think every Exertion necessary to endeavour to capture the Pirates, with which you are infested, and to assist you, we shall order down one of the State armed Boats but as
p. 145 the Captain of her is at present sick, she will not arrive at Hooper's Streights by the Time appointed by Mr Smoot. We should readily have sent you the Swivels and Ball if we had them. Enclosed are the Commissions agreeable to your Request

[Council to Capt. John Smoot]

Liber C C No. 22

Sir Yours of the 25th Instt we have received, and are sorry to be informed of your Loss in particular and the general Distress of the Inhabitants who are exposed to the Ravages of the Enemy's Piecaroons, aided by some of our own People. We think it necessary to endeavour to capture them, that they may be brought to condign Punishment, and have, for the Purpose, ordered down to Hooper's Streights, one of the armed State Boats; but from the short Notice given and as the Captain is unwell, it will be impossible for him to arrive there by the Time you propose. We cannot think it justifiable, either to burn the Houses of the suspected, or injure them in their Persons, but would have the legal Steps taken to have them apprehended and brought to Punishment

[Council to John Voorhees Esqr]

Sir We lament it is not in our Power to furnish you with Money from the Treasury, it being at present entirely exhausted. The enclosed Order for 6000, we hope, may be conveniently paid by the Collector of Kent County and when the Treasury is replenished, we will enable you to comply with your Contracts. In giving Directions for the Government of the several Commissaries we have invariably limited the Priçes not to exceed 22..10..0 ꝑ Bushel for Wheat, 67..10..0 ꝑ Ct for Flour, 3£ ꝑH for Bacon & 1000 Dollars ꝑ Barrel for salted Pork & Beef. We wish to have the Wheat manufactured into such Flour as has been hitherto made for the Army. We have appointed Mr John Bolton of Chester Town, Issuing Commissary for the Eastern Shore Department, and request you to give every Assistance in furnishing him with the Supplies of Provision necessary.

[Council to Committee of Cooperation]

Gentn We were honored with your Letters of the 10th and 13th enclosing a Copy of His Excellency General Washington's to you. We are well convinced that it is a Matter of the first Moment to fulfill the Engagements of this State, relative to the Supplies of Men and Provisions and that the most vigorous Exertions ought to be made to obtain them. Our Endeavours will not be remitted from a Reliance on other States, as fully competent to the Business. It is a ruinous and destructive Idea and ought to be greatly reprobated. We shall do our utmost to facilitate the Execution of the Laws formed for the Purpose of complying with your Requisitions

[Council to Patrick Sim Smith Esqr]

Sir We have directed the Commissaries of Purchases in the p. 146
several Counties not to give more than 22..10..0 for wheat, 67..10..0 for Flour & 60s for Bacon. We would not have you exceed those

Liber C C No. 22 Prices. As there are plentiful Crops of Wheat made, we expect to get it and the Flour for the Prices abovementioned and 60s. is the most we have given for Bacon, delivered at the Head of Elk. You have the Power of giving Certificates, which may be discontinued in the Payment of the present and future Assessments. We think you had better forward the Grain procured on the Waters immediately to the Head of Elk, directed to Col° Henry Hollingsworth, and approve of the Contract made with Col° Fitzhugh, as beneficial to the State. It is not in our Power at present, to supply you with any Money from the Treasury, and the Mode we have some Time past adopted, of giving Orders on the Collectors will not avail, as you are without a Collector; so soon as it is in our Power, we shall supply you with Money. We have enclosed you a Copy of the Act, appointing Collectors.

[Council to Capt Robert Berry]

Sir You will proceed immediately with the State Boat Plater to Hooper's Streights and there receive Directions from and act in Concert with Capt. John Smoot, for the Suppression of the Tories who have been acting as Pirates in Seizing Vessels, the Property of the Subjects of this State. You are to make as much Dispatch as possible and, so soon as the Object of this Expedition is attained, you are to return.

[Council to President of the Board of War]

Sir Upon the Representation of pressing Solicitations of your Honorable Board, we have determined to spare 15000# Powder from the Stores belonging to this State, for which the Continent will be charged with the Current Price of that Article. By gratifying your Wish and our own Inclination to promote the Common Interest, we have reduced the State Magazine to a very low Ebb, and still further to demonstrate our Attachment to the Object for which America is strugling we would most chearfully adopt the Measure you recommend, of purchasing on the Credit of the State, if from Experience we were not convinced of the Impracticability. The tedious and slow Manner of replenishing the Treasury by Taxes, have heretofore compelled us to try this Expedient, which by no Means answered our
p. 147 Expectations more especially after the first Attempt, for, relying upon the Punctuality of the public Collectors, we did not hesitate to give Assurances of Payments, but a Failure on their Parts, necessarily occasioned Disappointments to the public Creditors and injured the Credit of Government. The frequent Applications to this Board by Mercantile Gentlemen, induces us to think it is not to be had from Individuals in this State. The Powder shall be delivered to your Order, from the Magazine at Frederick Town when you shall think proper to send for it.

[Council to Mr. John Beall, p Geo. County] Liber C C No. 22

Sir Yours of the 20th Inst we have received, and wish we had it in our Power to furnish you with the Sum of Money you require. We recommend it to you to make as many of your Contracts for Tobacco, as possible, as that Article can be more conveniently spared from the Treasury than Money. You have enclosed, an Order on the Collector of Prince George's for £ which, if immediately received may assist your Purchase. This is all we can do, until the Taxes come in. We think it best to have the Horses put out to Pasture, until we can adopt a Mode of sending them forward to the Army

You will observe by the within Act that this Board is authorised and requested, in Case the Bills are not sold within thirty Days, to have Bills of Credit emitted to the Amount, and on the Credit of the thirty Thousand Pounds therein mentioned. We are further requested by a Resolution of the General Assembly of the 5th Instant, to prepare for the Emission in Case it should be found necessary. The Time limited being nearly expired and the Bills not yet sold, we have, in Consequence, engaged Mr Green to go to Philadelphia, for the Purpose of procuring Paper and Plates, and he is desired to take your Directions as to the Denomination, Device, and Marks of each Bill, which we beg you will choose and determine on, and give him your Aid in the Execution of this our Commission.

[Council to Charles Blake, Esqr.]

Sir We have received your Letters of the 27th and of this Date. It gives us real Concern that it is wholly out of our Powers to supply you with Cash at present. The enclosed Order on the Collector of Queen Ann's County for 6000£ is the only Expedient we can devise by which you have a Chance of an immediate Supply of the Article you deem essentially necessary to give Life to your Commission. There is no great Credit derived from declaring a Willingness to supply the Necessaries for subsisting the Army, if those Articles are withheld, unless the highest Price is paid for them in Cash. The Sincerity of Professions, is best proved by corresponding Actions. We cannot send you an Order on the Eastern Shore Treasurer, as he is possessed of a subsisting Order of this Board, to transmit to Mr Harwood the Treasurer of this Shore, all the Money he receives. The Commissaries who applied for Directions, are limited not to exceed 67..10..0 ꝑ Ct for Flour 22..10..0 ꝑ Bushel of wheat 3£ ꝑ ℔ for Bacon and £375 ꝑ Barrel for Pork and Beef.

Sir We feel sensibly for the Distresses of those who are in the Circumstances you describe. The Money which is directed to be levied is expressly applied by the Legislature and as the Law provides no Relief, it is in vain to apply to those who are incompetent to that Purpose. We have no dispensing Power, nor can we, in Virtue of our Office, for one Moment suspend the Operation of an Act of the General Assembly.

[Council to Jno Dockery Thompson Esqr Lieut Cecil County]

Sir Yours of the 31st we have received. Though the Law concerning Deserters is general, yet we think it never could be the Intention of the Legislature to include Deserters from other States, as no Benefit would arise to this State from them, they being subject to be taken by the State to which they belong. We think the Recruits for the Regiment Extraordinary are entitled to the Bounty of two hundred Dollars &ca and in some Instances, we have issued the Money to them. Our Treasury is entirely exhausted, we therefore have drawn an Order in your Favor, on the Collector of the Tax for £6000 to enable you to advance to the Recruits. It is out of our Power at present to supply the Recruits with Cloathing we expect we shall be enabled to do it, by the Time they reach Chester Town, p. 149 where those enlisted on your Shore are ordered, and where there are officers to receive, and Provisions made for them and you will be so obliging as to send those recruited in your County to that Place

The Rank of Militia Officers still remains unsetled and to fix and determine the Rank of a Part; it will be necessary to settle the Whole. You will readily conceive that much Time will be necessary for the Completion of this Business and that the Circumstances of our Affairs will, by no Means, admit of our giving the Attention, at this Time, which the subject requires; we therefore hope you will let this Matter remain in its present State and that you will not meet the Difficulty

Gent^{n} We are this Day informed by a Letter from Baruch Williams Esqr that a Quantity of Flour which was procured last winter, is detained at Appoquiminink Landing. This Article is much wanting with the Army; we must request you to use your utmost Influence to have the Flour forwarded with all Expedition, and we shall pay the Amount of Storage &^{ca} which has, unjustifiably, occasioned the Detention, as soon as we are informed of the exact sum, for which you will give an Order on us. Adopt any other Method by which this Business may be accomplished with more Ease.

[Council to Baruch Williams Esqr.]

Sir By the late "Act to procure a Loan" the Agents are directed to deposite the Money &^{ca} borrowed, with the Treasurer; but, as Matters are circumstanced you may apply the Money procured by you, in Virtue of that Law, to purchase Provisions, and, when its convenient, you may obtain an Order from this Board, for such Sum as shall be applied to such Purpose. We can, by no Means consent to your buying Wheat and Flour, at the extravagant Prices given by the Purchasers from the neighbouring States. Our Instructions to the several Commissaries have uniformly been, not to exceed 67..10..0 ꝑ Cen^{t} for Flour, 22..10..0 ꝑ Bsh^{l} for wheat 375 £ ꝑ B^{ll} for Pork & Beef and 3 £ ꝑ$^{\#}$ for Bacon. These Instructions were to govern you in your Contracts, and we cannot avoid thinking you will be more Successful than you imagine. We are induced to form this Opinion from the abundant Crops of the present year, from the real Scarcity of Money and, above all, the generous Prices offered. The Enclosure is a Line written to the Comm^{rs} of Cecil County, to have the public Flour at Appoquiminink, sent forward to Camp immediately. [Council to Andrew Buchanan Esqr.]

Sir We this Morning received your Letter of the 6th with its Enclosure and the Letter from the Commissioners of Baltimore County, covering the Recommendation of Inspectors for that County. It is impossible for us to furnish you with 40,000£ our Treasury is entirely exhausted, and it would be of little Avail to give you an Order upon the Collector of your County, as we understand he has none in Hand. We understand several of the Lieutenants have exercised the Power of granting Warrants, to distrain the Goods of the Persons who compose the Classes that have neglected to procure Substitutes for the 15 ℘ Cent, though the Lieutenant could not obtain one for that Sum, for this Reason; if the Lieutenant could not get a Man for the 15 ℘ Cent, and it should be his Opinion that he could not issue his Warrant in that Case for the 15 ℘ Cent, the Law would be evaded, the Intention of which is, that each Man should pay according to his Assessment. Besides we apprehend it is in the Power of the Lieutenant to get the Money, as soon as he engages the Substitute; for when the Lieutenant agrees with a Man for a certain Sum, he can issue his Warrant against the Individuals of the Class for that Sum.

[Council to the Purchasing Commissaries]

Sir So much depends on your Success in procuring an immediate Supply of Provision for the Army that we Suffer the greatest Anxiety in finding you are under any Difficulties in executing the Business entrusted to you; in order to facilitate it all in our Power we have enclosed Pounds of Tobacco, which we request you to dispose of on the best Terms you can, not under and to apply it towards the Purchase of Provision. We are sensible this will go but a very little way, yet it may be of some Assistance, distributed among those whose wants are most pressing until we can send you a further Supply which we shall attend to, when in our Power. From the Difficulty of procuring the necessary Materials, we are afraid it will be at least three weeks before the Treasury will be sup-
p. 157 plied with the new Money to be emitted under the Act to enable the Treasurer of the Western shore to draw and sell Bills of Exchange and for an Emission of Bills of Credit if necessary. When that is done you will receive a share of it and it will be proper to make your

Contracts at 40 for 1 in the new Money at which Rate the Public will Receive it again for Taxes. We have likewise thought proper to direct the Lieutenants of the Counties, to order into your Hands any Wheat which the People may be inclinable to deliver for the 15 ꝑ C^t under the Law for filling up our Battalions. As this will certainly be a great Ease to the People, we flatter ourselves it will, at the same Time contribute considerably to the material End in View. We have certain Intelligence that the Army under His Ex^y the Commander in Chief is encreasing very rapidly, the Object of the Campaign continues the same and immediate and considerable Supplies of Provisions are indispensably necessary. In Addition to the Articles of Provision mentioned in the Laws forwarded to you, we find it necessary to direct you to procure what Beef you can, on the Hoof and in proper Condition. It will be necessary, when a Sufficient Number are collected, to hire proper Persons to have them driven and delivered to The Price must be left to your own Discretion, and depend on the Information you may receive of what it is generally sold at, making a proper Allowance in Favor of the State for the Purchase being made in large Quantities. By the Resolve of Congress, this State is to have Credit for Beef on the Hoof, until December at 5½ Dollars Hard Money Net Hundred, which at 40 for 1 in the New Bills is 220 Dollars ꝑ Net Hundred; it is to be wished that this Price may not be exceeded. The Business entrusted to you is of the last Importance and we are under such Circumstances that it is necessary we should receive the most speedy Information of your Success and Expectations; no Time should be lost in forwarding what you have procured, of which we should be constantly informed. Liber C C No. 22

P. S. We have not enclosed any Tobacco as mentioned in the Beginning of this Letter, but will send you Orders on the Collectors of the Loans as soon as you inform us that you can obtain at least the Price mentioned.

N. B. To the Commissary for Talbot County, the following Post Script. "Instead of sending you Tobacco as mentioned in the Beginning of this Letter we have it only in our Power to enclose an Order for £16000, on Mr James Lloyd Chamberlain."

[Council to Colo. Thos. Price] p. 158

Sir Your Letter of the 13th Ins^t came to Hand this Morning. The Order on the Collector of Frederick County for £2250, we have enclosed agreeably to your Request. We would have the Flour forwarded immediately and delivered to Mr Thomas Donnellan of Baltimore Town. The three hundred Hats which you contracted for should be finished by this, therefore you are furnished with an Order for £7875, on the Collector of Frederick County, to enable you to comply with your Agreement. The Hatters, we flatter ourselves, will deliver the Hats on the Credit of this Order, as the Collector is on

Liber C C No. 22 the Spot and will pay them the first Money he receives. The Money to be emitted by the State, will, probably be in the Treasury within four weeks, it will then be in our Power to supply you. The Regiment extraordinary is much wanted at Head Quarters, but it is absolutely necessary that the Men should be cloathed, before they are sent off; you are therefore requested to send all the Hats you have procured to Mr George Keeports in Baltimore Town, with the utmost Dispatch. A sufficient Quantity of Shoes are already purchased and the greatest Part at £24 ꝑ Pair.

[Council to Samuel Gilpin Esqr]

Sir We received yours of the 16th Inst and are sorry to find you have not been able to procure the Waggons expected from you. It is necessary this Business should be compleated, without Delay and we little expected to be disappointed in a County where there are so many Waggons altho' the Money could not be immediately paid. We have Reason to believe we shall have it in our Power to assist you with Money in 3 or 4 Weeks, and, surely, those who have Horses and Waggons to spare, will not hesitate to let you have them on so short a Credit and for such an essential Piece of Service

[Council to Mr. Thomas Donellan]

Sir We received yours of the 18th Inst It is necessary to know precisely, on what Terms Mr Smith received the 412 Barrels of Flour from you. Surely you did not agree that it was to depend on an Inspection at Philadelphia, and in Case of Refusal, that the State should be burthened with the Expence of having it returned. The Condemned Flour you have on Hand should be forwarded to Mr Henry Hollingsworth, who has our Directions to bake it into Bread; when you send it, inform him of the Quality

p. 159 [Council to the Collectors of Loans]

Sir Enclosed is an Extract from the Subscription made by the General Assembly and we request you to call on the Gentlemen who have not already complied with their Engagements. The Motives which induced the General Assembly to pass the Law for obtaining a Loan, were so generally known, and the Object in View so essential to the Interest and Reputation of the United States, that very considerable Aid was expected from the Virtue and public Spirit of the Citizens of this State; the same Motives operate more forcibly, if possible at this Time. The Army under our illustrious General is encreasing rapidly and the grand Object of the Campaign is still the same: immediate and considerable Supplies of Provisions are indispensably necessary, and the Means provided by the General Assembly very inadequate to that Purpose. Although we have the greatest

Reason to rely on the Patriotism of our fellow Citizens, we are not, from the Demands lately made on them, so sanguine as to expect very considerable Assistance by Money; yet as there are other Means in the Power of many pointed out by the Law, we must earnestly entreat you to exert yourself on this Occasion, and that you will call on those who are able to contribute by Loan, a small Portion of their affluence, that they may secure the Peaceful Possession of the whole to themselves and Posterity, by enabling us to comply with the Requisitions of Congress, the Committee of Co-operation and the Expectations of His Excellency the Commander in Chief. We are at a Period of Time which will admit of no Delay, you must therefore inform us speedily of your Success and Expectations

[Council to the Lieutenants of the several Counties]

Sir From the Information which we have received from the Lieutenants of some Counties, we are induced to believe it will be an Ease to the People to allow them to discharge, in Wheat, the 15 ꝑ Cent due from the Classes which have not found Recruits, at the same Time, that it would answer a most valuable Purpose, in obtaining a Supply of Provisions for the Army at this Time, extremely wanted. We therefore request you to inform the Persons who compose those Classes which have neglected to find Recruits and for which Recruits cannot be obtained by you for the 15 ꝑ C^{t} that if they will deliver to the Commissary of your County as much Wheat allowing 60 Dollars for every Bushel, as their Fines amount to, their Effects shall be exempted from Distress, and to direct them to procure from the Commissary a Receipt for the Wheat so delivered which is to be deposited in your Hands and returned by you to the Treasurer of your Shore instead of the Money ordered to be collected by Distress

Warrant issued, Directed to Isaac Griest to impress Vessels sufficient to Transport three hundred Troops of the Regiment Extra from Annapolis to the Head of Elk.

Liber C C No. 22 p. 162

[Council to Mrs. Lee]

Madam We are very anxious to send forward the Regiment Extraordinary to reinforce the American Army. The Impracticability of procuring immediately by Purchase, a Sufficient Quantity of Linen, for Shirts for all the Men, induces us to solicit your Assistance at this Emergency, and to request a Loan of two hundred and sixty Shirts, which we will not fail to replace when you may deem it necessary to demand them.

[Council to Capt. Geo. P. Keeports] Liber C C No. 22

Sir We expect that about 260 Soldier Shirts will be delivered by Mr Wm Smith on the Order of Mrs Lee. As Mr Griest has Directions to send some Vessels down for the Transportation of the Troops to the Head of Elk, it will be a good Opportunity of sending them down as well as the Overalls which we wrote for yesterday. We request your Attention to this Business

[Council to Mr. Isaac Griest, Balto.] p. 162

Sir The Regiment extraordinary now at this Post, are nearly ready to march to the Northward; we prefer sending them by Water to the Head of Elk, and, as sufficient Number of Vessels cannot be procured here, request you will immediately, upon Receipt of this, procure by Hire or otherwise a Sufficient Number of Vessels to transport 300 Men from Hence to the Head of Elk. We have Reason to believe you will meet with no Difficulty in getting the Vessels on Hire, but should it be otherwise, you have a Power enclosed to impress.

[Council to Patrick Sim Smith Esqr]

Sir The Enclosure is an Order on the Collector of the Tax in Calvert County for 6000£ which, with the great Proportion, we flatter ourselves, you have engaged to pay in Certificates, will answer your present Purposes. We have long thought the Supplies should be forwarded to the Army, as soon as they were procured, and have urged the Necessity of making the greatest Exertions to that End; and, if possible, Letters received this Day from the Committee of Co-operation impress the Necessity of the Measure more forcibly on our Minds. Under the present Circumstances of Affairs, when our Magazines are exhausted of Provisions and the Subsistence of the Army depends upon the precarious Supplies of the Day, we cannot avoid reiterating our Solicitation that you have your Purchases of Wheat sent to Col° Fitzhugh's Mill where it should be manufactured, from thence transported to the Head of Elk without Loss of Time.

[Council to Ensign Middleton]

Sir. You will receive from Mr Bullen, Forty Horses. You are likewise to call on Col. Henry Hollingsworth at the Head of Elk, or the Person acting for him in his Absence, for all the Horses which have been delivered to him by the Contractors for the Purchase of Horses in this State and with which we request you will proceed with Diligence and Care to Morris Town and deliver them to the Quartermaster General or such Person as he shall authorise to receive them at that Post, taking his Receipt therefor, as a Part of four Hundred Draft Horses which were required of this State by the Commee of Congress at Head Quarters. For the Subsistence of the Horses, you are to draw Forage from the Quartermasters at the several Posts between this & Morris Town

[Council to Delegates in Congress]

Gentlemen The Embargo Law of this State was continued by an Act of the last Session of Assembly to the tenth Day of September next, and at the same Time this Board was authorised and fully empowered to continue the Law until the End of the next Session of the General Assembly, provided the Embargo be continued in the States of Pennsylvania and Delaware: but in Case these States, or either of them should take off the Embargo on their Ports, then and in such Case we are authorized and requested to take of the Restrictions imposed by the Act of our Legislature. The Act of the Pennsylvania Assembly expires the first of September, but President Reed is of Opinion that, that Hoñble Body, who are to meet before the limited Time, will renew it. The Law of Delaware expires the 20th of October, unless suspended or revoked by the Executive of that State. In the State of uncertainty, in which we are, respecting the

Revival of the Pennsylvania Act, and the Conduct of the President and Privy Council of Delaware, we must have Recourse to your good Offices. We therefore solicit the Favor of you to make the necessary Enquiries and to transmit us the earliest authentic Information for our Government in the Premises

Liber C C No. 22 p. 163

Sir The great Injuries sustained by the mercantile Interests of Maryland & Virginia and the, almost, entire Interruption of the Navigation of the Bay, by the Privateers and other Vessels of the Enemy, have induced us, in Conjunction with the Merchants of Baltimore Town, to endeavour to capture or clear the Bay of them. For this Purpose, the state armed Boats two Brigs and some Barges are to be sent down: but as the Enemy's Vessels are numerous and we wish to have such a Force as will certainly answer the intended Purpose, if you or any of the mercantile Gentlemen of your City, have any Vessels that would assist in this Business, they might render not only essential Service to the Trade, but also to the United States, as the Transportation of Provisions from Virginia, is totally stopped and our Army is much in want of them. Our Vessels will go down the Bay some Time next Week. This Business ought not to be made public. The enclosed Letter to Governor Jefferson, on this Subject, we beg you to forward by Express.

Sir We received yours of the 16th Inst The enclosed Nol. Pross, the Governor has granted in Favor of Philip Buly on Condition that he serve as a Soldier for the War and on your Representation of the Circumstances of others in a like Predicament, he will grant Nol. Pros. on the same Terms. This he is induced to do as the Commander in Chief writes pressingly for Men, and on your Information that the Ringleaders are in Goal and may be made Examples of. We shall in a few Days send down our State Boats to assist some other Vessels in clearing the Bay of the Enemy and we request you to embrace the first Opportunity of a safe Navigation to send all the Provision collected in your County to the Head of Elk. We have the most pressing Demands on us for the Supplies expected from this State

[Council to Colo. James Hindman]

Sir Your Letter of the 9th Inst as well as that of the 22d we have received from Mr Gibson, and the former would have been answered by the Return of Mr Gibson, but for the Multiplicity of Business, with which this Board was then overwhelmed, and his Impatience to leave Town. The Order on Mr Chamberlain was drawn at your Request & enclosed in the Letter which accompanies this, it has laid on the Table since its Date, for a good Opportunity. Mr Sprigg has been paid agreeably to your Contract. You have also a Parcel of printed Certificates by this Opportunity.

[Council to Colo. George Dashiell]

Sir We received yours of the 15th & 17th Inst As you are of Opinion there no longer Subsists the same Reason for having the Arms distributed among the Militia Captains and it is of Consequence to have them kept in Order, we request they may be collected and retained under your immediate Care and that you employ some trusty Person to put them in Order, and doubt not, but in doing this you will have in Mind how much the public as well as your own immediate Safety is concerned in having them put and kept in a proper State. As to the Subject of the Recruit you mention, the Law must be your Guide; we think the Money promised by the Class, ought, in Justice & Equity to be paid

[Council to Henry Jackson, Esqr.]

Sir We received yours of the 17th Inst The Bacon & Pork which you have at Princess Ann, would be of some Service if forwarded. Could you conveniently send it to Cambridge to the Care of Mr I. C. Harrison, we apprehend it would be shipped from thence to the Head of Elk and delivered to the acting Commissary there, with more

Safety than by sending it down Wiccomico; however this Matter must be left to your Discretion. Enclosed is an Order on the Collector for £2000. Liber C C No. 22

[Council to His Excy. Govr. Jefferson Virginia]

Sir The alarming State of the Trade of Virginia & Maryland in the Chesapeake and above all, the extreme Difficulty and Hazard of supplying the Northern Army with Provisions from Virginia and the Southern Parts of this State, occasioned by the continued and encreasing Depredations of the Enemy have rendered the immediate Expulsion of them from the Bay, an Object of Magnitude to this Board. The Merchants of Baltimore have, on this Occasion, undertaken to second us with two armed Brigs & three large Barges, every of which we shall furnish sufficiently with Men, Arms and Ammunition. This Force will be accompanied by two fast sailing State Boats, to act as Tenders. We most earnestly solicit your Excellency to aid us in this Service, so beneficial to the States in General and to Virginia & Maryland in particular. Only such Vessels of War whch can be immediately equipped can be serviceable, as the Success of this Attempt will depend in a great Measure upon the Secrecy and Expedition with which it is executed. We expect our Vessels will be ready to proceed down the Bay the 6th of next Month.

[Council to Colo George Dashiell and Colo Henry Hooper]

Sir We intend to send down, in a few Days, our State Boats, to Co-operate with some Vessels from Baltimore in clearing the Bay of the Enemy and request you to hold a Party of Militia you can depend on, in readiness to give what Assistance in your Power, in Case there should be occasion for them. Sir Yours of the 30th Ult[o] we have received and are surprised you never received any of our Letters. The Law particularly points out the Manner in which the Waggons, Horses &[ca] are to be procured, which we enclose you. We think the Waggons, Horses &[ca] which were offered by Non-jurors, since the Expiration of the Time limited, ought not to be received. We wish you to be as expeditious as possible in procuring the Waggons & Horses and have them sent forward to the Head of Elk; you will also forward the Flour to M[r] Thomas Donnellan at Baltimore, as soon as possible. To expedite your Purchase of Waggons and Horses, we have sent you an Order on the Collector of your County for 10,000£ which we hope will be immediately paid.

Sir We are sorry to be informed, by a Letter from M[r] Schenebely that you have not as yet entered on the Purchase of Horses; we request you to endeavour to procure them as soon as possible and have them sent forward to the Head of Elk. We enclose you an Order on the Collector of your County for 6000£ which we hope will assist to expedite your Purchase. We refer you to the Law for your Government in this Business.

[Council to Mr. Thomas Donellan]

Sir We observe in yours of the 23[d] Ult[o] that you think the Flour you have on Hand is in general very faulty. Please to make us a Return of what you have received and forwarded, since you have had the Business in your Hands, of whom you received it, when forwarded and what remains. Whatever M[r] Smith declines receiving we would have sent to the Head of Elk, to be forwarded to the Army. If there should be any Flour musty or sour, it will be proper to have it baked into Bread, mixing it if necessary with some other Flour, so

as to make the Bread merchantable or proper for the Use of the Army; when this is done, it should likewise be forwarded. We request you to let us hear from you soon, in Answer to this. Liber C C No. 22

[Council to James Calhoun Esqr]

Sir This covers your Appointment to the Commissariate of Baltimore County and the Laws directing your Conduct in the Execution of that Trust, This State having fallen very considerably short for the two last Months back of the Supplies particularly Flour, which were required and have been expected by Congress and the Committee of Cooperation it is incumbent on us to endeavour by every Means in our Power to make up that Deficiency immediately and to have a Prospect of continuing the Supplies. In this the Reputation of this State is deeply concerned as well as the General Interest of America at this particular Crisis, as you will readily perceive by the enclosed Extracts of Letters received by us. Under these Circumstances we have to request your immediate and most diligent Attention to this Business. If our Information is well founded, there is a very considerable Quantity of Flour for Sale in your Town & the Price reasonable, and probably more may be done in a Week, by you than in a Month by all the other of the Commissioners in the State. This would, at this Time, relieve us from very distressing Circumstances. To have it in our Power to inform the Commissary General of a certain and considerable Supply which may be relied on in a short Time, might be the Means of preventing a Dissolution of Part of the Army under the Commander in Chief and avoiding the disgraceful Circumstances so strongly described in one of the Ex-
p. 169 tracts referred to. We are sensible Sir, in Order to execute this Business to effect, you must be powerfully assisted by us; we shall

therefore explain our Situation as fully as we can, by which you may, in some Measure regulate your Conduct. By this Opportunity we enclose Notes for 34 Hhds. of Tobacco, which we request you to dispose of on the best Terms you can and to apply the Money to the Purchase of Flour. We have Reason from Subscriptions already made to assure you of a further Supply of 60 or 70 Hhds. for the same Purchase. In Addition to this which will put a certain Sum into your Hands, we flatter ourselves a further Collection will be made of Tobacco. The Assessment in Tobacco is to collected in this Month, which probably will be paid into the Treasury within the Time directed, this will give us an Opportunity of raising a very considerable Sum of Money and may be reckoned a certain Fund and we flatter ourselves the New Money, which will be ready in next Week, will, in a great Measure, assist the Purchase of Provision. We do not know any good Reason why it should not circulate readily at 40 for 1 and in all Contracts that must be the Standard; as the State is to receive it at the same Rate, we hope, at least some Part of the purchase may be made in it. From our present Difficulties and the Necessity of supplying the Army immediately, we must request you to procure the Flour on the best Terms you can. Under these Circumstances an additional Quantity of Flour may possibly be obtained on Loan. We request your Answer to this immediately; if it does not suit you to continue any Time in the Execution of this Business, we cannot Doubt but we shall have your Assistance at this particular Time

[Council to Colo Henry Hollingsworth]

Sir Your several Letters by Express with the Enclosures we have received and have not Time to write you fully on the several Matters therein contained. We must have a receiving Commissary at the Head of Elk and wish you to continue in that Appointment so far as relates to this State. Whenever you receive any Provision from the State Commissioners, you will have it immediately delivered to the Continental Agent or Quartermaster at Elk
P. S. We enclose you the Papers required.

[Council to Colo. Alex. L. Smith]

Sir We wrote you by last Post informing you of your Appointment to the Command of the Regiment Extraordinary and requesting you would be here as soon as it was convenient. As all the Men excepting the Invalids, belonging to that Regiment have proceeded to join the Army under General Washington, if you proceed to the Northward immediately, it will save you an unnecessary Iourney to this Place. Many of the Officers appointed have not yet joined and we think your Presence exceedingly wanted.

Please to acknowlege the Receipt of this and your Acceptance of your Appointment. The Commissions will be forwarded in a few Days

[Council to Rich'd Dallam Esqr., & Baruch Williams & John Voorhees Esqr except the first Sentence] Liber C C No. 22

Sir We received yours of the 30th Ultº and are exceedingly concerned to find your principal indeed almost only Reliance for obtaining Supplies of Provision is on what you may receive for the 15£ Tax.

This State having fallen very considerably short, for the two last Months, of the Supplies, particularly flour, which were required and have been expected by Congress and the Committee of Co-operation it is incumbent on us to exert ourselves not only to make up that Deficiency immediately, but likewise to continue the Supplies for the Time to come. In this the Reputation of this State is deeply concerned as well as the general Interest of America at this particular Crisis: we must therefore again request your immediate and most diligent Attention to this Business. By Letters received from the Commissary General, the Committee of Co-operation and from his Excellency the Commander in Chief, a Dissolution of Part of the Army and other very disgraceful Consequences may be avoided, if we are enabled to inform the Commissary that he may expect considerable Supplies in a short Time. We are sensible Sir, in order to execute this Business to Effect you must be powerfully assisted; we shall therefore explain our Situation as fully as we can, by which you may, in some Measure, regulate your Conduct. The Assessment of Tobacco is to be collected in this Month & probably all of it will be in the Treasury by the Time limited, by the Law, a considerable Part before. This will enable us to raise a considerable Sum of Money and may be reckoned a certain Fund and we flatter ourselves the new Money, which is now printing under the Act of Assembly to enable the Treasurer of the Western Shore to draw and sell Bills of Exchange of the Western Shore to draw and sell Bills of Exchange &ca will in a great Measure, assist your Purchase. In Addition to this, we have Reason to expect the new Bills for this State down immediately from Congress, further Means may arise from them. We do not know any good Reason why the new Money should not circulate readily at 40 for 1, as the State is to receive it at the same Rate, at least we cannot doubt but some Part of the Purchase May be made with it. Under our present Difficulties and the absolute Necessity of supplying the Army immediately, we request you to procure the Flour on the best Terms you can. Pray let us have your Answer and continue to inform us of your Proceedings

Sir We received your Letter of the 5th Ins^t^ It gives us much Concern to be informed that the State has been so grossly imposed on by the Persons appointed to procure Horses on Account of the United States for the Army. We think with you, that it will be more for the Interest of the State to dispose of the Horses in Philadelphia, that have been rejected as unfit for Service, than to have them sent back, and do request you to inform Col^o^ Saml Miles that we have appointed him to sell them immediately and to transmit an Account of the Age, Marks, Colours & Defects of each Horse and the Price obtained for each, that we may endeavour to detect the Persons who have committed the Impositions and compel them to answer for their Conduct and to indemnify the State for the Loss that is likely to be sustained thereby. If Mr Donnellan should, on Inspection, think your Flour fit for the Army, we will take it; but request you, if possible to allow us a longer Time to replace it. [Council to James Horner Esqr. Shrff of Harford County]

Sir Mr Jno Lee Webster hath represented to us, that previous to the Sitting of Harford County November Court, the extraordinary Conduct and menacing Expressions of Thomas Hall of said County indicating an Intention to deprive him of his Life, or to commit some very outrageous Violence on his Person, induced him to apply to a Magistrate for a Warrant to apprehend the said Hall, that he might be compelled to give Security for his good Behaviour and to keep the Peace towards the said Webster; That a Warrant was obtained and executed by a Constable and Hall recognized for his Appearance at Harford County November Court last and to keep p. 174 the Peace in the Mean Time; that Hall did not appear and attend

Liber C C No. 22 agreeable to the Tenor of his Recognizance; that the said Webster, during the Time Hall was bound for his bood Behaviour, received fresh Instances of his malignant and implacable Disposition and applied to the Court to have him bound in a larger Sum of Money; that the Court issued their Warrant to the Sheriff to apprehend the said Hall and bring him into that Court to answer the Complaint exhibited against him by the said Webster that the Sheriff has made several Attempts to take the said Hall but was deterred by the Threats and Resistance made by him who goes constantly armed with Pistols and a heavy Cudgel, to oppose the Sheriff in the Execution of his Office, and forbids him to make an Arrest. We esteem it our indispensable Duty to preserve the Peace and Tranquility of the State and to protect every Individual in the full and unrestrained Enjoyment of his Rights and Priveleges and to prevent by all lawful Ways and Means the Perpetration of any unlawful Act and to bring to condign Punishment all refractory Persons that have been daring enough, not only to violate the Law but to stand in Opposition to the Authority of Government. The above Relation of Facts, with such Opinion of our Duty have made us resolve to inform you, that you and your Deputies ought to use your utmost Endeavours to apprehend the said Thomas Hall, and if he still should resist, you ought to summon the Posse Comitatus or Body of the County to assist you in taking him and carrying him before some Iustice of the Peace; every Person you summon is compellable to serve and you ought not to admit any Excuse, and if he should refuse you ought to present him to the Grand Jury. It is necessary you should execute your Precept immediately, because if you should delay it and any Mischief or Evil should result from your Negligence, it will be justly imputable to you

Sir We received yours of the 6th Ins^{t} When we gave Directions to the Lieu^{t} of the County to receive Wheat from those who otherwise could not pay their Proportion of the 15 ℔ C^{t} we little expected that a Measure tending so much to the Ease of the People would have met with any obstruction, much less that the Power of the Lieu^{t} of the County, to issue his Warrant to execute those who neglected to pay, would be disputed, particularly in a County which has not raised a Man of their Quota for the new Regiment & filling up our Battalions. We are of Opinion that it was the Intention of the General Assembly, that the Horses furnished by the Non-jurors should be construed a Part of the Number required from each County. Enclosed we send you five hundred of the new Money amounting to twenty thousand Pounds at 40 for 1, and request you to forward, with all possible Dispatch, all the Provision you obtain. The Cattle as well as Flour are extremely wanted at Camp and, as soon as you have made up a sufficient Number to send in a Drove it will be proper to hire Persons to drive them, to be delivered to Col^{o} Hollingsworth at the Head of Elk. Sir Yours of the 10th Inst we have this Day received and are sorry to observe that there should be any Interference so as to injure your Purchase of Pork. We are happy to find you have engaged a Number of Cattle which, as well as the other Kind of Provision, is much wanted in our Army; we therefore request you to have them drove to the Head of Elk as soon as possible and have all the other Provision transported to that Place and delivered to Colo Henry Hollingsworth. We do not think you ought to give a higher Price for Pork than our former Limitation. We enclose you an Order on Colo George Dashiell for £10,000 agreeable to your Request and send you £250 of the new Bills of Credit, equal to £10,000 which you are to pass at 40 for 1 and in no other Manner and you are not to give a superior Price in this Money (calculating at that Rate) to what you allow in Continental Money. With these Sums, we think you will be easy and that they will very much accelerate your Purchases. As the New Money will answer all the Purposes of Certificates in Payment for Cattle, we do not think it will be necessary for you to issue any. We think that any Provision which you are directed to purchase ought to be taken in Payment for the 15 ꝑ Ct due from those Classes who have not furnished a Recruit. We wish you to forward the Corn without Delay and as you will be best informed of the Situation of the Enemy's Vessels in the Bay, we must rely on your Discretion in this Business, to chuse a proper Time to send it to the Head of Elk to be delivered to Colo Hollingsworth. Sir We have received Information that a certain James Anderson, a Subject of this State, was captured in one of the Barges or Gallies which have, for some Time past, infested our Bay and interrupted our Trade, by Capts Yellott & Folger and carried into the the State of Virginia, and is now confined at Richmond. Anderson, before and since our Governmt was formed, lived on Fell's Point in Baltimore Town, took the Oath of Allegiance and Fidelity to the State prescribed by Law, was appointed and commissioned a Lieutenant in one of our Gallies, and from his Activity and apparent Zeal, was always reputed a Friend to America and entrusted with the Command of a Vessel owned by some Gentlemen in Baltimore which he carried to New York; he is well acquainted with our Bay and has committed great Depredations on the Property of our Inhabitants. The above Recapitulation of Facts renders it unnecessary to suggest

Liber C C No. 22 to your Excellency that the said Anderson cannot be deemed a Prisoner of War and exchangeable, though he may hold a Commission from the Enemy and was taken in one of their Vessels, because he was a Subject of this State, took the Oath of Allegiance as such, and no subsequent Act by him can dissolve the Obligation he was under to the State, and therefore was, at the Time he received his Commission and must now be considered a Subject of this State and amenable to its Laws for any Offence committed against the Peace and Government thereof. We do charge the said Anderson with High Treason against the State and solicit you to cause him to be sent to us, under a Sufficient Guard in Order to take his Trial at our General Court, which will be held on the second Tuesday in October next and to transmit what Testimony you may have against him. [Council to His Excy Genl Washington]

Sir We were this Day honored with your Excellency's Letter of the 6th Instt The Regiment lately raised by this State, is at Philadelphia, where it has been some Days past, under the Command of Major Giles, who has the Orders of the Board of War for necessary Cloathing. When the Articles are procured, which the Major is extremely desirous of effecting, and which, he writes, he shall certainly accomplish very shortly the Regiment shall be marched with
p. 180 the utmost Expedition to reinforce the southern Army, agreeably to your Excellency's Orders. We beg your Excellency to be assured that every Thing shall be done on our Part to give Efficacy to your Order and facilitate the March of the Troops to the Place of Destination

[Council to Thos. Beall of Geo.]

Sir. We request you to forward to the Head of Elk, all the Flour & Corn you have on Hand, reserving about 300 Bushels of the Latter. As Mr Richardson will have Occasion to forward Flour, we recommend it to you to consult with him and to embrace the first opportunity, when you have Reason to think the Navigation is safe. When there is an Opportunity, we shall forward you a Sum of the new Money. If you cannot discharge your old Debts with it, we hope you will make it answer in your future Transactions and we will supply you with other Money when it is in our Power, for what is already done.

[Council to Messrs. Smith & Matthews Balto.]

Gent At the last Session of Assembly, so much of the Act to prohibit for a limited Time, the Exportation of Provisions, was repealed as prohibited the Exportation of any of the Articles enumerated in the said Act by Land. We apprehend there is no Necessity for giving you the desired Permission, as there is Nothing in the existing Law which restrains you from exporting Flour to Philadelphia by Land. We flatter ourselves you will conduct yourselves in the Execution of this Business, with the Degree of Caution and Discretion which is necessary to prevent a Competition with other public Purchasers of Flour

[Council to Thomas Richardson Esqr]

In Council Annapolis 15th Septr 1780

Sir We enclosed you an Order on Mr Johns for what Money & Tobacco he has received as a Commissioner of Loans, & will forward by the first Opportunity, some of the new Money. The pressing Demands for Provision for the Army require that what is procured be forwarded as soon as you have Reason to believe the Navigation

of the Bay is safe. Our Boats are now down among the Tangier Islands, and a considerable Fleet of Merchantmen have lately gone down from Baltimore Liber C C No. 22

[Council to William Baily Junr Esqr.] p. 181

Sir Yours of the 8th Instant was received this Day. We have given Mr Richardson an Order on Mr Thos Johns for all the Money and Tobacco which he has received on Loan, by which Mr Richardson by receiving Provision for the Amount of your Subscription, [may] settle the Matter with both you and Mr Johns.

Sir Commander Barron from the State of Virginia, is just arrived here, in Expectation of being joined by some Vessels of Force (according to the Information communicated to Govr Jefferson, in Consequence of the Engagement of Mr Steward on Behalf of the Merchants of Baltimore Town) to cooperate with him in capturing & expelling from our Bay, the Privateers & Cruisers of the Enemy which, you are sensible, have not only injured the Traders of this

Liber C C No. 22 State, by interrupting the Commerce, but committed considerable depredations on the Property of the Inhabitants. Upon this Occasion, we are very anxious to render the Commodore every Assistance in our Power, as well to effect the desirable Purpose of driving the enemy from our Bay, as to comply with our Engagement, as far as possible, to the Governor of Virginia. The Commodore has brought up the Barge in which Anderson was taken, and thinks, if she was properly fitted, she would be very serviceable and, in Conjunction with the State Boats, be sufficient to attack the Enemy's Barges & Whale Boats, and that the Barge would be particularly useful in expelling them from the Creeks & other Places of Concealment. If you will lend us the Barge to go on this Expedition, we will have her manned & properly equipped and will make you a proper Compensation (if any should be required) for the Use and will, in Case she should be captured or sustain any Damage, pay you her present Value, to be ascertained by proper Iudges, or repair the Damage

[Council to Capt Geo P. Keeports]

Sir. We have transmitted you, by Capt Boyer £ 60. of the new Emission of this State, with which we request you to purchase the several Articles enumerated below and deliver them to Capt Boyer. You will not give a higher Price in this Money than in Continental Dollars, calculating one of these Dollars to be equal to forty

Gent^n By a Letter received this Day from Genl Gates, we are advised that, in Virtue of a Resolve of Congress, authorizing him to call upon this State for Supplies for the Southern Army, he had drawn in Favor of several Gentleman for very large Sums. One of those Draughts for 320,000 Dollars has been presented for Payment. Our Treasury is empty, but were it otherwise, we should be under some Difficulty as to the Propriety of paying it, having not been officially informed that Congress had vested the General with such extraordinary Powers, nor indeed have we any other Information of it than what is communicated by the General's Letter of this Day and the Draught of the Deputy P. M. General for the Southern Department, which Draught concludes in these Words "Agreable to Resolve of Congress of the 17th June last." We have no Doubt but the Powers exercised by Genl Gates were delegated to him and as we cannot find any Mention made of it in the Journals of Congress esteemed improper for Publication. Gentn We beg Leave to refer you to a Resolve of Congress of the 10th of Septr 1779 Not having received any Information from the Board of War agreeable to that Resolve, of any considerable Additions to the Stock of Cloathing provided by the United States, by Importation or otherwise, we are at a Loss to know what will be expected from us towards cloathing our Troop's. They have generally suffered very severely by not being supplied in Time, and we are apprehensive the Distance to which they are removed from the public Stores, will encrease their Hardships in that Respect, unless proper

Liber C C No. 22 p. 186 Measures are taken in Time, for their Relief. We request you to peruse and seal the enclosed Letter to the Board of War. Altho' we have not any regular Information of the Action of the 10th Ult° interesting as it was to this State in Particular, we have no Reason to doubt that our gallant Countrymen, are under very distressing Circumstances from many Causes, particularly the Loss of their Baggage, and we rest assured that the Hon̄ble Board of War will see the Propriety of forwarding an immediate Supply. Unless we have some Assistance towards Cloathing the Recruits that are here, we shall soon have very few to cloath, as they lessen every Day by Desertion. We have Reason to believe that our Troops have, hitherto, received but a small Proportion of Continental Cloathing; To avoid a partial Distribution in future or to quiet Discontents and Clamours, if this Opinion is not well founded, it appears to us that it would be proper and just each State should know what Cloathing and Military Stores are annually imported, on Account of the United States. If it can, with Propriety be done at this Time we should be glad to know what has been imported of those Articles for 12 Months past, at least of Cloathing.

[Council to Board of War]

Gentlemen The distressing Circumstances the Maryland Troops are under, by the Loss of their Baggage on the 16th Ult° oblige us to call on you for supplies from the Continental Stock of Cloathing; their Sufferings require immediate Relief. We have likewise an urgent Demand for Cloathing for about 200 Recruits, who we detained for want of Blankets, Cloth & Linen, and we shall have Occasion for a further Supply of those Articles for other Recruits expected. The Time is now arrived when it is necessary we should know what supplies of Cloathing may be expected from the general Stock, and to inform you that we fear it will not be in the Power of this State to furnish in Time, more than a partial Supply of Hats, Shoes, Hose and Shirts. Mr Wm Smith lately lent us 200 Shirts, which we had bought by your Order. We hope it will Suit you to give us an Order on him for them and, if you have any Cloathing in Baltimore, we request your Order for what you can Spare.

p. 187 [Council to Colo. Henry Hollingsworth]

Sir We received yours of the 17th & 20th and send by Mr Giles £250 of the new State Money, amounting at 40 for 1, to £10,000. It is the general Opinion, this Money will circulate freely and will be taken by the Merchants in Baltimore and hope it will answer to extricate you from your present Difficulties. Lest there should be any Disappointment, by your not being able to pass this Money readily, we enclose an Order on the Collector of your County for eight thousand Pounds, which you are to account for or return, if you

can make Use of the new Money, this is all we have in our Power to do. It is our Opinion, if the Horses are good and substantial and fit for the Draft, the Service they were purchased and intended for, they ought to be received, and the only proper Mode that occurs to us to determine it, in Cases where an Objection is made by the Quartermaster to receiving them, is to call on one or two Persons well Skilled in Horses to examine them and if he or they should be of Opinion they come up to the above Description, you ought to offer them to the Quartermaster and insist on his taking them, and, in Case of his obstinately refusing, you must put them out to Pasture and take Care of them, and send us a Report of what you do in Consequence of the above Directions. Those adjudged to be unfit for Service, by the Persons called in, are also to be pastured and taken Care of.

Sir We request you to send us a complete Return of the Provisions you have purchased and obtained and in what Manner, since your appointment as Commissary, and hope this will not be delayed, at farthest, beyond the 17th Ins^t when some Member of the General Assembly may afford you a favorable Opportunity.

[Council to Colo James Hindman]

Sir Yours of the 7th Ult^o we have this Day received and have sent you by Mr Gibson £600 of the late Emission of this State, Considering the Situation of the Collection of the Tobacco Tax, in your County, we think it unnecessary to send you an Order on the Sheriff at this Time; but as soon as you can give us Information that the Sheriff has received a sufficient Quantity of Tobacco to pay the Order you now have, and has Tobacco remaining in his Hands, we shall then transmit you an order for any Quantity that may be necessary to complete your Purchases. We wish you to forward the Cattle with as much Expedition as possible, to the Head of Elk. We think the best Mode for getting the Wheat manufactured would be, to agree with the Millers to grind it for a fixed Price in Money, and to deliver you all the Flour, Shorts, Bran &^ca The Wheat, if delivered to any Person before it is manufactured, ought to be delivered to Col^o Hollingsworth at the Head of Elk, We are sorry to be informed of the Rise of Wheat in your County & still hope you will be able to purchase at our Limitation, but if it cannot possibly be accomplished, we must agree to your giving the enormous Price which wheat has risen to in your County. As we shall want Flour, you will have your Purchase sent to this Place by the first safe Conveyance

Gentlemen In order to enable the Extra Regiment to proceed to the Southward, immediately, we have been under the Necessity of turning over to the Continental Treasurer in this State, two thousand Pounds of the new State Emission, amounting at 40 for 1, to eighty thousand Pounds. We request you to obtain a Warrant in Favor of Capt Arch^{d} Golder Paymaster of that Regiment, on Mr Harwood (that he may be justified in having paid it at our Request) for that Sum, in Part of the Monies appropriated agreeable to a Resolve of Congress in June last to the Supply of the Military Chest, and the Exigencies of the War in the Southern Department

[Council to Donaldson Yeates Esqr]

Sir We apprehend the Flour at Appoquiminink in the Delaware State, to be Part of what was obtained & forwarded by Messrs Gilpin, Coale & Cox, Comm̃rs of Cecil County. The following is a Remark on their Return, "David Willson at Appoquiminink Landing received about 320 Barrels of Flour of which he forwarded about 200 Barrels, has the Remainder in his Store, but delays sending it until he is paid for the Freight due." By a Letter from Mr Josiah Johnson Comm̃r of Kent County, 21st Augt last, we find he had delivered a Quantity of Grain and some Flour agreeable to the Directions of the Act of Assembly, at Duck Creek, and had applied to Mr Hollingsworth to receive it, which he did not think Proper to, at that Place. We have Reason to believe Flour has been sent by some other Comm̃rs to Duck Creek and from thence forwarded to the Army & do not know the Reason why Mr Johnson's was not likewise sent on; at any Rate, the State having sent the Flour to Places where there should have been Continental Officers to receive it, cannot be Subject to a Loss by a Delay and it is our opinion it ought to be received and considered at the Property of the United States, at the Time of Delivery there.

Sir Governor Jefferson has informed us that the Executive of Virginia have given Orders for the Removal of the Convention Troops from that State, to Fort Frederick to prevent an Attempt being made by the Enemy to rescue them out of their Hands. We thought it necessary you should be apprized of this Order, that Preparation might be made for their Reception & support. M[r]

Murdock, Commissary of Frederick County has our Directions to supply you with what Pork and Flour he has on Hand, when Application is made by you. It is not in our Power to supply you with any Continental Money; it is expected some Measures will be taken by the General Assembly to promote the Circulation of the new Emission, and shall lay your Letter before them. We have requested Col° Forrest to send up such of the Soldiers of the Extra Regiment, rejected by the Board of War, as are able to march at this Time. The Pay of the Soldiers in Capt Reid's Company, is the same with those in the Line. Mr Jacobs likewise has an Order for the Cloathing desired. Liber C C No. 22

[Council to Andrew Buchanan Esqr. Lieut of Balt County]

Sir The Enclosure is a Copy of Governor Jefferson's Letter, received this Day by Express. We are not inclined to believe the Possession of Baltimore Town is an Object with the British Army now in Virginia, yet, as the Fleet and Army still remain in that State and its Neighbourhood, and their future Designs not clearly indicated by their past Conduct, we wish, in this State of uncertainty and Doubt, that you may not be wholly unprepared for their Reception, nor, on the other Hand, put the State to Expense in Preparations to frustrate their supposed Intentions. Your Orders to the Militia in Baltimore Town and its Vicinity, to hold themselves in Readiness, at a short Notice, we think the most eligible Measure under present Circumstances.

Gent^n The Enclosure is a Copy of a Letter just received from the Mouth of Patuxent by which you will perceive that some of the Enemy's Vessels are at present in that River. We hope there may be some Vessels equipped in your Harbour of sufficient Force to prevent their getting off with their Booty, The Value of the Vessels and the great Plunder they are probably encumbered with make them an inviting Object of Profit while their Force is not so considerable as to discourage an Attempt. Our State Boats are down the Bay and may probably join any Vessels you may send. We can furnish 15 or 20 Soldiers to assist in manning them and will chearfully render every Assistance in our Power as to Arms and Ammunition.

[Council to Jeremiah T. Chase Esqr]

Sir We enclose you a List of Tobacco, which we wish to have sold, to answer the most pressing Demands which you are well apprised of. Mr Hammond and others have offered to purchase. If Mr Calhoun has not sold the Tobacco transmitted to him, you will be so obliging to endeavour to dispose of the 150 Hogsheads agreeable to the List. 50 £ ℔ C^t and 4 ℔ Cent for Cask to be paid immediately or at the Delivery of the Notes, in Continental Money. Our embarrassing Situation with Respect to Money will be a sufficient Appology for giving you this Trouble

[Council to Colo Joseph Wilkinson or the Commdg Offr of the Calvert Militia]

Sir We request you to order such of the Militia of your County on Duty as may appear to you to be necessary to repel the Enemy now in that Part of this State, and have them properly armed and accoutered with those Arms in Calvert County belonging to the Public and others. You will take Care to post them in such Manner as will prevent as much as possible, the Inhabitants from being plundered, and to regain the Property they have already lost. You will give us the earliest Information of the Strength and Movements of the Enemy and of every material Occurence. Col° Smith has Directions from us, to supply the Militia with Provision. We expect to hear from you by the Return of this Express

Sir In Consequence of Information from the Board of War that the Convention Troops were ordered to Fort Frederick, and from the Governor of Virginia, that one Division of those Troops consisting of about eight hundred Men, were on their March to that Place, we think it necessary that the Guard should be augmented by two full Companies of Militia in Addition to the Company already ordered and Capt Reid's and request you will have this done as speedily as possible

[Council to Colo. Moses Rawlings]

Liber C C No. 22

Sir Since our Letter of the 6th Inst by Capt Jacob we have received one from Governor Jefferson, of the 3d informing us that he had given Directions for the March of the Convention Troops, in two Divisions, the first to consist of British, amounting to about 804 Rank & File, the second consists wholly of Germans, in Number, the Governor Supposes, about 1503 including Officers. The first Division must have been some Time in its March and of Course may shortly be expected at Fort Frederick, the second certainly will not follow immediately and probably may remain at their present Barracks a considerable Length of Time; As the Motives for removing the former do not, at present, operate so powerfully for removing the Latter. The Guard must be considerably augmented and for that Purpose, you have a Letter for the Lieut of Washington. We exhort you to exert yourself to the utmost, in making the necessary Preparations for the Reception and safe keeping of the Prisoners committed to your Charge and for subsisting them, as well as the Guard under your Command. If the Barracks should not be sufficiently large, or in proper Repair, you are desired to make the necessary Additions or Repairs either by Huts thatched, or thatching the Roofs of the present Buildings: In Short we rely fully upon your Zeal, Activity and Judgment on this and every other Occasion

Enclosed is an Order on the Lieut of Frederick County to be made use of, in Case there are not a Sufficient Number of Arms in Washington County, also a Copy of the Letter of the 6th Inst by Mr Jacob.

October 27

[Richard Dallam, Harford County to Gov. Thomas Johnson]

Sir I am under the disagreeable necessity of informing your Excellency of the further rise of Wheat to 20 £ & that I realy expect to hear this day 22..10..0 being given

These prices are the consequence of Contracts Mr Giles (in Acc^t with me) entered into with Mr Hall & John Baxley to whom he has engaged to give fifty Pounds & the rise of the marketts till April and advance them the money. And they to deliver the flour by Christmas for about 400 Barrels. Baxley I know has near all the Wheat to purchase & he must have it, he will shirk at no price, the Present price he gets for flour enables him without loss to give 20 £ & better for Wheat which he has already done. This Joins all the Wheat purchased in this Country to that price. And as We have four Millers in this County under like Contracts as Mr Hutson, I have no guess when it will stop.

I am not the only person alarmed I have conversed with numbers of Persons of different ranks & find all of the opinion that the money is gone, so little Confidence have the people in the money that I have been offered only yesterday, Wheat at 7/6 & Pork at 30s. gold, to be paid in three years altho the latter sells for 100 £ I cannot help saying I believe that money will not Procure the necessary supplys and that some other mode must be adopt^d

This Contract of flour with Hall & Baxley is the first I hear of Mr Giles making altho he has had his Commission some time he Boasts of being unlimmit^d in price & that he will out bid me, let the loss to the Public be what it will for my Part I have no intention of entering into such a Contention with Mr Giles. Were we expending our own money, I should have no fears on that acc^t You may depend nothing shall induce me but a Conviction, of the Public service being Promoted, to give over what I am justifyd in doing from the price being general could an immediate supply of flour be obtained I believe I should have not been nice ab^t a bid, both Mr Hall & Baxley was with me on the morning of my return Home & I could have contractd for Baxley flour at fourty Pounds & a rise but knowing his situation & hav^g laid a plan which I had no doubt of executing to prevent a further raise I put him & Mr Hall off with a promise of geting his flour on the Terms that others offerd And as Mr Giles soon after meet with them they informd me of the offer made them

October 27 which I could by no means think of giving made them still the promise when the flour was ready to give as much as another, but Mr Giles offer was so Good a sale they could not refuse it

I cannot but believe that Bad management in the Commissary department has been a cheaf cause of our distressing situation, which so much effects me that I can neither Eat nor Sleep am realy sick

Your Excellencies orders to write frequent will justify the Trouble of this Letter so soon after a longer one

I wrote to your Excellency some time Ago concerning the Lydea's long Boat and as I have never received an answer, concluded that my letter did not come to hand I applied to a Captain of one of the Gallies and Several other Craft going up the bay to take her up to Annapolis but could not get it done unless I would have paid them half as much as the Boat is worth she is in as good repair as when I received her her hull with some little repairs may be made good her Main Sail is about half worn the Rest of her Rigging is worth but little If she is for Sale Coll Barnes will Purchase her or If your Excellcy should think propper to entrust me with the sale of her, I will advertise her for public Sale.

November 2 [Jacob Giles Junr, A. C. Ps Mount Pleasant, to His Excellency Thos Johnson Esqr.]

Sir I wrote you about a fortnight since informing I had Col Blanes Appointment as Assistant Commissary of Purchases and was by him desired to apply to your Excellency for a Licence. I was this day informed by Mr Dallam he had received a Letter from you wherein You mention I did not send my Commission. I did not

Know that it was necessary as Col Blane in his Instructions to me says he would write to your Excellency himself and acquaint you of my Appointment neither could I have Sent it had I known it Necessary as Col Blane omitted Inclosing my Commission although he fully Intrusted & Authorized me to Purchase. I have Sent an Express this day to Philad[a] for Cash by whom I shall get my Commission and will Inclose it to Your Excellency by first Opportunity. November 2

You may rely upon my most Streneous Exertions to get a Supply for the Army and at the Same time keep the Price as low as Possible no Person can have a greater objection to the Exorbitant Price of Grain than myself as I have a very Capital Tax to pay & it certainly is the Interest of every Man who has a Landed Estate to keep the Price down, as we are in fact only selling to ourselves. I shall be Glad to receive your Excellencys advice & Instructions at any time. I mentioned to M[r] Jenifer the Bearer of this I thought it might save Some Expence to the Continent for me to have an order on the Sherif of this County, for What Cash he Collects or a Part In which he agreed with me. If your Excellency should think Proper to give me an order on the Sherif for any Sum after I have sent you my Commission shall be oblidged Interim I am with all Respect Your most obedient Humble Servant

Sir The salt you sent to me was thankfully received at the Exchange and went off in a few days and the wheat is Ground and the flour has been some days ready to Deliver but I could get no Craft here to take it to elk, and to Expedite the Conveyance I sent an express to Col[o] Hollingsworth this day week to send a Craft for that and the flour I have for Col[o] Ewing which he wrote he would do this week but she has not yet appeared.

November 5 My Clerk at Chester Town Informs me that The Skipper of the plater had the Salt Measured in a Very unfair manner that he refused delivering it in any other way saying it was the way he received it, and the Salt overrun by his Measure a half bushel which he took back with him this Convinces me that it was measured unfair as such Salt always looses every time measured, and the Custom Here is to buy and sell by the Philadel[a] Seal which is larger than the Maryland—in Consequence of this the salt has Lost Considerably in measure but the wheat was measured in the same measures which will make but Little difference.

I shall be always thankfull for your further Commands and am with Greatfull Esteem Your Very humble serv[t]

Hono[r] Sir Yours of the 6th Instant in Council is this moment come to hand, inclosing an Order for the Removal of the Public money in my hands immediately, unto the Treasury of the W. Shore.

I am sorry to inform your Excellency, that I am fearfull my Ill State of Health at Present will not Permit me to Comply with the order as soon as might have been otherwise expected, the greatest Part of the money is in Small Bills which will take some time to List and Count, which as soon as done, I shall set off with if able to ride, if not will endeavour to get some careful hand to take Charge of it, And as this order seems rather hard on me to Carry such Sums of money from hear to Annapolis for my Salary, I hope the State will Consider the money after it leaves my House at their Risque and not mine.

Sir When Count de Estaing, sometime past, was hourly Expected from the Southward in want of provisions, our Magazines being then low, and the Commissary of purchases unable at once

to furnish the Supply that would be probably wanted for our own Army and the Count, Mr Holkers Agents, in Concurrence with the Governor of Maryland took measures to procure 8000 Barrels of flour in your State of which the Comm^{ier} of Congress was informed & did aprove as being necessary at that time, but being since told there is a great reason to Suspect that Certain persons being actually or pretendidly Agents for Mr Holker have made large purchases of flour beyond the quantity afores^{d} and by creating a Competition & out biding our Commissaries, have greatly inhanced the price of flour, and retarded those Supplies which are necessary for the Subsistance of our Army, we request your Excellencys attention to this affair, and that proper enquiry be made and that all the flour purchased by any person whatever except the Complement of Eight thousand barrels afores^{d} & of 4000 before in Mr Smiths hands for Mr Holker be turned over to the Commissary Genl of purchases, as the only Channel through which Supplies for our army & our allys Can in future be regularly obtained and desire that hereafter no purchases of flour on public account be allowed in your State but by the Commissary General & his Deputies and we refer you to Col Blain for more particular Information on this head. [Tim Pickering, War Office, to his Excellency Govr. Johnson]

Sir We had the honour of writing to you by Major French, requesting a loan of powder & lead. The ground of that application was the expected arrival of Count d'Estaing to cooperate with the Army of the United States in the reduction of New York. But

yesterday authentic information was received by Congress, that the Count was going directly to the West Indies, after an unsuccessful Attempt to capture the British army in Georgia. The powder & lead therefore of which we requested the loan will not now be wanted; and should they have been ordered on, we request they may be stopped & returned into your magazines: Indeed from your Excellency's letter of the 22d ult° it seems there was but little prospect of your being able to supply the ammunition requested. Red Book No. 24

We are extremely sorry that the trouble we gave your Excellency in ordering out a militia guard proved fruitless: but till very lately it was not in our power to send off the prisoners, from the want of an escort; and just at the time when one was ready a letter from Col° Rawlings informed us that the militia guard at fort Frederick being very disorderly (probably from having nothing to do) he had discharged them. Nevertheless, as it will be very inconvenient to supply so great a number of prisoners in this place with wood and provisions & from the continual accessions by captures at Sea very difficult to secure them, we are still of opinion that at least four hundred should be sent to fort Frederick. We accordingly wrote to Col° Rawlings, desiring him to take the necessary measures for procuring another guard, either by inlistment for a year, or from the militia, giving us timely notice when he judges they may be ready, that we may send on the prisoners in Season. We beg leave once more to ask your Excellency's interposition to furnish the guard now requested.

We have the honour to be with the greatest respect Your Excellency's most obedt Servants By order of the board

Yours of the 17th Oct came to hand the 30th at which time I had purchased the Waggons horses & ca as appears by my Acct rendered you by Mr Williams, I have borrowed 23 yds Linen from Col° Shryock for makg a few Bags Necessary for the Waggons but as he has none but what was purchased under the Direction of Mr Calhoon for the Contl use he will not deliver any to your order which Intimates a Distinction between State & Continental, I have delivered to Col° Rawlings one Waggon, five horses & Harness, all the flower I have obtained will not amount to more than four Loads part of which Lays at Mills which cannot grind for want of water. I have Consulted Col. Rawlings who thinks it improper to send any of the tax flour, the approaching Season makes it necessary to provide Stabling more hay, Straw, grain & Many other Articles for the horses I have on hand which requires more Attention to that business than I am able to give therefore must request you will direct me where to deliver them as I have been obliged for Convene of Pasturage & hay to keep them a Considerable distance from my own

November 11 house which makes the care of them very troublesome, without proper notice they will soon become useless, People are daily asking for Money, therefore earnestly request you'll put it in my power (p Mr Williams) to Comply with my promises to the people from whom I have purchased, I believe a few might except of the new Bills perhaps I cod pass to the amount of 5 or 6000 £ Continentl I hope you'll endeavour to order the teams & Waggons out of my hands as soon as possible the Commissary here will not Issue any provision to Waggoners which makes it difficult to get any person to feed & Attend the horses.

Sir Inclosed is a letter from Mr Faw on the Subject of Cloathing I beg leave to enter a protest Agst. his making any more Shirts of the Oznabrigs mentioned those lent are so very bad I am asham'd & afraid to take them to Camp.

Col Smith and Mr Jefferies, has a quantity of Coarse Cloths & Blankets, they promis'd Col Forrest the State should have the Refusal and will keep them till they hear from you. I've exam'd them and think them too great a Bargain to be Missed in our present necessitous State. there are upwards of 100 extraordinary good Blankets from £ 40 to 50 £ some more of the Cloth than we want (to make up the deficiency in Overalls and the Socks but immagine You'll not Object to its being purchased on that Accot as the whole must go together. I wait here for an Answer, Capt Cromwell who has seen the goods) wil inform you further respecting them

P. S. everything will be on Board the Plater early Tomorrow. She will be quite full the Cloth and Blankets (if purchas'd) mus: go at another Trip

November 15

Sir Inclos'd is the bills (you wrote of) for the Cloth, with Receipts for the payment of the money on each.

Col. Smith's Cloth has arriv'd he has reserved It for more than a week past for the State, likewise a quantity of Blankets, he offers them reasonable I could wish the State would take them. I've wrote the Govr on the Subject mentioned the prices and wait for an Answer.

Mr Faw has sent a parcel of oznabrig Shirts, the worst I ever saw and has not sent me the price, I wish you'd beg of the Govr not to let him go on making such vile things I am Really ashamd to take them up.

Sir I have receiv'd no Supply of forage from you, or thro' the communication of Elk for a considerable time past; it is the occasion of great distress with us, and makes me much alarm'd for the consequences; I was out of grain this morning at a Season when we ought to have 60,000 bushels in store at this place; What can be the reason, surely the credit of the department has not totally fail'd, nor the Stock of money sent you? if it has send a Messenger on for some we cannot obtain a Supply for you, unless we are fully acquainted with your necessities; I know you are embarrass'd about the extortionate price demanded, but our delay will not help the matter, I beg of you set every wheel to work, or we shall have a famine among our horses; If it is possible for you to send on 10.000 bushels weekly untill the navigation is Stopped, we shall have occasion for it; for the sake of the army & our cause which depends on it, I doubt not but you will exert yourself; November 15

A more advantageous offer was too powerful, for narrow Soul to refuse I set of to Camp early in the morning without purchasing any thing here perhaps the goods we want may be had on better terms to the Northward of which I will advise you by letter. The Plater could not carry the whole of the Cloth & Cloathing, a part is left for the next trip I've thought proper to detain Sergt Neary to come with it

I've Just been in company with a Capt Ragsdale of Harrisons Regt of Artillery he left the Maryland Incampment the 8th Instt he informed me our Troops was to Winter at Quebble Town about eight mile from Middle Brook he brought letters from Genl Smallwood to Govr Johnson which he has sent to Fredk he inform'd me likewise of the death of Capt Gale of our Artillery

Sir Inclosed is my Commission for the Purchasing department for this County. I beg therefore your License. You will see by the Date of my Commission I have been some time appointed and I have been acting ever Since without Licence from Govr Johnston which has not been my fault as I wrote to the Governor immediately & since but have received no answer. I have understood the reason why he did not License me was because I did not send down my Commission. The first Letter I received from Col Blane appointing me he omitted Inclosing the Commission but desires me to Write to the Governour and says he would also write to him which I thought sufficient as I knew the Governour could not have the least Objection to my Appointment. Sir At the beginning of those troublesome times I for my own part thought there was undoubtedly great honour to be deriv'd from being so honourably employd. I have now been allmost three years in the Galleys, first one, & the other, and now find I am forced to one worse than I was, when I first entered into the honourable Service; my waiting from one Session to the other avails nothing, as nothing has yet turnd out to my emolument. Must beg the favour of your Excellency to stand my friend respecting to the advancement of a Loan from the Treas^{y} as it has been frequently obtained by other officers in the Land Service. I should not have pressed to trouble your Excellency on the Subject was not my present Circumstances truely distressing, my present pay being inadequate to Support a Wife and Family. Should I be so loucky as to be relieved through the benevolence of your Excellency, I shall with Allacrity return to the duty that becomes an Officer who cou'd wish to serve his Country at any time or any place. Dear Governor The packett which comes Express by the Barer Mr Faris, met me yesterday near Chester (on my way to Philad^{a}) with orders from Mr Robt Morris to me to forward them from this place by a fast sailing Vessel and carefull Skipper to Portsmouth Virginia, or such other place as the French Fleet may then be at, as there is no such Vessel at this place at present and the wind such as will not admitt of any coming shortly, the Dispaches being for the Royal Navy of France of course of the greatest consequence, I have thought it advisable to dispatch an Express to you by way of Baltimore with a request to Mr Calhoon to forward them if convenient, the Dispatches consist of a large packet seal'd To Monsieur Count de Grasse Chief De Escadre & Cet. one Lesser D^{o} To Monsieur Count D^{e}Estang Vice Adm^{lle} & Cet. one Small Letter to Robert Smith Esqr of Baltimore now at Portsmouth Virg^{a} which packet please to give or order a receipt to be given for. I mention this as Mr Farris is young in his present appointment, and doubt not of a ready conveyance by one of your Boats to Portsmouth or as you may direct

[H. Hollingsworth, D. Q. M. F. M. G., Head of Elk, to His Excellency Thomas Johnson, Esqr.] November 19

Dear Sir As I have ever made it a point to acquaint you with the dificulty's that arose to the Public, and to my self as a public officer

November 19 in the State where you preside, so now I am incouraged from your former condisention to acquaint your Excellency that the difficulty's I now every day experience in procuring Forage for the Army (which they are in the greatest want of) are truly alarming the more so as 'tis in the midst of plenty, to give a more full Idea of our situation I take the Liberty of inclosing a Copy of a letter this day receiv^{d} from Col^{o} Owen Biddle A. C. G of Forage at Philadelphia, by which you will be fully inform'd of the wants of the army, and at the same time I shall take the Liberty of informing you of the little prospect I have of supplying it, from which you will be enabled to Judge what is best to be done, and as our General Assembly is now Setting I flatter myself that some salutary measures may be fallen on for their relief; Mr Biddle, your Excellency will observe requests ten thousand Bushels of Forage per week, I have not been able with every Industry in my power to furnish Him with five Hundred, nor even to supply this post sufficiently for their common dailey consumption, not that 'tis scarce but the people wont sell nor will the money buy produce long. I am now offering seven pounds ten shillings for Corn per Bushell, and five pounds for Oats, I can't think of giving more, as it appears to me that Corn and Oats at these prices, and wheat at the present price, that the whole money of the United States will not be Sufficient to purchase the produce of Maryland and Virginia for one season were the people willing to take it, but this is not the case they wont sell at all, and by holding back their grain intend to raise the prices still higher, if this is suffered to goe on, you may lay and welcome the planters and Farmers will evaid all taxes, as they have these heretofore lay'd by raising their produce in produce in proportion to the taxes, and we the purchasers are oblig'd from necessatys of the Army to comply with Exorbitant demands; I would not dare to say so much on this subject which your Excellency is so much better acquainted with than myself did I not recollect that the Squalling of a Goose once saved a great City, and in fact I am so distressed that I know not what next to do; could we once get a supply for a few months before hand, so that we could be at liberty whether to give those prices or not it would give me comfort, but that is not the case we must give what they ask or Starve (I see no remedy) but that of laying a part of the Tax in produce which I am informed has been done in Virginia, though this may seem hard at first, yet doubtless it would be puting mony in the Peoples pocketts (on the whole) as it would assist to fill our Magazines and relieve our emediate necessities, by which we should be put to on a standing so as to deal on a square footing with the Planters or Farmers, and in the end not only produce of every kind, but wages and even imported articles must fall

Thus Sir I have taken the liberty to make you acquainted with our wants and given my thoughts on a remedy, a sthe wants they are

real, and if the remedy should be eronious 'tis my mistake, which I am emboldend to ocer from your former indulgencies November 19

November 26 [Jas Calhoun D. Q. M. G'l, Baltimore, to His Excellency Thomas Sim Lee Esqr]

Sir I this moment rec^{d} a Letter from Col^{o} Hollingsworth ꝑ bearer informing me that a number of Craft would be wanted at the Head of Elk immediately for the transportation of Troops to the Southward and as I am apprehensive it will be impossible to get many without impressing must therefore request an Order from Your Excellency and Council for that purpose by this Express

I yesterday rec^{d} a Letter from the Board of War informing me that a number of sick and wounded French Troops would be sent to Baltimore for their recovery and Doct^{r} Bond is come down to make provision for their reception we will be very hard pushed to find places for their accomodation & will be under the necessity of applying to Your Excellency & Council for those Barracks at the Fort

& probably for further assistance in this matter but as I am not fully posted of what will be necessary to know of this Subject shall defer writing fully until I have a further conference with Doct^{r} Bond in the mean time am in the greatest hurry Your Excellency Most Obed^{t} H^{ble} Servt November 26

[Jno Bolton, Chestertown, to His Excellency, Thomas Sim Lee] November 26 Red Book No. 25 Letter No. 42

Sir At the request of Thomas Johnson Esqr our late Governor I have furnished the Recruiting Parties belonging to this State with Provisions, for which I am abligd to pay the ready Cash out of my own Pockett; this I have continued to do most of the time since the Commencement of the War, I was in the Year 1777 in advance for the State above two thousand Pounds, above one half of which I lay out of more than a Year & then had it paid to me in Loan Office Certificates, which prevented my supplying my Store with Goods to carry on my Business, but that was not my greatest Loss, the Depretiation of the money was a much greater, & that is now so rapid that I think it is necessary I should either be furnished by the State with Money to Purchase, or Provisions to serve the Soldiers, or must beg leave to decline serving them any longer. On Setling my acco^{t} in August last I was near thirteen hundred Pounds in Advance, which tho it was but a few months arising yet the Depritiation was so great that it sunk a great part of the Vallue.

I have since that time advanced near five hundred Pounds & that is daily increasing & my Wages since that time will not bear my Expences to Annapolis to settle my Acco^{ts} & the longer I lay out of the money the more it depreciates; I must therefore intreat you will either get some other person appointed to Issue Provisions to the Soldiers, or supply me with money to buy, or direct the Comissary General to supply me with Provisions for that purpose either of which will oblige Sir Your most h^{ble} serv^{t}

At the Request of the Court The Court rec'd a Comm̃ of the Peace for the County also one for the Orphan's Court, both came to hand open & unsealed, a few Days ago, And as the Court Apprehend a mistake must be in the Omitting the name of one of their Brethren in the Comm̃ of the Peace for the County Co^{t} (Mr Clem^{t} Sewell) whereby they think the Public is injured, and him much insulted, and are of Opinion that his Excellency has been much imposed upon in the recommendation, we also Apprehend that another mistake is made in respect to Mr Chas. P. S. You'l Please observe to his Excell[y] that M[r] Carradine is moved out of the State and M[r] Phil. Downes of the County.

November 30 [Jas Calhoun D. Q M. Gl Baltimore to His Excellency Thomas S. Lee Esqr]

Sir I wrote Your Excellency on friday that a number of Vessels were wanted at Elk to transport Troops to the Southward, since which I have used my utmost endeavours to procure what were necessary and have got same but the owners are so extravagant in their demands that I am distressed to know what to do they ask at least 30/ p day for every Ton Burthen

I wish our Legislature would make some provision for procuring Vessels and Carriages on any emergency the former rates allow'd by it is by no means adequate to the prices of other things and on the other hand people take advantage of any sudden and urgent necessity for Craft or Teams. I hope your Excellency and Council will pardon me if I take the liberty to request you will please mention this matter to the Assembly who probably will make some alteration in the present law.

We have no farther acco[t] of the sick and Wounded French Troops since I had the honor of writing your Excellency last, and are in hopes they will be provided for in Virginia especially if no more arrives than what came in two Ships which are all we yet hear of being in our Bay. Should they come to Baltimore the Board of War hath requested me to apply to Your Excellency & Council for the use of the Barracks at the Fort. Doct[r] Bond deputy Director Gen[l] of the Hospitals has been with me to View them and his opinion is they will not accomodate more than 60 or 70 Men. We have had a House on Rent in Town which has been occasionally occupied as an Hospital and as Barracks and will hold nearly the same number as those at the Fort but this House is greatly out of repair I have given orders to have it fitted up but can scarcely get a Workman to do anything many of our Mechanicks have left the Town & others turned Speculators so that we are difficulted to get the most trifling matter done especially of Carpenters work.

Should the number of these Troops come that we expected they will require more room than these two places and am afraid the

owners of Houses will be very unwilling to let sick & wounded Men into them and our Law for quartering Troops doth not extend to those of our allies therefore am fearful we will be put to a good deal of difficulty in providing them comfortable houses and common humanity as well as policy oblidges us to do every thing for them in our power November 30

And please Your Excellency & Honours. Yesterday Arrived hear General Hoggan with the North Carolina Brigade as ꝑ my advice of the 25th Novemr I have Vessels, provisions, wood, water Casks and every other necessary prepared for them, so that I Expect they will Embark this day or tomorrow as may suite them best, last night I received a Letter Express from the Honoble Board of War of which you have a Coppy Inclosed. I have only to Inform you, that no such quantity of Vessels nor have I a prospect of getting the number wanted, must therefore Intreat your Excellency and Honours will take such order in this matter as to you may seem Meet, at the same time every thing in my power shall be done, but when I consider that almost all the Vessels traiding to this place are already taken up, to transport General Hoggans Brigade it renders it impossible for me to procure a Sufficient number of Craft here, I shall wright the Honourable Board tomorrow Express, acquainting them of my want of Casks which expect will be furnished chiefly from there, but shall be glad to Except any from your Honours that may be convenient

[Joseph Robinson of the Island of Bermuda memorial To His Excellency Thomas S. Lee Esqr Governor of the State of Maryland and to his Honorable Council] December 1

That your Memorialist being acquainted there was a Law passed in this State authorizing, your Excellency & Council to permit the

December 1 Inhabitants of Bermuda, under certain restrictions to carry Corn from this State for the relief of the distressed Inhabitants of that Island in Consequence of which your Memorialist procured a Vessel with one Thousand Bushels Salt, and proceeded to Baltimore where he has safely landed the full Qnt^y and is in no doubt but it will be properly distributed to the Inhabitants of the State. Your Memorialist therefore begs permission to ship Corn agreeable to Law, and also to be indulged with taking a less Qnt^y of Corn, and be permitted to carry a small Qnt^y of other provision instead of Corn, as the Inhabitants of that distressed Island exists by Trade, of which at this unhappy Period they are precluded, and for want of the necessaries for the support of Life some hundreds of them have actually perished

Your Memorialist relying on the Philanthropy of your Excellency and Council, hopes the Indulgence he prays for will be granted

November 30 Baltimore 30th Novr 1779

We the Subscribers do certify, that Capt Joseph Robison has landed One Thousand Bushels of Salt at this Place, and hope proper encouragement will be given Adventurers, especially the Inhabitants of Bermuda to bring in that necessary Article, as the natural Consequence will be a reduction of the Price

December 1 Red Book No. 25 Letter No. 43 [Eph Blaine D. C. G. Susquehanna Ferry, to Govr Lee]

May it Please your Excellency Mr Richd Dallam who was one of your agents appointed to purchase flour last spring return'd me a Quantity upon hand equal to four Hundred barrels which he had ground but could not obtain casks to pack it. I find he is now preparing to Deliver it to Mr Smith agent for the french consul in

Baltimore Town also his late purchases—as my wants for feeding the Army is so great and a very few days will Stop the navigation in Chesapeak bay and Delaware with Ice, and my Principle dependance is in feeding the Army untill the first of march next with flour from your State—and as I have Every Reason to believe the french Consul has Double the Quantity he was Licenced to purchase, Requests your Excellency and council to order Mr Dallam to deliver over all his former and late purchases of flour and wheat under your Directions to Mr Jacob Giles who has my Instructions to forward the same to head of Elk without a moments delay. Red Book No. 25

Shall inform you fully by next post my prospects of feeding the Army the Quantity of flour upon hand and what my expectations are respecting future suplies.

[John Randall, Morristown, to His Excelcy Thomas Sim Lee Esqr.] December 3

Sir I arrivd here two days ago with the Cloathing Sent from Maryland at which place our Troops arrived this Morning and are preparing to Build their Hutts for the Winter. I've got a House, ready and am to be furnish'd with the Taylors to make up the Overalls immediately

I could purchase nothing in Philadelphia, the Continental agents purchase everything fit for the army. Our whole dependence is on the State for the deficiency of the two Thousand Overalls, Shirts & Sacks, with all the Shoes, Stockings and Blankets you can possibly procure, at least twelve hundred of the latter are wanted and our men Suffering exceedingly for want of them

[Col. Rawlings, Fort Frederick to Gov Lee] December 3

Sir I have the Hon^{r} to Inform your Excellency that the Board of War Intends sending to this Garrison four Hundred Prisoners, and they begg I would Solicit y^{r} Excellency for a Guard of Militia, but as I dont expect the Prisoners wil larrive before the first of January it will be needless to have them here sooner.

Y^{r} Ex^{cy} will please order up a Comp^{y} at that time as I have wrote to the Board that I shall then be ready to receive the Prisoners.

I am very Certain the Militia will never answer this purpose, for they will not Subject themselves to such Close duty as will be necessary to prevent the prisoners from getting away which would mortify me very much to see one of them make their escape from us, altho they do it dayly, owing to our great Humanity, which in my opinion is misplaced.

I would begg leave to recommend raising a Standing Guard for this purpose which I think might be done with propper encouragement, that is 200 Dollars from the State, Congress is willing to allow Cloathing & Cont^{l} pay

Red Book No. 25

Indeed it will be very hard on the Militia of our State to furnish a Guard here all the Year.

Mr Reid who is charg'd with this is on his way to Philadelphia in order to forward the Prisoners.

Honourable Gentlemen In consequence of some Conversation with His Excellency The Governor & The Honourable Mr Carroll I send two pairs of stockings fine yarn & worsted as samples. the yarn are double and the worsted, many of them are 4^thds^ none less than 3, & are all very good & fit for Camp where I understand they are much wanted. I saw 2 days ago a Mr May and another Trader from Philadelphia who assured me that such Stockings were selling at 70 dollars a pair there, having risen from 50 dollars which was the price when Mr Mercer left that City. I have two principal inducements for giving your Honourable Board the present Trouble; Contributing to the Relief of the wants of our Army & raising Money to pay my Taxes. I can furnish about 100 to 200 pairs, which if they suit are at your Service at the Medium price given to others for such; for in fact I know not how to set a price upon them or any article adequate to the present Lines. I was compelled yesterday to give 1000 £ for 20 Bushells of Salt to supply my family & every article by The Ship General Washington is sold at the same proportion.

[Jas Calhoun D.Q.M.G. Baltimore to His Excellency Governor Lee]

Sir Having heard nothing farther from the French Troops, we begin to conclude none of them will be sent here which will relieve us from a great deal of trouble as we were by no means prepared for this reception

The bearer of this Doct^r Thomas Bond Dep^y Director Genl of the Hospitals came here in expectation that it would be necessary to Establish an Hospital for the above mentioned purpose but being now of opinion his presence will not be wanted here on that occasion he is desirous of paying Annapolis a Visit before his return I therefore take the liberty to introduce him to Your Excellency.

Sir Your favour of the 19th Ult. I duly received would have been glad could you have supplyed me with some Cash as it is impossible to get supplyed fast enough from Philadelphia. however I Can go on no faster that I am supplyed as People in general wont trust an Hour. our Navigation being impeded by the Ice so soon this Season is an unfortunate circumstance as it Prevents supplys

December 8 being got forward that was expected. I hope to God our Assembly will do something to retreive the Credit of our Currency as People on all Hands are knocking it down every day. Col Blane hinted to me on his way up that Mr Richd Dallam had exhibited some Charges against the Commissarys to Baltimore & Harford if any Charges are exhibited against me I shall much oblidged to your Excellency for a Copy of them as I am conscious of no misdemeanor in my Department. but would wish every Public Officers conduct should scrutinised. Mr Dallam I make no Doubt will, shall therefore be silent untill such a Scrutiny happens and then the Cause of the rise of Grain in this County will be fixed on the right Person.

December 8 [John Dorsey and Company to Gov Lee]

We will charter two Briggs, equal in Goodness & fast Sailing to any on the Continent, one carries 8 four Pounders and the other 10, with small arms Pikes, Cutlasses &ca to carry flour to any Part of the West Indies, the Briggs shall be well manned and compleatly fitted and found for the Voyage We will take one half of the Cargoe for the Freight to the Port of Delivery and will bring back one half of the Load or Cargo for the State and agreeable to orders. We will Purchase the Load of Flour on the Usual Commission (and if necessary advance the Purchase money) and we will send a discreet Sensible young Gentleman of mercantile Knowledge to transact the Business in the West Indies each Brig will carry about 600 Barrels of Flour

600 Barrels of Flour will cost say—£60,000

300 for Freight 300 for the State will bring in the West Indies four half Ioes per Barrel, which will amount to £3.600 Gold, this sum laid out in Goods and brought to the Continent, at 80 for one (which is less per Barrel, which will amount to £3.600 Gold, this sum laid out in Goods and brought to the Continent, at 80 for one (which is less than the current Price) will amount to £288.000 Continental Money, by this Calculation the State will only risque £60.000 when the Owner of the Vessel will risque his Vessel and outfits, which will amount to £120.000. The Owner of the Vessel will also have to pay at least £750 in Gold, in the West Indies for Seaman's Wages, and other Disbursements. this will reduce the Owner of the Vessel his half of the Sales of the Flour to £2,850 which brought here will bring £228.000 By the above Calculation which we believe to be just, the Owner of the Vessel risques Double the Sum to Sea (not only *to* but *from* the West Indies that the State does, and the State, if the Vessel returns will receive a Profit of £60.000 more than the Proprietor of the Vessel.

We have some Coarse Cloths to the amount of about £25.000 which will Cost about £26 ꝑ yard, which we will sell to the State

Sir Yours of the 2d inst was duly received, The North Carolina brigade is gone down the River on their way to the head of Elk. The Virginia troops will follow. It is necessary that you make provision therefore for the transportation of two thousand Men, besides the North Carolina brigade. the latter you will dispatch as soon as they arrive. The Virginians may be at Elk in Ten or Twelve days. Some exertion will be requisite on your part, write us of your prospects; and mention the number of water cask (if any) that will be necessary to be sent with the Virginia troops, during the ten or Twelve days mentioned, the craft you collect for the Virginia troops may be employed in any short trips; but you will be sure to have them ready by that time. We hope there will be no failure in procuring the number wanted.

P. S. the enemy ought not to know of the passing these troops down the Bay: if it can be let it be a Secret, till they are all embarked

Sir The distresses of the Army for want of Bread and my great fears respecting their present & future supply will sufficiently Apologize for my troubling your Excellency & Council so often with the Business of my Department.

The depreciated State of our Currency, the Spirit of Monopoly which so generally prevails with mankind, & the temper of the Farmers to hold back from Sale such produce as they have to spare, is very alarming and makes me dread a Disolution of the Army for want of Bread, indeed I despair of being able to procure one third of the quantity demanded for the ensuing Years Supply on any terms without the aid of the Legislative Authorities, and the most vigorous measures adopted to secure every Bushel of Wheat & Barrel of Flour either in the Speculators or Millers Possession & procuring the residue which is to spare. The Millers & Speculators in your State have I presume bought up considerable Quantities, I wish it could be secured and means taken to stop their future purchases while the wants of the Army are so great

As the Season is now at hand in which the Navigation of Chesepeak & Delaware will be obstructed with Ice & cut off all Communication of Supplies by Water which is the only easy mode of transporting Provisions towards Camp.

I have some time ago given directions to my Assistants in your & Delaware State, to rise their utmost exertions to forward every ounce of Flour in their Possession before the 20th Instant & have to request your Excellency & Council to order the State Commissioners

which were appointed last Spring & this Fall, to deliver over to my Assistants all Flour which remains in their Possession, who have directions to forward the same.

Mr Dallam has been lately delivering Mr Smith (Agent for the French Consul) a considerable quantity of Flour which I expected. it is very hard that his Magazines should be fill'd with Flour when I can assure your Excellency our Army has been seven Days without Bread, and preparing to go into Winter Quarters with empty Magazines, the Idea distresses me exceedingly.

Your Excellency & Council will please to take these matters into your most serious Consideration & adopt such measures as will enable my Assistants to obtain all the spare Flour in State else the Army will undoubtedly Suffer.

I was happy when at Annapolis in finding your Honourable Assembly disposed to render every Aid to procure the quota of Flour & to detect all kind of Monopoly of Provisions, which will be of infinite service to the public

I think his terms high, If you please to send a Vessel for it or accept his terms, please to inform Mr Brown who will not neglect to procure the beef on the best terms as soon as possible. I shall immediately on the main endeavour to execute as much of your order as will be in my power & on the best terms I can. Should the quantity Mr Brown procure here & that I buy on main exceed your order I shall take the overplus on the account of the United States, if you should not want it, and will if agreeable pay Mr Crissoll for securing it and furnish him Salt to do it. Sir John Beale Bordley Esquire being in Philadelphia and the Superintendent of his farm on a Journey that way I can't purchase his beeves 'till he returns and perhaps not at all, as I am told they are to be disposed otherwise, which I shall know as soon as I see

I applyed to Edwd Tilghman Esquire but his price for beef now being 10s ꝑ ℔ soon expecting 12/6^{d} and not willing to kill for any man till the cash for the Supposed weight is counted down; I could not treat with him. perhaps I shall be more fortunate on application to other persons I am on my way to see: but such precedent is very hurtful as well as that of purchasing pork at eighty pounds Continental Currency ꝑ hundred weight and the use of the market on which terms private Persons dealt here yesterday for about Two thousand weight of it and which I understand The purchaser buy for his own use. It has such an effect on me, that I wish with all my heart I had not undertook the publick purchases and how to proceed I am intirly at a loss, for I am credibly informed Mr Barnaby living at Oxford has given twenty pounds Continental Currency ꝑ bushel for wheat, and what can be intended by such a conduct but the ruin of the common cause; I am sorry to mention it to your Excellency, but I think my duty obliges me to do it, without proper support, Instructions and great deal of Cash, I foresee my utmost endeavours must prove unsuccessful and the necessary Supplies can't be procured. Sir I have but just now received The Answer of The Governor & Council to my offer of some Stockings for the use of The Army. I commend very much these Honourable Gentlemen for their Care in purchasing as cheap as may be for the publick but I fear their good intentions will not work a reduction of prices till a general Regulation takes place. I feel, most woefully, the exorbitance of the Times, and am compelled, from mere necessity & self preservation, to obtain prices, in some degree proportionate. I wish I was able to give to the Army the necessaries they want, but that unhappily, is not the Case with me. I am informed that Our Executive gave 120/ per Livre at the foot of an Invoice from France; If so I am certain my stockings woud amount to more than 50 dollars a pair, as they woud Cost upwards of 3 Livres; and as the lowest price at Philadelphia for such is 50 dollars, I think my self well warranted, from those & the Circumstances of every thing round me to expect the same rates the Continental Cloathiers are giving, However to avoid unnecessary trouble to Their Honours I am willing to meet them half way; They offer 35 dollars; I think the Corr^t Prices lately for such have been, & are at least, 50, the medium is 42½ & under our Present Circumstances, there can be no doubt of the propriety of His Excellency & Their Honours allowing me that price which I have reasons to believe is Comparatively low.

Sir Your Excellency will receive herewith enclosed two acts of Congress of the 11th instant and one other Act of this day; by which you will be inform'd that Congress have determin'd to call upon the several States to furnish their Quotas of such supplies as may from time to time be wanted for carrying on the war taking due care to suit the conveniencies of the several States and the articles by them respectively furnished shall be credited towards their quotas of the monies they are called upon to raise for the United States at equal prices for articles of the same kind & quality and for others in due

proportion, and the accounts finally adjusted so as to do equity to all the States. Red Book No. 8

By the separate act of the 11th inst. you will observe the Quantity at present requested from the State of Maryland is five thousand barrels of flour & five thousand barrels of indian corn, in addition to the fifteen thousand barrels of flour heretofore required It is the desire of Congress that each State should use all possible economy & dispatch in procuring the Articles requested of them.

So soon as Congress are inform'd that the several States can & will furnish the provisions necessary for the Army the many persons heretofore employed in the purchasing Commissaries department for that purpose may be dismiss'd

From the latest accounts I have recd from Cape Francais, (which I believe is the best market for flour in the West Indies) flour sold there at four half Jos ꝑ barrell. The barrells for that market are generaly calculated for one hundred & three quarters each. What the price is at Martinicos I cant exactly say but suppose it may be nearly the same as at the Capes, or perhaps something under Flour at St Eustatia is much lower, our vessells at that place purchase that article to carry to the cape which afford a good profit. Insurance from hence to the West Indies at 33⅓ to 40 ꝑ Cent according to the force & sailing of the vessell insured. The last vessell done at this office was at 62½. From sixty to Sixty five. I believe any good vessell may be done to at & from. The Philadelphia provisions I am informed have been generally higher since the commencement of the present war, than at this place

The freights I have paid for accot of his most christian Majesty, have been from forty to fifty Livres ꝑ ble to the W. Indies. What proportion of the Cargo might be taken in Lieu thereof I cant say but I presume freight will rise as every thing else does. The expence of fiting out, victualing & maning vessells, are at this time beyond conception. I have a small Brig now in port, which I have offerd to Mr Holker, and expect his answer by next post. Should he not take her and you want such a one immediately you may have her on such terms as can be afforded. I also dayly expect a Boat from Cape Francois which carries 60 hhds or about 400 bles Should she arrive safe. I will take a freight for her if the terms offerd are adequate to the Risque

Red Book No. 22 & expence. The common freight from the W. Indies is 20 to 25 p Cent on Wet goods And Ten to 12½ on dry goods

It will always give me pleasure to render you every assistance & information in my power.

P. S. As I dont know to whom to apply you'll oblige me by directing an acco^{t} of Shot del^{d} Capt. Harrison for the Defence, to be sent me by the first opp^{y}

Since writing the above I have seen a Capt. Taylor from the Cape which left the latter end of October & says flour at times was down two & a half Jo^{s} owing to several Ships having arrived from old france

December 16 Brown Book I No. 25 See Liber C C No. 22 p. 48 [George Washington Headquarters, Morristown, to Gov. Lee]

Sir The situation of the army with respect to supplies is beyond description alarming. It has been five or six weeks past on half

allowance, and we have not more than three days bread at a third allowance on hand, nor any where within reach. When this is exhausted we must depend on the precarious gleanings of the neighbouring country. Our magazines are absolutely empty every where, and our commissaries entirely destitute of money or credit to replenish them. We have never experienced a like extremity at any period of the war. We have often felt temporary want from accidental delays in forwarding supplies, but we always had something in our magazines and the means of procuring more. Neither one nor the other is at present the case. This representation is the result of a minute examination of our resources. Unless some extraordinary and immediate exertions are made by the States, from which we draw our supplies, there is every appearance that the army will infallibly disband in a fortnight. I think it my duty to lay this candid view of our situation before your Excellency, and to intreat the vigorous interposition of the state to rescue us from the danger of an event which if it did not prove the total ruin of our affairs, would a least give them a shock from which they would not easily recover, and plunge us into a train of new and still more perplexing embarrassments than any we have hitherto felt.

[H. Hollingsworth Head of Elk to the Honble Governor & Council]

December 21 See Liber C C No. 22 p. 48

And please your Excellency & Honors, Yesterday I rece^{d} a letter from the Board of War and another this day relative to the providing transports for the Troops bound to the southward, inclosed are Copys of their letters to which I refer to your Honour as the frost has put it out of my Power to comply with their request, as all the Vessels I have collected, and all that I could collect are now froze up in the head of the Bay, fifteen of which I had embark'd Genl Hogans Brigade & Baggage on board of, and now landing them again on the ice a little above Turkey Point, in order for their going by land, have Provided Wagons &^{ca} (at the Generals request who is indefatiagable to get forward).

You will observe by the contents of those letters that it is the opinion of the Honorable Board that the Virginia Troops shall go by water, and that Vessels be provided for that purpose that a post be provided that will not freese I sincerely wish I could comply with their request (but tis dificult) I would therefore advise that the Vessels be prepared at Annapolis no Port to the North of that will do, and those of the Eastern shore in particular are improper as the

Red Book No. 22 Troops & Baggage when embarked must be expected to sail with Western Wind which will detain them in any of the Eastern Shore Creeks, inlets, or Ports untill another Frost may happen, when from the City of Annapolis they may go off with a fair wind (the first of a N. Wester) and be out of danger before a frost can Check them, as you will observe by the inclos'd letters that the Board expects my answer, acquainting them of the probability of success and my opinion of the Possibility of getting Craft. Ile thank you to wright me on the Subject, and also to give your opinion of what place the Troops had best imbark at and when, and what Vessels can be had to carry them

December 17 [Richard Peters, By order, War office to Col Hollingsworth]

Sir On conversing with General Woodford we find that the Virginia Troops must inevitably go down the Bay by Water no Waggons being within our power to convey their Baggage. It seems most probable that the passage immediately by water from Elk will be Obstructed by the Ice, Therefore the Vessells must be collected at some place the least likely to be frozen up & on the Eastern side of Susquehanna Kent Island or Charles Town, to us have been mentioned but you will judge for Yourself being most intimately acquainted with Circumstances, Waggons must be in readiness to convey the Baggage to the place of Embarkation from Elk or indeed from Xteen for if the water Passage be practicable the Troops will take advantage of it, if not the Waggons conveying their Baggage by Land from hence can carry it to the Vessells. We wait with Impatience to hear what your success has been in Collecting Vessells.

December 18 [Tim. Pickering War Office to Colo Hollingsworth]

Sir We have rec^{d} your letter of the 16th Ins^{t} by Jiles. For answer relative to Craft to be provided for transporting the Virginia troops we refer you to our letter of yesterday sent off this day by Express, copy of which is inclosed, notwithstanding the difficulties attending their passage by water, we are convinced a land march would be still more embarrassing, and therefore urgenty repeat our request that you would spare no pains to procure the necessary number of transports, and collect them at some rendevous on the eastern shore (the most convenient you can find) that will assuredly remain open notwithstanding the Frosts

Gentlemen. I beg leave to refer to you the enclosed paragraph of a let. from Gen. Smallwood in answer to my application in behalf of the Maryland Officers in my corps.

I cannot but consider the restriction as very injurious, especially when a late resolution of Congress declares the additional battalions to be on the same footing as the troops from the State or States, to which they may respectively belong. Red Book No. 5

Sir Having seen an Advertisement by his Ex^cy^ the gov^r^ & Council respecting vessells wanted, on freight, I take the liberty of informing you, that I have now in port two good Vessells, one a Brig^a^ mounts Ten guns Six & four pounders, will carry about 80 hh^ds^ or 500 b^bles^ the other a remarkable fine schooner boat one of the best sailers in this Bay, she carries 2 guns Swivels &c^a^ I will take a freight for either or both those vessells to Hispaniola (which I presume is the best market in the W Indies for provisions) at the rate of 50 Livres ꝑ bbl for flour, clear of all dutys & port charges. I informed you in my last, that I had offerd those Vessells to Mr Holker, I have not yet rec^d^ his answer, but expect to hear from him by return of the post on friday. I have however some reason to expect Mr Holker does not want to freight any vessells immediately. Any return freights the State may want shall be brought on the Customary Terms I presume you will have found some general plan or find on terms to propose. I will therefore thank you for a line by way of information, should the state prefer giving a share of the Cargo in Lieu of freight it will be equally agreeable to me & I dont doubt generally so. Sir The Schooner Union, Our Property, will carry about four hundred and fifty Barrels fflour She is now ready to take in her Load, and will Sail with the first Vessells that goes from Baltimore is a new Vessel & Promises to be a Prime Sailer We expect half the Proceeds in the West indies and will take in, freight free your Goods, Provided they are not of so Bulky a kind, as to more than half fill the schooner, & thereby Prevent our Importing an equal quantity. If your Excellency shou'd Accept this offer Please signify it as soon as Convenient, as the Tobacco with which we mean to Load in case you should not take her is an expence to us until on Board

[John Randall Camp Near Morris Town to His Excellency Thomas Sim Lee] December 26

Sir I wrote you a letter the third Ins^t^ which I hope you receiv'd. I've issued all the Cloathing I brought up. am getting Overalls made

December 26 of the Cloth, but we are much retarded and find the work more tedious than expected for want of proper Implements which I've sent for to Philadelphia, when they arrive and the disagreable work of Cutting over expect to go on much faster. I find our calculations at Annapolis erronious Instead of two yards of ¾ Cloth I find it takes two and a half for a Middle Siz'd pair of Overalls, and more for large, those made at Annapolis were too short in general. I hope we shall profit by experience for the future and have our winter Cloathing provided in Summer.

The sufferings of our Troops, for many species of Cloathing is very distressing, especially Blankets Shoes Stockings or Socks, to wear with Overalls. Our dependence on the Continent is very uncertain even for coats and waistcoats. I've not yet been able to get proper returns of the deficiency as soon as I can I will transmit them and every other matter. I may think worthy your Excellency's attention.

December 27 Red Book No. 24 Letter No. 5 [Tim Pickering War Office to His Excellency, Thomas Sim Lee]

Sir Lt Colo Adams has shewn us a letter from General Smallwood inclosing the certificate of promotions herewith transmitted. A letter from Genl Washington of the 6th inst. agrees with that certificate as to the dates of Colo Stone's and Colo Richardson's resignations. Your ratification of the promotions of Colo Adams & Lt Colo Woolford will enable us to issue their commissions. The other promotions certified by Genl Smallwood are in suspense; and perhaps from the expected exchange of regiments it may be best to postpone the issuing Lt. Colo Woolford's commission

Brown Book No. 1 Letter No. 26 December 27 Copy. Extract [Henry Knox Morristown to George Washington]

I have the honor to return the letter from Governor Johnson of the State of Maryland to your Excellency of the 27th October last.

The proposal of making the companies of Artillery from that State one Corps would be complied with, totally derange the system of promotion in the line of Artillery, and introduce every bad consequence that can follow the superseding a great number of the Captains of Artillery who are senior to Capt. Brown, the oldest Capt. from the State of Maryland. And were the precedent fixed in this instance, each state who have two or three companies of Artillery, would for the gratification of its officers, use its influence to have separate Corps under the command of the senior officer of the State, at the expence of the destruction of the system of the Continental Artillery. Captains Brown's and Dorsey's companies from Maryland,

which joined the Army at Valley Forge, have been attached & annexed to Col° Harrison's Battalion of ten companies from the State of Virginia which completes that battalion according to the establishment of twelve companies. The principle of promotion in the Artillery is to rise to Captains regimentally, and to Field Officers in the line of the Corps. No promotion has yet taken place so as to intermix the Officers of the above two companies from Maryland with those from Virginia. The companies from Virginia will soon be so weak as not to have more than sixty or seventy inlisted for the war in the ten companies, whereas those three companies from Maryland, viz. Brown's Dorsey's and late Gales (a company which joined about three months ago, and whose Captain has died since that period) amount to about two hundred non-commissioned officers & Privates, most of whom are for the war.

Brown Book No. 1

From this State of facts perhaps it may appear, that as the ten Virginia Companies are so weak it will be necessary to reduce them to eight and to make four companies of the three from Maryland to compose Col° Harrison's Battalion, which will make a promotion to Captaincies of Capt, Lieut^s Smith and Finley, the officers mentioned in the Governor's letter; and will be complying with his request and wish, so far as to provide for those two officers, and the making four companies from the State of Maryland; and will entirely prevent the confusion which would attend making a young Captain a Major.

The inconvenience that would result from this arrangement would be, that some of the Captain Lieut^s of the Virginia companies, who are senior to Capt. Lieut. Smith & Finley, would probably think themselves injured by the promotion of those Gentlemen to companies. Perhaps this is an evil which cannot be avoided, considering the political reasons which urge the measure.

If your Excellency should approve of this arrangement, which is agreeable to Genl Smallwoods sentiments, it would perhaps be necessary for a Resolve of Congress to incorporate the companies of the State of Maryland into Col Harrison's Battalion.

[Jas Calhoun, Baltimore, to His Excellency Gov Lee]

Sir I yesterday received Your Excellencies Letter of the 23^d Ins^t respecting the forwarding Cloathing to the Army. Capt Keeport informs me there will be about six Waggon Load and that there is no Troops here of the Maryland Line to Escort them except Serg^t Neary—the Captn intends waiting on you at Annapolis in a day or two & believe might be persuaded to take charge of the Cloathing to Camp if he can be spared from here.

The Purchasing Commissary has this day apply'd to me for Waggons to Transport 370 Barrels of Flour from this place and the Flour of 10500 Bushels of Wheat from Harford County to Camp.

December 28 this requisition it will be utterly imposible for me to comply with unless Teams impressed for the purpose as they are not to be had on hire in my District at any rate, and I have but three Public Teams here which is barely sufficient to Haul Hay and Firewood to this Post.

I must therefore be under the necessity of applying to Your Excellency and the Council to give such orders for the Impressing of Teams (as well for the Purpose of transporting Flour to the Army as the Cloathing above mentioned) as to Your Honble Board may seem meet

December 28 [Moses Rawlings, Fort Frederick, to Gov. Lee]

Sir I have the honour to acquaint your Excellency that Mr Reed has just return'd from Phila. by whom the Board of war informs me that the prisoners will be up in a few days, and as I have heard Nothing from your Excel^y respecting the Guard, I begin to grow very uneasy for fear they should arrive before I am Provided with a guard to receive them

I have sent Mr Jacobs To the Treasury of our State for seventy five thousand dollars By a request of Coll^o Blaine, Commissary General, who informs me he has a Draft on the Treasury for that sum. If the whole money Cannot be had at Annapolis I hope your Excellency will be pleased to Give me an order on the high Sheriff of Washington County for what Public money he Can Spare, for I am in great Distress for Cash in order to make good some Contracts

Your Excellency will please To inform me Respecting the Guard.

Sir We received the inclosed from Major Lee the other Day. I beg Leave to forward it for the Consideration of your Excellency & the Council, being well assured that you will do all in your Power to relieve the Necessities of those valuable Men who are in Maj. On the 23d inst. an Embarkation took Place at New York, & from the Number of Vessels one hundred sixty three, we apprehend it to be very considerable. their Destination not certainly known, but from Circumstances we fear they are intended, in Part or the whole, to reinforce their Troops in the Southern Quarter. Gl Baltimore, the other Two hundred and fifty thousand to my use at this post, where I am in the greatest want of it, my reasons for trouble your Excellency and Honnours on this Occasion is that this day I saw Mr John Strawbridge late Sheriff & Collector for this Coty who Informed me that he had about one hundred thousand Pounds Collected which he should be glad to pay to me providing I had an Order on him. I submit it whether an order to me, on Mr Strawbridge from your Treasury for my part of the order and my Rect would not answer every end as fully as if Mr Strawbridge should go down with the money, and save much time and some Expence, Thos Jiles my Express waits on Mr Harwood with the order who is a safe hand for either the money or Order, and waits your direction on the matter

December 30 the Southward and makeing Preperation for the Virginia Division, not doubting but the same cause which actuated my Enemy's to this act in Philadelphia though disapointed may have induced their Attact elsewhere, therefore least that should be the case I have taken the Liberty to Inclose three Letters which passed between Major General Green and myself on a Similar Occasion, I say Similar because it was by the same persons and actuated by the same cause (Disapointment) in which Letters your Honours will Observe after the Strictest Scrutiny the General rather thanks and applauds my Conduct than Censures it, since which I have had the Honour to pass my Accounts with Col° Charles Pettit A. Q. M. G. to the first of August, without the least Objection, as will appear by the Inclosed Certificate, and am now makeing them out to this date, not doubting in the least of giveing the same Satisfaction, as I am Premiture in this defence, not knowing (for certain) that there has been any Charge laid with you, only judging from what has been done in other places, I take the Liberty of this Oppertunity to Solicit that should any such Accusations have been laid (or may hereafter) that I may have an open and Candid Hearing before any Judgment is given, or measures taken to my Prejudice this common Justice Imboldens me to Solicit and Expect from your Excellency and Honours

[John McClellan, Richd Lemmon and I. Griest, Baltimore to Gov. Lee]

Sir We are sorry to be under the necessity of giving your Excell^y and their Hon^rs such repeated trouble, but as we wish to conduct ourselves in the most unexceptionable manner, especially as we have many Enemies, we hope you will excuse us. We have seized a quantity of Indian Corn in the hands of Mr Willm Spear, perhaps

three or four hund^{d} Bushels, Mr Spear alledges he purchased it for Mr Weston and would have us to consider it as Mr Weston's, tho it has not been delivered, but intended to be delivered in consideration of a former contract between them, as it is alledged by Mr Spear that it was imported from Virginia, we are somewhat doubtful in what manner to proceed, especially as the Laws of the last Session of Assembly have not yet come up. Red Book No. 23

We would further beg your patience in informing us [whether] all wheat and other grain which we have found, or may find in warehouses is subject to seizure, or whether it is to be taken in the proportions mentioned in the Law for supplying the Army. We are at a loss to Judge whether grain found as above will fall under the Ingrossing Law, and consequently subject the whole to seizure or not. We hope in a few days to furnish y^{r} Excel^{y} and their Hon^{rs} with a particular Account of seisures and disbursements by us. In the mean time must request your order for £3000 more in order to enable us to proceed effectually the contents of your first order being nearly expended.

Sir I have the honour to transmit to your Excellency an Acc^{t} herein inclosed of 5233$^{\#}$ of beef purchased for this State and sent to Annapolis ꝑ the State boat Plater, James Stewart master the 16th Ult^{o} The hard weather Setting prevented any more to be done that way, particularly as I could not procure John Beale Bordley Esq$^{r's}$ Cattle, which I am rightly informed he has sold nearly for as much more money as I was limited p^{r} your order.

My general purchases have been much hurt for the want of cash, having been penyless this month pass; The Express I expected from Philadelphia with a Supply not coming, I sent there Mr Robert Walters but he returned without any Col. Blaine being at head Quarters; He brought me an Account that a warrant was granted by Congress on Thom^{s} Harwood Esqr Treasurer, who has order to pay me Three hundred & fifty thousand dollars: but that sum is insufficient to one indebted for the States upwards of £200000,

January 2 before the pork purchase begun; It is true I have but a poor prospect to effectuate it for for the want of cash: yet on public faith I get some at £75..—..— & so being determined not to exceed that price unless I am ordered: tho' private purchasers have given in my neighbourhood £80..—..— & the rise of the market; £85..—..— & £100, Certain, and that I am informed Mr Page in Kent County purchasing for the States under Col Patrick Ewing gives £100..—..— ꝑ hundred weight for it but I can't take on me to follow those Examples who are too ruinous to the public Credit, and I believe all pork might have been purchased at £75..—..— ꝑ hundred weight and the Sellers satisfyed

Should I be able to Cross the baye from Kent Island I shall wait on your Excellency Tuesday next; but should the weather prevent it, I shall be much obliged to you to send me ꝑ the return of the bearer Mr Grason, the Commodore's nephew, an order on the Treasurer of the State on the Eastern shore, by which my present distress may be alleviated, and I may be able to go on with the large purchases expected from me; for without timely assistance I am ruined, The Army must Suffer or the necessaries hereafter procured at a considerable advance.

Your flour was not ready to send ꝑ the Plater since Ten days it is in Store at Emerson's landing on this river and I shall forward it to Annapolis ꝑ first opportunity after the navigation at that place is free from Ice, as the waggoning of it to the mouth of the river would cost upwards of Sixty pounds, about £6..—..— ꝑ bar^l

Sir I am directed by the Agent general for the Marine of France to load flour for the fleet & army of his most Christian Majesty in the West Indies, on Board the Brig. Hawke, commanded by Capt. Taylor.

The Hawke mounts ten carriage guns and will carry about thirty men. I must therefore request your Excellency will send ꝑ the bearer hereof of a permission to take this Cargo on Board.

This State has an acc^t against me for shot furnish'd Capt. Harrison of the Defence. If convenient I wish to have by return of the bearer to enable me to close the Acco^ts of that unfortunate adventure.

P. S. You'll oblige me much by despatching the bearer as soon as may be, as he goes express on this business

January 3 [W. Smith, Baltimore, to Gov. Lee]

Sir Since I closed my letter of this date I have seen an Extract from an Acc^t of Assembly, for supplying the Army with flour &c^a by which Comm^rs are empowered to seize in the hands of all persons

without exception such flour as may be found. And as I have a quantity of wheat & flour purchased for the Marine of France, I would be obligd to your Excell^{y} & the Council for information on this head, as I have understood the commiss^{rs} are of oppinion this flour comes within the Law, and I would Just beg leave to observe that several Vessells are chartered to Carry the provisions in my possession to the fleet. And some transports are dayly lookd for from the West Indies for the same purpose. I have taken the liberty to mention this matter, as I observe the com^{rs} are under the direction of the Govr & Council January 3

Dr Forrest From our present Arrangement of Field Officers I have the Honour to claim you as Lieu^{t} Colonel to the 7th Regiment and shall have you muster'd accordingly, the bearer of this Serjeant Enoch McLane, I beg leave to Recommend as an honest fine Lad, and send him to you for the purpose of a Recruiting Serjeant, to be continued as long as you may think proper, or while recall'd and to receive your orders & directions for the Execution of that business, Capt Beatty is ordered to Frederick Town with a Drum & fife, and Capt Lieu^{t} Beall to George Town, as Recruiting officers; Serjeants David Green Robert Green and Robert Yates, of the seventh Regiment, are Recommended for Commissions in said Regiment; and will Apply to you for your Instructions, and Assistance, in the Recruiting Business, Please have Money drawn for that purpose, & give them your orders, Your Interest I am well convinced will tend much to the Promotion of the Regiment; if Cloathing is to be had in the State, be as Early as you can in drawing for the Recruits, of the Regiment, if Captain Beatty & Beall could have Clothing drawn for them, and in readiness, that as soon as a man Enlists, Scour him up, shave his face, put a new Suit of Cloaths on him, powder his head, and make a Gentleman of them, as soon as they become Soldiers, it would be a great Inducement for their Inlisting & I am Confident there would not be half so many Desertions, with Recruits in the State, that heretofore have been, I have the Pleasure to Inform you that Excepting the 3^{d} the 7th is the Strongest Regiment in the Maryland Line & flatter myself that with your Assistance it will soon be the Strongest & best in the Line, as we have few good Serjeants now left in the Regiment, would be glad of your endeavours to have some Enlisted, which are qualified to fill the places of those who are promoted; the news of Camp Refer you to Genl Smallwood, & Capt. January 3 [Sam Smith Balt to His Excellency Thomas Sim Lee Esqr]

Sir I Had the Honor to receive your Excell^{ys} favor of the 24th Ult. & Note its Contents. The Terms I propos'd were first one Half for carrying the other. this I will give myself in Tobacco, the other are the same as given by the French & few Vessells have heretofore offer'd even at that, The low price of Tobacco in the West Indies at this Time is the Reason why Vessells are now to be had with less difficulty. I do not understand how, I, who am only the Carryer can be at Liberty when Connected with the Public to ship flour. (the article, I presume, which Bears the Best Price), if you permit me to be a Shipper it would make a difference in my Demands altho that article has certainly fallen very much on all the Islands. In St Eustatius it sold by last acco^{t} for 8 Doll^{s} ꝑ B^{ble} in Cape Francois (the very Best Markett) at 9d @ 120 Livres ꝑ B^{l} equal to £4..10..5 this Curr^{y} The Severe weather has prevented us from loading, if your Excell^{y} will inform me your Terms you propose to allow I will be glad to accept them, if not at too great Disadvantage, I shall be glad you would inform me as soon as possible I also expect a very fine Schooner from Virg^{a} every Day, which if the Terms fails I would put into the Public service

I am inform'd that a Law has pass'd the House to seize on all flour without making any provision for public purchases, your Excell^{y} recollects that I had permission to purchase for the State of Virg^{a} a part of which I Have in warehouse some in the Mills & some in the farmers Hands, I should be glad to know whether the Law can mean that this flour is to be seiz'd & the State of Virg^{a} to take Certificates, for Payment, is not the faith of the State pledg'd for the Export, I shall be glad to be inform'd by your Excell^{y} (from whom my Permit is how to act, it will be an easy Mode for the Commissioners to provide for the Army by seizing Mr W. Smith & my purchases, if necessary I would preferr Sending, indeed on being properly secur'd I would have no Objection to Send.

[Geo Plater & James Forbes Philadelphia to His Excellency Thomas Sim Lee Esqr]

Sir Since our last addressed to your Excellency we are favor'd with the inclosed from Maj. Lee which we take the liberty to forward by General Smallwood, who will give every Information relative to the Subject.

P. S. The Troops sailed from N. York by the last Intelligence are six british Regiments, the Grenadiers & light Infantry of the Army, Rawdon's Corps, the Legion, the Queen Rangers, & Hessian Grenadiers making about five thousand effectives.

[Henry Lee Junr Ma. Com. Md. to the Delegates from the State of Maryland in Congress, Philadelphia] Brown Book No. 8 Letter No. 19

Gentlemen I have the honor of your let. of the 24th I am sorry that any previous Steps are necessary for the completion of my request. The season of the year is rigerous, the gentlemen destitute of cloathing & their brother officers from Virginia comfortably supplied.

This latter circumstance must wound the feelings of men of equal merit & whose claim of attention from their country has the same foundation.

A general return of my corps agreeable to a late resolution of Congress has been for some time past lodged with the board of war.

Captain McLane has directed me to make an extract of the Maryland officers & soldiers & to present it

[Uriah Forrest, Baltimore Town to Mr. Carroll] January 8

Dear Sir inclosed is a sample of the Cloth you requested. I've examined the Stores here relative to Cloths Linens &ca & find that Dorsey, Hammond & Steward, have an Assortment in which there is a Sufficient quantity of Blue Broad Cloth to Coate the whole of the Officers, there is several Pieces of coarse Blue and White that wou'd answer well for the Soldiery, about one half is of other Colours & they will not sell any part without the whole, I have no doubt but it wou'd satisfy the Officers to take the Cold for Waiscoats & Breeches, to these Cloths is tacked a parcell of Shalloons but as the quantity will be more than necessary in making up the Cloaths, the Owners will agree to keep one half wch will not leave for sale more than suffi as they are all white & blue, the Colours that will be wanting. they have also four very large Bolts of Baze which I apprehend woud answer for Blanketts, by having it doubled, it is 8/4 wide & would only come to 60 £ a blankett at 100 s. upon the Livre the price they ask for the Goods, I am induced to take the liberty of suggesting this mode of procuring Blanketts, from the distressed Situation the Troops are represented to be in, not more than one blanket to four Men; the fine Cloth will be about 75 £ a yard. Col. Dorsey talks of going to Annas in which case he will offer the Council these Goods, I do not think it is probable that such a parcell of Blue will readily be met with again on so good terms. Mr Hudson who has the management of this Spanish Cargoe has a few ps of coarse blue Cloth. He has also a parcel of ready made Shirts of pretty good quality at £30, he has every kind of Linen, for which he asks £6 for the Livre, but I believe wou'd take something lower for the fine, he has likewise low Priced Cambricks, stockings and a fine Parcel of Hatts that wou'd come much lower for

January 8 your Officers than they can be otherways procured. It was at his request that I look'd into these Goods he having understood that your Council wou'd want, etc If this should be the case I shall readily do any thing that you may require here as the weather is such that I cannot be able to get from hence before Wednesday Morning, if so soon, I am uneasy for fear I may be wanted at Ann^{s} Capt. Marbury by whom this goes can inform you the situation of our Troops, near 70 men has been discharged from my Reg^{t} thro the course of last week & from the Present distresses of the Army I am fearfull few of them will reinlist & such as does will enter the Pennsylvania Line, as their soldiers who lays at one end of Ours has been sometime Passed regularly furnished with rum & other Necessaries. The officers who have come down informs me that the Line expected Stores there to be Issued on the 1st day of Jan^{ry} & that the Cont^{l} Commissaries have no Spirit at all. Capt Keeport will meet with difficulty in getting waggons he writes his Excellency by this opportunity I am with great respect Sir Your Obed^{t} Servt

Sir I did myself the Honor of writing your Excell^{y} by Mr Knox, since which Mr W. Smith the French Agent has shew'd me a Letter from your Excell^{y} from which I conclude the flour Bo^{t} by me for the State of Virg^{a} will also be seiz'd. Mr Buchanan forwards a Letter from the Commissary General by which it appears that the immediate wants of the Camp are supplied & that the flour will most be wanted here; If your Excell^{y} should draw the same Inference I flatter myself you will favor me with a general order to prevent the seizure of the flour Bo^{t} by me for Virginia, now in the diff^{t} parts of the State or at least for what I may have in this County. [J. Hammond, Acton Hall, to Gov. Lee]

Sir It is with Reluctance, I presume, to trouble your Excellency with a Matter, in one Point of View, of a private Nature, that in another, of very Publick Concern: Some Soldiers of a recruiting Party, (under Captains Bell & Beatys, as they inform me) have been detected by my People, in plundering me of, and carrying away my Fencing from my House, near Town; and being caught in the Fact, about Day-Break this morning, and brought before me; one of them for his Impudence (more than the Value of the Spoil,) in threatning that he wou'd pull down, and destroy what he pleased, as well as my House, if he was mislisted for his Conduct, received a moderate Chastisement at my Hands; whilst the other, who stated the Distresses of their Party, thro' want of Firewood and alledged that in Excuse of his Behaviour; was instantly released, and suffered quietly to depart, with the bare Caution of not offending in like manner again, and with an Assurance that upon an honest Application for Firewood, I wou'd endeavour in some measure, to

relieve their wants:—Since which, I have been visited by five or six of them; Some of them questioning by what Authority I chastised the Man; and. on being answered for clandestinely despoiling me of my Property; one of them, in particular told me, that it had not been uncommon with them to take Fencing for Firewood, wherever they cou'd find it and in what Quantities they pleased; That they had practised it before in other States, and shou'd not scruple to do it in this State, (where they were worse provided, than in any they had been) and were left by their Superiors, to shift for themselves (or words to such Effect) January 12

Your Excellency, on a little Consideration, will I flatter myself, be induced to grant me, your favourable Excuse (which I entreat) for the seeming Unimportance of these hasty Lines addressed to you. They are, communicated Sir, for the sake of these Sufferers—if their Complaints be true, as they aver them to be. That a proper Channel for Enquiry into them, be opened; and their Distresses relieved, if real; (and unto which I am ready to contribute my Mite, if required) That the Inhabitants of this Community over which Sir, you have the Honour to preside and who are paying very heavy Taxes, and are likely to pay more, for the due Support of the Army, & of Civil Government, may in Consideration of these Payments enjoy the Remainder of their Property, continually decreasing by encreasing Burthens in Peace and Safety, and under the Sanction of the Laws of this State, which I trust it is no less, your Excellency's Department, than it is your Inclination, to preserve, and maintain inviolate among us.

(Circular) Sir Your Excellency will receive herewith enclos'd two Acts of Congress of the 13th & 14th Instant

The former containing the regulations relating to prisoners of War whether taken by the Continental Troops or captured by the Arms of any particular State either by sea or Land.

Many difficulties have frequently occurred for want of such a general regulation too numerous to be recited. It is that the first paragraph of the Act recommending to the Executive of the several States to transmit to Genl Washington with all possible Expedition the names & rank of all Officers & the number of privates belonging to the Enemy held as prisoners of war in each State and the places they are at &c should be complied with as soon as possible by those States that have any number of prisoners.

The other Act of the 14th Instant recommending to the Legislature of the several United States to make provision when not already made for conferring like priviledges & Imunities on the Subjects of his most Christian Majesty as are granted to the Subjects & Inhabitants of these United States by the recited Articles in the Treaty & Commerce will no doubt be chearfully complied with by each of the States

His most Christian Majesty as soon as the Treaty became known published an Edict conformable to that article exempting the Subjects & Inhabitants of these

Sir From your Excellency's well known character, I esteem it quite unnecessary to spend time, and take up your attention with apologies for the liberty I take of presenting to you the within Letter. As the pleasure of doing good has always been grateful to your feelings in private life, those feelings must, and will I am sure, be more indulged in your Public character, it may increase the opportunities.

I would Just remark to your Excellency that I have had an intimate acquaintance with Mr Voorhees for twenty years past. he has done business as a Merchant in this County for near fifteen years with intire reputation, and had acquired a very pretty fortune, which lay out in Bonds and Book Debts. At the commencement of the Present War this Gentleman declined business, he could not reconcile the manner of doing it, with his Whig Principals, however,

Red Book No. 20 in the course of a short time he found himself in possession of the *nominal* sum of his whole Fortune, paid in to him contrary to his wishes. In that situation he had nothing left but to employ his money in Trade, or be utterly ruined. A few Days before this violent Frost sat in, he went to Baltimore, laid out a large sum of Money for articles of Trade, to employ him thro' the Winter. The Vessel bearing his purchases from Baltimore was caught in the Ice, & was lost with her whole Cargoe—Such is the fate of this Worthy man.

Should your Excellency with your Council, have any appointments to make on this Shore, that would be advantageous, I can pledge myself you will not be deceived by applying to Mr Voorhees, who I think has a competent knowledge of business for the transacting any matters he may be entrusted with, with that kind of integrity which is not common enough amongst Man Kind

January 27 [W. Smith, Baltimore, to Gov. Lee "In Council"]

Sir I am directed to repeat my application, to your Excellency, for permission to load with flour &ca the Brigantine Hawke, Captain Taylor, for the use of the fleet & army of his most christian majesty, in the West Indies. Should this requisition be granted your favouring me with a permit by return of the Saturdays post, another good opportunity, will save the expence of an express to Annapolis, for that purpose as I am directed to load this Brig to be ready to proceed to sea at the breaking up of the frost. I would Just leave to observe that I have some reason to believe, that my conduct respecting the French flour in my possession has been greatly misrepresented at your Board, by the Commrs for seizing flour &ca in this town. I am told they have said, I spoke in very disrespectful terms, of your Excelly & the Council and I would wish to have it in my power to remove any impressions to my prejudice from your Honble board, for whose character I have the greatest respect, therefore if not improper, I would be much obliged by a coppy of their letter so far as my character is concerned

[Holker Philadelphia to Gov. Lee]

January 28 Brown Book No. 8 Letter No. 37 (See also letter No. 31 which is endorsed Received the 9th Febry.)

Sir I have been regularly informed by Mr Wm Smith of Baltimore of the proceedings of the legislature of your State relative to the Seizure of the provisions purchased by him, in consequence of my directions for the Supplies of his Majesty's fleets in the West Indies, I should be sorry that his representations to the commissioners of the State or his refusal of delivering the flour in his possession without my orders should have given any uneasiness: he could have no other intention than to prevent the seizure by mistake of provisions acquired at an amazing expense, for purposes avowed by congress, with the Knowledge & consent of his Excellency the late Governor and Council of Maryland who had fully approved of the choice made of him as agent for the purchases, which will appear by Governor Johnston's Letters to his Excellency Mr Gerard and myself of the 3d September, of which last I have the honour of inclosing a Coppy.

I was not a little Surprised on reading the two late acts of your legislature with respect to this business: by the first it seems the honourable the Assembly deemed that the Whole of the Wheat and flour purchased by my Agents over & above The Equivalent of twelve thousand barrels of flour, Should be seized & delivered up to the continental commissaries.

I should have thought this law useless, for the two following reasons: the First, because the late Governor & council were fully apprised by his Excellency Mr Gerard & myself that Mr Smith was positively directed by me, to conform minutely to all the instructions or Directions that might be transmitted him by them respecting His purchases so as to give general Satisfaction any application from the council to me or to Mr Smith, either for the returns of purchases made or delivery of the Same, wou'd therefore have been as effectual as any law, the second because it does not appear even at present, that Mr Smtih has been able to secure the above mentioned quantity of 12000 Barrels of flour of the last harvest.

The second act of the legislature seemed to me still more extraordinary; if by that act it was thought necessary to extend the seizure to be made by the commissioners to the aforesaid 12000 Barrels. it is not easy to imagine why this flour purchased by the authority & with the Sanction of congress & of the Government of Maryland should be seized for the purpose of delivering the same to the continental commissaries, who would themselves have received orders to deliver that very flour to Mr Wm Smith for the use of the royal

Brown Book No. 8

navy, had they possessed the same in their Stores, but if it was intended in order to supply the immediate wants of the army, then I should beg leave to represent to your Excellency that it was not necessary to extend it so far, since the continental commissaries has Sufficient quantitys of flour on hand to answer the present emergence if they could have procured Wagons and teams to transport the same to head quarters. how much more extraordinary will not this second act appear when I can inform you that in the Run of last summer, it was proposed by Monsieur Gerard and myself, to redeliver to the continental commissaries 7000 Barrels of flour of the Harvest of 1778 purchased by them in the use of the Royal Marine, which was effected in order to multiply the resources of the Army & to second a plan of the commercial committee of Congress, that I have been since authorised to procure 24600 Barrels of flour of the last harvest in Pensilvania & Maryland, that I have actualy delivered up all the flour I could command in Pensilvania, in order to supply the army & on the first requisition, that 800 barrels of flour & as much Biscuit are now on board Ships bound in this river by the Ice & could have been employed for the use of the army if it had been necessary or if Congress had thought proper to have indemnified the owners of the Vessels chartered in order to export them, for the above reasons & taking into consideration that all the dependance of his Majestys navy for supplies from America lay totaly with Mr Smith will it not surprise every one, that it should have been thought necessary in order to supply the immediate wants of the Army, to decree the Seizure even of the Wheat purchased by my agents on the Eastern Shore of the Chesapeak bay where all mills have been long at rest by the late droughts & the present frost & where the same will not probably be ground up before the months of March & April next.

it is on account of these various considerations that it is incumbent on me, to request that your Excellency will condescend to inform me if Mr Wm Smith has realy exceeded the quantity he was authorised to purchase, & whether it was possible for him, not to give extensive orders so as to Secure the quantity of 12000 Barrels of flour

Your Excellency would also confer on me a particular obligation if you would please to inform me of the motives of the late Acts of your legislature & the grounds on which they have been formed so as I may take every Step in my power, in order to prevent a future misunderstanding, should any have been omitted & to establish the transactions entered upon on behalf of the Service of his most Christian Majesty, on a more respectable and Solid footing and to deserve your aprobation & confidence, as likewise of the hon^bl^ Board at which you preside

I shall conclude by observing that should your Excellency & Council think proper to retain the flour seized it will be proper that minute & Speedy returns be transmitted me of the exact quantitys, so as I may obtain from Congress the immediate reimbursement of all advances & expences made thereon, as also of all those Expenses which the Seizure & redelivery of the flour and wheat have occasioned if it should be returned by the State commissioners, to my agents in Maryland. Gentlemen In the Postscript of my last Informed your Excellency and Honours that I was in want of some Certificates for Money Receiv'd sometime since have this day had an Application for more would be glad therefore that few blank Certificates be sent me with those wrote for by Mr Elijah Cole, the bearer the money I have been obliged to lay out for Forage and Waggonage for the supplying the Army, if it must be paid into the Treasury it must be when I am better supply'd with Cash, as at present and for sometime past, have been much Distress'd the pressing demands of the Army, with the great Difficultys of procuring Forage at the same time an Absolute necessity for calling in more Teams, will, I flatter myself, account for the measure, and the early supply sent, attone for it. I have now One Hundred and twenty teams Employd at this post, the usual Number is from Seventy to Eighty your Knowledge of the wants of the Army, will suggest how long it will be necessary to Continue this Extra Expence. I have wrote to some of the Commissioners on the Eastern shore, who have applied to me for Teams to have their flour &c Halled down to Convenient Granaries for navigation, that when the Frost breaks it may be Transported by Water to this place, where I have Public Stores & Granaries Sufficient to hold large Quantities. Measurers measures Baggs &ca and one half the Teams will hall the Flour to Christeen, the Wheat to the Mills, and the Forage to where it is wanted. I am Inform'd that

January 31 by the late act, Each public Officer in the staff is obliged to take Certain Oaths, on or before the first of February, or be liable to a fine. I have this day applied to a Magistrate to see the Oath, who informs me, it is not come into the County, therefore cant be Comply'd with. I am very loth to Violate the law, when I know it, or Run the hazard of Paying Penaltys but at the same time cant think of letting the whole Business Stop, as in that Case the most fatal Consequences would, befal the Army, if any Advantage should be taken of my Acting, untill I have an Opportunity of Complying with the Law, I Flatter myself of your Indulgence.

Sir Colonel Blaine by his letter of the 12th instant informes me Thomas Harwood Esquire has one hundred and fifty thousand Dollars to pay me on account of Public purchases; not knowing when I may have in my power to be in Annapolis and being in great want of money, I must desire your Excellency to send me an order on the Treasurer of the Eastern shore for that sum if practicable to be done, which I suppose may, by inclosing it in a letter forwarded by the post to Wilmington or Philadelphia from whence the Eastern post could bring it down to Queen's Town Inclosed in my letter of the 22^{d} Ult^{o} you have an account of Your Ten barrels of flour amounting to £1212..5..2 now laying in a Store at Emerson's landing on Wye river, which could not be ready to send by the Plater, but has been there since the 20th and the hard weather setting prevented it to be forwarded to Annapolis. The 2^{d} Instant I inclosed in an other letter to your Excellency an account of 5233$^{\#}$ of beef purchased for this State, sent to Annapolis by the Plater amounting to £2123..9..10½ and Informed that no more could be purchased at that rate John Beale Bordley Esquire having disposed of his Cattle. however I suppose you have not received either of those letters as I am informed the boat who was to take them over the bay is fast in the Ice.

February 1 Red Book No. 27 Letter No. 5 [P Adams, Philad, to Gov Lee]

Sir This day the arrangement made Out by the Baron De Kalb, and handed you, for the promotion of Officers in the Maryland Line, was delivered to me by the Board of War

I observe the Baron has comited making out an accurate return of such Officers as were intitled to promotion at that time, you'll find that the first and fifth Regiments were vacant, the first from the 1st Augt and the latter the 23rd Octr Col^{o} Woolford, and myself are to succeed to the com^{d} as being next in succession, should you think

proper to have those vacancies filled by us, you'll please Instruct the Board of War to Issue Commissions Accordingly, if not be pleased to signifie the same by the next post, Col° Pickering informed me he wrote you some time since and inclosed you a short list of Officers who were to succeed to the above vacancies but had not received any answer. Red Book No. 27

The delays that have happened in arranging the officers in our Line has subjected us to many inconveniences we always imagined that the Governor of our State had given general instructions to the Board War to fill all vacancies by Officers already in Commission. and next in succession to the one out of the service. I am persuaded you'll agree that all vacancies ought to be filled as soon as they happen, and that an Officer in the army views the immediate Succession as his Right of inheritance and every hour he is deprived of his rank does him a Manifest Injury, we certainly are intitled to all the honours that derive from the commission, we hold, or have a right to hold, however long we may be deprived, of the Enjoyment of them, that alone is the only compensation we at present are possessed of, and all the object we have in view and the smalest dimunition wounds us in the most tender part. You no doubt will acknowledge that your officers have suffered in their rank before the Settlement of the same last Spring, during two years service they were under the disagreeable necessity of being subjected to the command of Junior Officers in other lines who were fortunate enough to have their rank setled we flatered ourselves that Dificulty would be removed, and still trust that youll do us all the Justice the case requires as I can assure you this and other unavoidable causes render the Service Exceedingly irksome, and has been the cause of many valuable Officers leaving the service, who otherwise woud have been willing to have strugled under the numberless inconveniencies and disadvantages, that the times and their situation consequently involved them in

Your answer by the next post will much oblige Sir Your Mo. Ob. Ser^t

[Peregrine Tilghman, Talbot County to His Excellency Thomas Sim Lee Esqr]

Sir An Oppertunity offering by Coll Lloyd clk I give you the Quantity of Wheat, Flour & Corn which 'tis probable will be furnished from this County in Consequence of the Act passed for the immediate supply of the army. Perhaps 'twill be expected & with Propriety too that a Regular Return before this should have been made, but the extreme severity of the Weather added to many difficulties attending the execution of the Law will in some Measure excuse us. A contract having been made (just before or about the time of the Passage of the Bill) for a considerable Part of the Wheat in this County at £20 ꝑ Bushell, Obliged us to call in Person to fix the Price of Wheat wherever we found Any, every One's expectations being raised at least to that Price. The Purchases by the Public & other buyers haveing been very generally made to give some certain

Price & the use of the Markett left most People enterested in the sale of the Wheat on hand, which laid us under such difficulties that a considerable time elapsed before we could find Persons within the description of the Law to make a Valuation. This at last has been done and the price fixed on here is £20 ꝑ Bushell for Wheat & £ 70 ꝑ C^{t} for Flour. Corn there will be very little and I dont know that as yet any has been Valued, but suppose the Price will fix at £10 ꝑ Bushell. I shall have in the District I have taken about 700 barrells of Flour 6 or 700 Bushell Indian Corn & between 1500 & 2000 Bushell of Wheat, the other Gent^{l} told me a few days ago they expected to get not more than from 4 to 5000 bushell of Wheat between them & little or no corn or Rye. I have appointed next Tuesday to meet the other Com^{rs} and hope then to be able to make a proper return. I wrote the 16th last Month to Col^{l} Francis Wade D. Q. M. at Wilmington informing Him that I then had 200 barrells Flour, requesting that Waggons if to be had might be sent after it, His answer was that they had Flour & Forrage enough in that part of the Country to give full employment to all their Teams & He expected that during the Frost the Magazines would be furnished enough to answer every purpose without extending their Views for supplies thus far. So that the Flour &c in this Place must lay till the Navigation opens. We are directed by the Law to what Landings to send the Supplies, but to whose care we know not, therefore must request Your direction. Red Book No. 32

[Ignat's Taylor to His Excellency Thomas Sim Lee Esqr and the Honble the Council] February 4

Gentlemen As a Commissioner in St. Mary's County under the Act of the General Assembly entituled an Act for the immediate supply of flour and other Provisions for the Army, have taken into my possession eleven barrells of flour and seven hundred and fifteen bushells of Indian Corn, Six hundred bushells of which was engrossed & taken on board a Vessell. If Your Excellency & the Honble the Council think it most advisable that the Vessell be retained until the frost is fully broke to Carry the Provision up the Bay, or that it be Stored, if the latter I conceive it will be most expensive from the inconvenience attending the landing and getting a Store house Proper for the keeping it. Hope to receive your instructions on this business Shortly.

[Sam'l & Robt. Purviance, Baltimore, to His Excellency Thomas Sim Lee Esqr] February 4

Sir The unfortunate detention of The Ship Buckskin & Four other large Vessels in which we are interested, have subjected us to the great Expence of Revictualing them before they can leave Patuxent.

Red Book No. 32 To lessen the great Expence of sending the Provisions the whole way by Waggons, we have determined to send them by Land to Annapolis to be lodged there untill the breaking up of the Ice, which will enable us to forward them from thence by water much earlier than we can expect to do from hence. Apprehending we should run a considerable Risque of having such Provisions seized by the Commissioners appointed by the late Law, We request Your Excellency will be so obliging as to grant us a Permission for sending said Provisions to Annapolis & from thence by Water to Patuxent agreeable to the List hereunto annexed. If there is a necessity for making oath of the uses for which they are intended, we shall do so before a Magistrate or the Naval Officer as you please to direct.

If you can conveniently oblige us with the Quantity of Salt Provisions, Viz. 25 Barrels of Beef & 25 Barrels Pork untill our River is open, that we cou'd send down by Craft, it will save us the heavey Expence of Waggoning to Annapolis, And you may rely on our replacing them as soon as the Navigation will permit, with those of the best Quality, which we have cured for our own Vessels.

[Luther Martin Baltimore Town to His Excellency The Governor] February 5 Red Book No. 29 Letter No. 2

Sir I have before me your Excellencys Letter of the third Instant delivered to me by Mr Enloes, and as I cannot concur altogether in the State already presented, must beg leave to trouble your Excellency with the following Narrative of facts as they appeared from the Evidence at the Trial

A certain Stephen Joyce, with others was in the House of Mr Beachum at Fells point where he behaved, without any provocation, in a very disorderly and abusive manner, particularly towards George Blackstone, until Blackstone irritated by his Abuse and being challenged by him to fight went out of Doors with Joyce for that Purpose, but upon Mr Beachums remonstrating to Blackstone the Impropriety of his exposing himself in that manner Blackstone returned quietly into the house into which Joyce followed him continuing his Abuse until Mr Beachum pushed him out and fastened the Door. Joyce being much under the Influence of Intoxication & Passion conducted himself like a Madman tearing his Hair and beating his fists ag^{t} the walls of the House and the Pales of the Garden and having by so doing Skinned his knuckles, his hands and face were bloody. At this time no Violence had been offered to him or Injury done him, save the putting him out of the house in consequence of his abusive conduct there. In that Situation Joyce ran a small distance to the House where Joel Higginbottom (who had been his fellow-Prentice) lived, and finding him at the Door catched him under the Arm and telling him he had been extremely illused requested him to go with him and instantly hurried him away. They went together to Beachums, and having opened the Door Joyce as before began to abuse Blackstone challenging him to come out & fight him, which Blackstone refused telling him at the same time if he struck him he would apply to the Laws for redress. Joel Higginbottom also stripped and told the Company if there were any there that had anything to say to Joyce he was ready to answer him or to that purpose. And also called upon Blackstone to come out & fight Joyce, telling him he should have faire play. during these Transactions one Samuel Dunn who was with the company in the house, who has the character of having been a very quiet inoffensive young Man, and who appears not to have interfered in any measure in the Quarrel before that time, went out of the House and was standing in the Yard or Garden, I do not recollect which, where were Joyce and Higgenbottom. The Witnesses agree that he ap-

Red Book No. 29 peared to them pretty much intoxicated he walked up to Joel Higgenbottom and spoke to him, but the Witnesses did not hear what he said. One of the witnesses swore Joel Higginbottom pushed him from him and told him to go about his Business, he had nothing to say to him. Another Witness also mentioned that Higginbottom stepped a little back from him. presently after Dunn walked up to Higginbottom Again. And Higginbottom instantly struck him with his fist upon the head by which Blow Dunn fell backward on the ground, and was carried into the House by his friends where he complained of his head and appeared much disordered in his senses. Dun received the blow on the Monday if I recollect right and lanquished till the Sunday following when he died. The Doctor examined the Head at the Inquisition, he found the Scull fractured in the back part of the head which fracture penetrated to the Brain. he trepanned the Skull and found a considerable Quantity of clotted blood between the Bone and the Brains and opening the Membrane enclosing the Brains found a Quantity of Pus . . .

There was no Testimony that Dunn . . . towards the Prisoner with " extended Arms . . . The Prisoner struck the Blow in " defense . . . of himself " I should in that Case instructed the Jury that he was entitled to their Verdict. On the contrary I particularly examined the Witness as to that point. They did not hear the Expressions he uttered to the Prisoner but they declared there was nothing in his Gestures appearance or manner which induced them to believe he had the least Intent to assault or injure the Prisoner And I must here mention a Circumstance which weighed with myself and I believe with the Jury to satisfy us that the Prisoner himself did not consider the blow that he struck to have been justifiable or done in his own defence. For after the fray was over at Home when the Death of Dunn was not apprehended the prisoner was uneasy for what he had done telling Joyce that he had brought him into a scrape, for he had been the means of bringing him there where he had struck Dunn, who he expected would bring an action ag^t^ him to recover Damages, and desired Joyce to go to Dunn and endeavour to make up the matter for him. Joyce promised him he would pay him any Damages or Expence he might be put to, as he had been the occasion of it.

There was not a Circumstance to induce a belief of any ill will subsisting between the Prisoner & deceased, on the contrary they appeared to have but very little if any Acquaintance with each other. The Prisoner appears to have had no Quarrel with any person but on Joyce's account, and Blackstone not Dunn was the Object of his Resentment. As the fracture was in the Back part of head, it reduces it to nearly a certainty that it must have been occasioned by his falling backwards with his head against the frozen Earth or something else which might be placed there and not immediately from the Blow Struck

The Representation as to the Prisoner's general Character and Demeanour I have no reason to doubt The Prisoner shewed no Desire of escaping either immediately after the Injury or after the Death of Dunn but was present at the Inquest. I have now complied with your Excellency's request and have endeavoured to detail . . . and circumstantially as possible . . . Excellency will perceive that in some . . . have been obliged to differ from the State transmitted to your Excellency, but whether the Variance is so great or material as to be sufficient to deprive the Prisoner of that Clemency your Excellency is disposed to shew him I shall submit to your Excellency. The Court will not proceed to inflict any Punishment 'till they know your Excellencys Determination. Red Book No. 29

I have the Honour to be with the greatest personal regard and Esteem Your Excellencys Determination.

Sir The Zele with which the Commissioners executed the trust reposed in them by the late Law has occasioned the Ten barrels of flour I bought of Mr Hemsley for your Excellency, two bar^ls^ for Mr Thomas Johnson Junr four barrels for Mr John Davidson, two Barrels for Mr John Bullen, Two barrels for Philip Key Esqr & Eight barrels for Mr George Mann, in all twenty Eight barrels to be Seized, and I am informed, I am to be called to an Account for a breach of my Commission as assistant Commissary of purchases for so doing; I do not conceive I am guilty of the charge, as I did no other than procure it for the use of Gentlemen's families who I presumed were to have bread as well as their neighbours, that I purchased at no higher rate than Mr Hemsly sold to the late Governor & Council four months ago, and at the price he then asked me for the Public Service which being higher than I was limited to By Col. Blaine I could not give. however now [it] is Seized and 33 & ⅓ ꝑ C^t^ allowed in Certificate above the price that Gentleman would have sold to me at. I received yesterday an order on the Eastern Shore Treasurer for five hundred thousand Dollars with which I'll endeavour to retrive my Character as a Public purchaser, which has suffered much for the want of timely Supplies in Cash, yet will fall short as the Persons I bought of and am indebted to, expect to receive the same prices as allowed by the Commissioners which are now extended to £20 ꝑ bush^l^ for wheat £70..— ꝑ C^t^ for common flour and £12..—..— ꝑ bush^l^ for Indian Corn. Being informed the Legislature had preserved to the People the right of the alternative to sell to Commissaries or have their wheat &^ca^ Seized by Commissioners, I have at-

P. S. I'll endeavour to have the flour herein mentioned released, if I succeed shall send it to Annapolis ꝑ first opportunity

February 7 [J. Bolton, Chestertown to His Excellency Thos Sim Lee]

Sir I wrote you some time ago advising that at the request of Thomas Johnson Esqr our late Governour I had furnish'd the several recruiting Parties & Soldiers on furlow with Rations under great disadvantage to myself, as I had to lay out my own money to purchase the Provisions, & by the time the money has been paid to me the depritiation has sunk the greatest part of the sum advanced; since I wrote you, I have had daily Soldiers calling on me for Provisions, which are (meat especially) scarce to be had. If therefore you choose I should continue to supply them, please desire one of the State Purchasers or the Comissary to supply me with Beef or Pork or both for that purpose for it is now too late to purchase any as for Bread or Flower, I can procure that, provided I can be furnish'd with Cash to purchase it, but I really cannot afford to lay out any longer my owne money as I have hitherto done, to the great determent of my Business as a Retailer, being for a long time kept by that means so bare of Money that I had not wherewith to lay in a Stock of Goods particularly in the year 1777 & beginning of 1778 at which time I was above two thousand pounds in advance to the States & tho I lost considerably by laying out of my money & by the depritiation at that time yet I have lost much more by the depritiation since in proportion to the sum advanced. Hope therefore if you should order me to supply the Recruiting parties as I have hitherto done, you will also order me, what is necessary for that purpose. about four bb^s^ Pork & 4 bb^s^ Beef & as much Cash as will buy the same quantity of Fresh meat, & Flower or Bread in Proportion I recon will be sufficient for the year. My Pay is so triffling that should you think fit to continue me in the Station hope you will consider that, as one months pay at present will scarcely hire a Labourer for two days, as the Auditor tells me I am intitled to but 40 dollars p^r^ month. My Acco^t^ from 1st Sept. to 1st Decr I sent to Rock Hall just before the Frost set in, so recon it is still lying there, it has already sunk above half the Value by the depritiation, & may probably sink more before it reaches you, however shall continue to supply any soldiers on furlow, going to, or returning from Camp, out of the Provisions laid in for my Family (if I can't get to buy) rather than that they should suffer, but should a Recruiting party come here before I get supplied with Provisions the Service will certainly suffer, as I really have not a sufficient quantity of Salt provision laid in for my Family & there is at present no fresh

to be had. Hope therefore you will send us speedy orders as possible to have me supplied with your provision for them, or let me know by Post, Via Wilmington what I am to do. February 7

Monsieur J'ai reçu la lettre que vous m'avez fait l'honneur de m'écrire le 24 xbre dernier. J'y ai vu avec beaucoup de plaisir les assurances des dispositions de l'Etat de Maryland touchant l'observation des Engagemens pris de la maniere la plus inviolable, pour assurer les approvisionnemens des Escadres du S. M. Je suis également pursuadé que vous avez compris tous les inconveniens qui pourroient resulter des mesures prises au sujet des Farines rassemblies par l'agent de la Marine du Roi, et que la suite infaillible des Saisiers qui ont été projettier seroit, Si elles etoient mises à Execution d'eloigner desormais de ce Continent les forces navales du Roi, puisque elles ne pourroient se flatter d'y trouver les resources qui leur auroient été solennellemens promises. J'ai reçu à cet regard les assurances les plus satisfaisantes du Congres et je ne doute pas que Lorsque vous aurez été informé des résolutions que cette assembleé a prises, vous n'ayez Concouru vous même avec Empressement à leur exécution.

Quant aux abus qui pourroient étre Commis, le Conseil du Maryland a du voir que j'étois le premier a désirer que l'on prit les mesures les plus efficaces pour Les reprimer. Je le demande encore de la maniere la plus instante, et je vous prie d'assurer les membres de ce Conseil que je suis prit à adopter toutes les farines qui seront jugées Convenable pour prévenir toutes especes d'irrégularites il parvit d'ápres votre lettre, qu'il en a été commis precedement. Si vous pouvez en administrer la preuve Je vous prie de vouloir bien me la transmettre et me faire part du desir du Conseil à cet régard Mais en meme tems, Monsieur, Je demande que dans aucun cas et sous aucun pretexte les quantités dont on aura determiné de permettre L'achat à l'argent de la Marine francoise ne puissent étre diminuées ni détournées de leur Veritable Destination. Je respecte le Zele patriotique avez lequel les états unis et le Maryland en particulier se sont impressés à subvenir aux besoins de l'armée, je conviens qu'on ne sauroit prendre dans cette circonstance des mesures trop promptes et trop vigoureuses pour lui procurer des subsistance mais je regarde, Monsieur, la conservation des armées américains et celle de nos Flottes Comme egalement sacrée et précieuse Vous savez cependant comme moi et l'événement actuel le prouve qu'une armée de terre a plus de ressources même Contre la **ette qu'une Flotte ne peut en avoir la justice et la saine politique exigent qu elles soient traitees avec une égalité parfaite et qu'on prenne des arrangemens egalement efficaces pour les faire subsister. Je demande donc

que si jamais on étoit dans le Cas de faire des recherches au Sujet des approvisionnement de nos flottes, on Commence par laisser à part ce qui aura été acheté pour le Compte du Roi jusqu'à la Concurrence des quantités permises; que cette portion reste libre et que sous aucun pretexte elle ne puisse étre entamée, ni arretée, ni detournée, quant au surplus, s'il s'en trouvoit, l'autorité publique pourroit servir et je serois le premier à lui en fournier les moyens. Nous avons en trop de preuves des dispositions patriotiques du Maryland et de son attachement à l'alliance pour que je craigne qu'il se refuse à une demande si bien fondée, et d'on peut dependre le succes des operations Generales.

It est vraisenblable que la navigation de la Baye est actuellement ouverte ou le sera incessament. Je ne puis me persuade qu'alors il y ait aucun obstacle à l'expedition des Farines qui apportiennent Legitimement au Roi et sur les quelles j'ai annoncé aux gouvernents et chefs d'Escadre qu'ils pouvrient Compter. Je suis avec Consideration distinguée, Monsieur, Votre tres humble et tres obeissant serviteur.

[Holker, Philadelphia, to His Excellency Gov. Lee]

Sir I had the honor of writing to you on the 28th January last relative to the seizure of the flour purchased by William Smith Esqre of Baltimore to which I beg leave to refer you

I have been since informed that application has been made to your Excellency by the above Gentleman in consequence of my directions, for a permit to load with provisions the Brigantine Hawke now in the part of Baltimore chartered for Hispaniola & that no answer has been yet returned. Mr Smith has also been called upon for provisions for the use of his Majesty's Ship the Fendant commanded by the Marquis of Vaudreuil now in Chesapeak but it appears to be out of his power to furnish or to prepare any supplies, on account of the seizure which it has been thought proper to decree & to carry in execution. I am fully persuaded that the legislature could have no intention of interrupting his Majesty's

Service, by their late acts, that your Excellency and the council have no other View than to exert yourselves in favour of the American Army, and to present the evil consequences of monopolizing and forestalling: but as it is my duty to promote the King's service I am under the necessity of applying for a peremptory answer, & to request you'll inform me whether the Effect of the measures lately adopted will be any ways Suspended and whether you have discovered any solid and well founded reason 1th for not granting the above permit, when applied to by Mr Wm Smith & 2dly for ordering the whole of the provisions to be wrested from him, & the disposal of any part thereof to be refused; I could have wish'd that at least after the seizure made by the commissioners, two thousand barrels of flour and one thousand barrels of the Biscuit had been forthwith redelivered to Mr Smith, on his giving a receipt thereof; this would not have been derogatory in my humble opinion to the spirit of the law, it would not have hindered you from supplying the immediate wants of the army, nor from discovering the full quantity of wheat and flour purchased by Mr Smith and would have avoided you the trouble & importunity of this my earnest address. Brown Book No. 8

His Majesty's Ship the Fendant cannot be retarded on account of the provisions, and must be relieved with all possible speed. three Vessels chartered by me & Mr Wm Smith for St Domingo are to leave the shores of America, under her convoy, if no obstacle be put to their departure, in order to obtain protection against the enemys cruizers: these reasons I hope will Justify my application & the necessity of your Excellency's interposition, so as no further interruption be given to my measures without it should be proved to be absolutely necessary.

If any Grounded complaint can be made of Mr Smith's transactions in behalf of the royal marine, I humbly request you'll please to give me notice thereof, so as I may direct my conduct in consequence for the greater dignity and interest of the Service of the Royal marine

February 12 [John Carlile, Capt, Michael Gilbert, Captn, John Hughes, Capt. Camp near Morris-Town to his Excellency Thomas Sim Lee Esqr]

Sir, The officers from the State of Maryland in Col. Hazen's Regiment beg leave to call your Excellency's attention to our particular situation. We entered the service of our Country at an early

period: We have not hesitated to share every danger and difficulty in common with our brother officers and have also been fortunate enough to be of the Number of those who had the thanks of the Commander in-chief for our conduct in a General Battle. We have often been detached a great distance from the Grand Army upon hard and disagreeable Service; And necessarily on our marches incured greater expences. When we took commissions in the present Regiment engaged in the common cause we were taught to believe that we could render as much service there as in any other Corps and by no means expected to be considered as aliens or excluded any benefit common to officers of the same State. We have seen a Resolution of Congress last spring calling for Returns from the additional Regiments that the States severally might have Credit for so many officers and soldiers and be accounted as part of their Quota, in consequence of which the States of Massachusetts Bay, Rhode Island & Connecticut with Pennsylvania have considered the officers & Soldiers from their States (in the same Regiment with ourselves) as part of their quota and given them all the benefits & privileges of the States Troops, from whence we were induced to believe that the State of Maryland not less generous than her sister states had made a similar Provision for us untill undeceived by the officers of that Line on our arival at this Place. When the claims of our Country called us into the Field we chearfully left the Pleasures and indulgences of retirement to encounter the hardships & toils of war, not only to Protect the rights of mankind but our own individual Liberty, and now when the war is apparently drawing to a conclusion we shall reluctantly leave the work unfinished for which we have made so many sacrifices; but the advanced price of every necessary will not leave it in our Power to continue in a Service in which we are so much interested unless some Provision shall shortly be made for us. Relying on your Excellencys justice and liberality of sentiment We are Your Excellency's Most Obed^{t} H^{l} Serv^{ts} February 12

[DeKalb, Camp near Morristown to His Excellency The Governor & the honorable the Members of the Council of Maryland]

Honourable Gentlemen I take the Liberty to address you in behalf of two field officers of your State whose Service and present circumstances intitle them to your particular notice, the one is Colonel Price: That officer, during one year, laid under the weight of imputations as mortifying as they proved groundless, after a trial long wished for, he was acquited of every charge. No sooner had he got over this misfortune, than he found himself Superseded in his rank by the appointment of a Iunior officer to that of Brigadier. under those circumstances he could not consistent with that pride, so necessary to keep up a true military Spirit, act in his military Capacity, and as those reasons which preclude his reassuming his functions, can no more be removed, the good of the service dictates that such a provision may be made for him, as will induce him to resign a commission which he can not hold with honour to himself or advantage to the State. his early and Zealous Sacrifices, the State of his private fortune, greatly impaired by them, apply to your generosity for such a provision, and I beg leave to recommend that

the State of Maryland, either by themselves or by their intercession with the Congress will be pleased to effect it. Brown Book No. 7

The other officer for whom I am to intreat your favours is Lieutenant Colonel Forrest: This Gentleman is no more able to continue his Services in his regiment, and his holding a Commission in it precludes the appointment of another field officer, and throws all the hardships of the duty upon the Major. I need not urge, Gentlemen, how far the holding of Commissions by persons unable to discharge the functions annexed to them, is prejudicial to the service; that consideration, alone would be a sufficient inducement to any measures tending to remove such an inconvenience, were not the circumstances of those officers such as Strongly claim for the provisions which I make bold to request to be made for them.

With the highest respect I am Honourable Gentlemen Your most obedient and most humble Servant The Baron de Kalb, M. G: Command^g Maryland Division.

May it please your Excellency Sir early in December I furnished Mr Patrick Ewing purchasing Commissary in this County with 50,000 Dollars for which he has lately produced your Order. I have likewise paid part of your order in fav^r of Col^o Henry Hollingsworth the reason why I have not paid the exact Balance due from this County arises altogether from the Commissioners being backward in Settlement of the Publick Accounts. I have paid Col^o Hollingsworth Eighty four Thousand Two Hundred and Fifty Pounds which is as near the Amount as I would chuse to goe untill my accounts are Settled by the Commissioners which I expect will be in the Ensuing week, the Balance remains in my hands shall be immediately Paid to the Treasurer for the Eastern Shore, wou'd intreat your Excellency to Transmit to the Treasurer of the Eastern shore and account how the publick Money has been disposed of in this County that my settlement with him may not be delay'd which will conclude me Your Excellencys Obedient Humble Servt

February 18 [John Randall, Philadelphia to Gov. Lee]

Sir I was just Setting out for this place when Cap^{n} Keeports arriv'd at Camp with the Officers & Soldiers Cloathing, I had before his Arrival made the inclosed purchase at Morris Town I wish I had extended it to the Article of Rum. I find it higher than I conceiv'd it possible, from ninety to a hundred Dollars p^{r} Gallon. I shall purchase Tobacco and Soap for a two Months Supply for the Officers and Soldiers. The Ballance of the Money sent I shall lay out in Rum with half of what was sent for the Recruiting Service, General Gist thinks it may be replac'd from the State before it will be wanted this will go but little way in supplying that extravagant article.

The General has inclos'd a list of Articles, the Officers propose taking in lieu of the Stated Allowance this will save so considerable a Sum, Monthly, that it induced me to issue accordingly if this should not be approvd of, the extra Articles they now Receive I can deduct hereafter. As the Act of Assembly has not provided for, nor precluded the Brigade Staff Officers acting in the Maryland Brigades. Chaplains, Commissaries, Forrage and Waggon Masters I wish to be instructed, fully with respect to them, also the Baron De Calb and his Aids, who are not of the Maryland line, I beg likewise to know if supplies are to be issued for January past and whether the Officers on furlough are to receive the back supplies on their return to Camp. Some of them wish to have money paid them in lieu thereof, others give their mess mates orders to receive for

them in their Absence I have employd a Mr Daniel Delozier as an Assistant, he is a young man of good Character and approved of by General Gist. As I cannot do the whole business myself, I hope you will appoint him and determine the pay he is to receive. I will inform your Excelcy by post of the purchases I make here from them and those now sent and the estimate sent by General Gist you will be able to Judge what money will be wanted for the Monthly Supplies and repay what I have now borrowed out of the Recruiting money Red Book No. 29

Since writing the above I have purchas'd four Hhds Rum two at £35 and two at £32. The Sugar Coffee Chocolate and Tea will serve three Months. The Officers Cloth is not to be Opened till General Gist gets an Answer to his letter respecting trimings & facings. I have no Invoice of the blue for coats, but by Capt Keeports account, it will not exceed ninety, these will be far Short of the number wanted. If the Officers are allow'd Hatts they may be had here (at present, for four hundred dollars of best Beaver)

Brown Book No. 1 Letter No. 28 February 20 [George Washington, Head Qrs. Morristown, to Gov. Lee]

Sir Your Excellency will have received, I make no doubt, a Copy of an Act of Congress of the 9th Instant, ascertaining the Quotas of non Commissioned Officers and privates to be furnished by the Respective States for the ensuing Campaign, and directing all the men in the additional Corps, Guards, Artillery and Horse and the Regimented Artificers in the Departments of the Quarter Master General and Commissary General of Military Horses, as well as those of the Battalions in the State lines, whose times of service do not expire before the last of September next, to be considered as part of the Quotas of the States to which they respectively belong. The Quota of the State of Maryland is fixed at 3238, and I have now the honor to inclose your Excellency a Special Return of the Non Commissioned Officers and Privates in her Seven Battalions and of the men belonging to her in Spencer's & Hazen's Regiments, serving with Harrison's Regiment of Artillery in the late Gale's Artillery Company. Lee's Corps and the Artillery Artificers; designating in a particular manner, the proportion engaged for the War and by monthly column periods when, and in what proportion the services of the Rest will expire. Your Excellency will observe by the Act, that the men whose engagements expire before the last of September and I have already taken the liberty to mention are not to be counted as part of the 3238 and therefore according to the Return inclosed the deficiency to be raised recrediting also the 26 in the German Battalion is 1047. There are however a few Corps besides those I have mentioned not acting immediately with the part of the Army in which there may be some men belonging to the State, and I consider it as an unlucky circumstance that I have not such Returns of them in my possession as will ascertain the point and the credit to which the State may be entitled in consequence. The principal one is the German Battalion. I expect a Return of this and of one or two more Corps when I shall take the earliest occasion after obtaining them, to advise your Excellency of the number of them in them belonging to the State. I have thought it more eligible to transmit the present Return than to delay it, till those of every little detached Corps could be collected, as the want

of these, admitting they should contain a few then belonging to the State, can make no material difference with respect to the deficiency to be levied and the postponing the business on that account would interfere essentially with the views of Congress and indeed entirely defect them, as to the time assigned for the Recruits taking the Field, I would observe before I conclude that the present Return bears the fullest number of Men under every description that the State can have in her Seven Battallions and the other Corps, which it comprehends, and they would most probably be found, if an actual inspection could take place, to fall a good deal short of the Complement, as there is always a material difference between an Army on Paper and its real strength. A comparative view between the Total amount of an Army as borne upon every General Return and the Column of present fit for duty and the Absentees that can be satisfactorily accounted for demonstrates this beyond question.

Brown Book No. 1

I have the Honor to be with the greatest respect & esteem Yr Excellency's Most Obed^t Servant G° Washington

P. S. According to an Abstract Return obtained from the Muster Master General in October, The German Battalion amounted in the whole to 208 Men, out of which number the Inlistments of 66 expire before September. There will then be, supposing all the men alive, 142 engaged for the War, but I cannot determine what proportion of these belong to Maryland or Pennsylvania. In December there were 53 men of the late Rawlins's Corps at Pittsburg, but the terms of their inlistments are not known, nor can I say whether they are now in Service.

No. 29 February 21 Brown Book No. 8 Letter No. 17 (See also No. 18) This letter is thus endorsed The original of this Letter sent to the Revd Jared Sparks of Boston, by Permission of the Executive to be inserted in a Volume of Fac Similes, which the said Sparks designs to Publish, of letters of distinguished Revolutionary Characters by Tho: Culbreth, Clerk of the Council

I have this minute received a State of the Pennsilvania part of the German Battalion, by which it appears that 116 of the 142 men inlisted for the War belong to her. Hence it seems that Maryland is only entitled to a credit of 26 in this Corps G. W.

Sir I have the honor to forward to Your Excellency, a return of the officers & men belonging to the State of Maryland, attached to the additional & Independent Corps, therein specified. It may not be unnecessary to observe, that the Original returns from which this was taken, were made out some months ago, since which many alterations must undoubtedly have taken place. and of course the present, together with the returns before sent, contain but a very inaccurate State of the Troops of Maryland, attached to the addl & Independent Corps.

[Sam Gadman A. A County, Elk Ridge Landg To his Excellency Thomas Sim Lee, Governor of Maryland, & his Hble Council]

Whereas information has been made to me, one of the Iustices assigned to keep the Peace, in said the County, that a certain John Hobbs, in the County aforesaid, being pursuant to an Act of As-

sembly of this State, appointed a Recruiting Officer, for the said County has frequently and in diverse manner abused the Trust reposed in him, by Inlisting of Men for the Army of the United States, and suffering them, for certain considerations paid him to be at Liberty, taking advantage of unguarded men w^t^ families, by making them Drunk, and inlisting them, with a view of making them Ransom themselves at a very high rate those that had not money to do it, he'd take an Indenture on, and sell them for 2, 3 or 4 years during the continuance of the Substitute Law, he recruited a number of Men, which he sold to different People for Substitutes at a very advanced Price, it appears from the general Tenor of his Conduct, since his commencement, that he has continued an entire prostitution of the publick Money, in such, and the like egregious enormities. The better to make this appear, the summoning of John Horn Benjamin Stevens John Ellicot & Misael Deaver, all of this County (except Jn° Ellicott) will shew the matter very clearly. February 25

February 26 Red Book No. 7 Letter No. 26 [Sam Huntington, President, Philadelphia, to His Excy the Govr (Lee) of Maryland]

Sir. Your Excellency will receive herewith enclosed an Act of Congress of the 25th Instant by which the several States are called upon to procure their respective Quotas of Supplies for the ensuing Campaign in the Articles and quantities specified in the Act.

Congress in assigning the quotas have endeavoured to suit the Circumstances and conveniency of each State as far as possible.

You will observe that the Prices affixed to the several Articles are in Spanished milled Dollars and the accounts are to be kept and finally Settled in like Currency as a fixed Standard in order that equal Justice may be done to all the States, and to prevent the great Inequality of Prices which hath happened in some Instances in different States and Places for articles of the same kind and quality.

As it is not in the power of Congress at present to determine the just quota of each State they have made Provision in this as in former Acts that equal Iustice shall be done to each State in the final Settlement of their Accounts.

It is supposed that each State will chearfully take upon themselves to furnish collect and deposite the Provisions and Articles assigned to them respectively which being done will supersede the necessity of purchasing Commissaries and quarter masters in the several States. In order to enable the States the more easily to comply with this Act, you will observe they are excused from paying into the

Continental Treasury two thirds of the monies which they called on to raise monthly for the use of the United States by the Resolution of the 6th of October last. Red Book No. 7

Congress have thought it expedient to form the estimate of Supplies as large as would be necessary for the most vigorous Exertion in any Case that may be with probability supposed; but as the scene of Action may change or from a variety of other Causes and unforeseen Events the quantity of supplies necessary to be furnished by all or any of the States cannot be reduced to a Certainty it is expected the Commissary Genl will give due notice to the several States of the Kind and Quantity of Articles wanted from Time to Time that they may be collected or deposited at the places assigned by the Commander Chief.

The Importance and necessity of a substantial Compliance with this Act of Congress are so obvious that nothing farther seems necessary to be added to excite the most vigorous exertions on the Part of the several States to carry the same into Execution.

I have the honour to be with every Sentiment of respect your Excys hble servant

Sr Having the honour of your Orders for Recruiting men for the Service of the united States with the Lawes of this State To Direct me and Likewise positive orders not to Inlist Brittish or forreign Deserters

But I find that there are officers in this Town which Inlist Boath Deserters and prisoners of war which I Can by no means Do my orders Being to the Contreary had I had that Liberty I could have Recruited more then the Col. of men for Baltimore Countey

I herewith send you a List of the men Recruited By me and Delivered To Capt. Samuel Farmer of the third Maryland Battalion agreeable To your orders I Drew on the Sherriff of Baltimore County for 3000 Dollars which I applyed Towards Raising these Recrutes

But Two of these men after Being Duley attested Before a Majistrate Deserted and as Capt Farmer says not Being Regularly passed Before a field officer he Could not Give me a Recipt for them But I had Carried them Before Maj^r Sollers and he said they wair Good men But Gave no further Certifycate

Now should I be at the Loss of these mens Bountey it would Be hard as there is not an opertunity of meeting with a field officer Every Day in Town and as I mentioned Before Brittish Deserters and prisoners of war pass Before our Field officers without Examination

Therefore I should Be Glad of your Honours Further Instructions about the matter

[Conrad T. Wederstrandt, Wye River, to His Excellency Thomas Sim Lee, Esquire] February 29

Sir I had the honor to write to your Excellency the 5th instant since which Mr Richard Keene Commissioner for Caroline County has attempted to seize the Continental flour & wheat I have purchased in part of that County and also to press the Continental Waggons I have drawing the said flour to the Delawar Landings in order to be fowarded to the army pretending to be authorized by Law So to do, in order to remedy to the deffect occasioned by my neglect, which being erroneous is the more sencible, and Gentlemen of the House of Delegates having informed me it was look upon the Law passed appointing Commissioners would facilitate the Commissaries purchases, I am the more Surprized at Mr Richd Keene's conduct; therefore must desire Your Excellency's orders how to proceed, meanwhile I have directed the Millers & Waggoners to go on their usual way unless Mr Richd Keene should apply by authority and with proper officers in which case I have directed to let him take possession without opposition 'till I am informed by your Excel-

February 29 lency how to act, desiring you'll please to consider how hard it would be to me after all the trouble & difficulties I have had to see other persons take away the commissions I have right to (which will hardly be adequate to my expences) without forwarding the Service more than I have done.

Col. Peregrine Tilghman told me he had wrote to your Excellency about the 28 barr^{ls} of flour I purchased last December of Wm Hemsley Esqr as mentioned in my letter of the 5th instant, & he thought himself obliged to detain it 'till your orders are known; be pleased to inform me if I can forward them to your Excellency & the Gentlemen in Annapolis I bought them for.

I was lately in Somerset County and was informed there was about 70 or 80 barr^{ls} of flour in a Store at Salisbury purchased last Summer by M^{r} McBride, by order of the late Governor & Council for the use of the States; it has been so long there, that most of it is Sour. If brought up to Baltimore it may Sell to mix with Ship Stuff and make Ship bread otherwise it must be lost.

[W. Smith, Baltimore, to Gov. Lee.]

February 29 Sir By a letter of the 25th Inst. from the Agent general of the Marine of france. I am directed to apply to your Excell^{y} for permission to load with provisions for acco^{t} of his most Christian Majesty fleet & Army in the W. Indies the two following Vessells. To wit the schooner Holker & the schooner Morris, mounting four carriage guns & four swivels each, with fourteen men. I am also directed to withdraw the application made on Acco^{t} of the Brig. Hawke Capt. Taylor. I am sorry to be troublesome on this subject and must plead my instructions as an appology.

I would Iust beg leave to observe to your Exc^{y} that as I am informed much pains has been taken to injure my character with the public & reports circulated to induce a belief that under cover of a permission to purchase a quantity of flour for the french navy I had engrosed considerable quantitys for my own Acco^{t} & far exceeded the quantity permited to be purchased in this State. And as I am told returns have been made or are to be made to your Board of all the wheat & flour seized in my possession and in the possession of my Agents, I take the liberty for the information of your Excellency & the Council (who I wish to be acquainted with every of my transactions respecting this business) to mention that fourteen or fifteen hundred bb^{ls} of the flour seized in my stores at Balt^{o} is no part of that purchase, but delivered to my by order of the late Govr & Council by the State of Virginia & by the Continental commissary of purchases, this flour I was directed by the several committees of Congress to appropriate to diferent purposes. To Wit, for the use of the American Navy at Boston a part to be delivered to the order of the Comm^{y} general but principbly for the Marine of france. Add to this

the Ship Defences Cargo which was cleard out at this port, returned, & relanded here again, this Cargo was a purchase preceding the last years crop partly bought in this State & partly in Virginia. I flatter myself y^r Excellency will excuse my being this particular, from a wish to prevent y^r being Led into any mistake on this head, & to Justify my character from any imputations to my prejudice. On the whole you may be assured from the best returns I have yet been able to collect, the Amount of my purchase will not much exceed one the quantity permitted February 29

P. S. the bearer Mr Ch^o Johnson, will be so obliging as to call for an answer

[James Shaw to The Governor and Council]

I hereby Certify, that on the 26 Instant a Certain Person who calls himself by the name of Freeborn Garretson (was brought before me the subscriber one of the Justices assigned to keep the Peace for Dorchester County) as a Fugitive Dissaffected Person, from the State of Delaware, on Examination, he Acknowledged he had not taken the Oath of Fidelity to his State, or either of the United States, and also refused to take the Oath Prescribed by the General Assembly of the State of Maryland, in an Act entitled an Act for the better Security of the Government. I therefore Committed him to the Jail of Dorchester County, which Jail he is now Confined in. February 29

March 3
Brown Book No. 8 Letter No. 36 See also Letter No. 40 (Liber C C No. 22 p. 69.)

Sir In answer to the letter with which you have honored me of the 21st february I shall inform you, that so soon as the intelligence of his Exc^y Count d'Estaing's arrival on the Coast of Georgia reached us & of her firm intention to visit these quarters, it was agreed that every exertion should be made to procure an ample Supply of provisions for his fleet which contained 25000 men & to Cooperate with him: it was determined that Mr Wm Smith of Baltimore with the permission & approbation of the then Governor & Council of Maryland should be requested to purchase 8000 barrels of flour with all possible dispatch, 4000 were ordered by my letter of the 30th of August & 4000 more by my letter of the 7th of Septr the choice of Mr Smith was approved of & Governor Johnston pledged himself for his success; in this I believe he has not been mistaken.

On the *.....the Hon: Committee of Congress for the Commissaries departments informed me that in addition to the Supplies for the Army & to those I had demanded from Mr Smith they had directed the Commissaries on the Eastern Shore of Maryland in

* This letter to me on the Subject was lately burned with my dwelling House in this city.

Brown Book No. 8

consequence of my application to them of the 27th Sepr to purchase 4000 barrels, which were to be delivered to said Mr Smith, on account of the Royal Marine: this additional order formed my pretentions for 12000 Barrels & they have been acknowledged by the same Honl Committee, when they applied some time since to your Excellency & Council for all the flour purchased by my Agents over & above that quantity.

At the same time that the above mentioned purchases were directed to be made 12000 barrels of flour were demanded from the State of Pensilvania, who entered upon measures to obtain them forthwith, these however had not the desired effect, were soon after annuled & have not Supplied me yet with 1500 barrels of flour in the whole. Some time after the Steps were taken I perceived that the Continental Commissaries on the eastern shore of Maryland could not furnish any of the flour demanded from them because the wants & urgent necessity of the Army were so great that I was repeatedly applied to for the flour stored by my agents in this city: & in the beginning of November I was apprised that my conjectures were but too true, for instead of Supplying the 4000 barrels, *Colonel Blaine* applied for & obtained unknown to me, from Mr Smith 500 barrels of flour for the immediate relief of the Army, and under the most Solemn promise that he should replace them without delay, promise which he has not fulfilled to this moment.

Influenced by the apprehension of the fatal Consequences of these my Conjectures, I determined in the run of october to press Mr Smith more & more: I told him that I expected the fleet on the Coast forth with, that all my resources were almost frustrated in every quarter but his: I reminded him of the engagement of the Commissaries & Concluded that all my expectations for assistance and relief lay with him: it was on this ground that he pushed forward, that he exerted all the influence he was master of; had he obtained 20000 barrels I should have claimed the whole for the Royal Marine, as it would have been paid for by the remittance I should have directed to be made in behalf of the King's service & for the use of his fleet which was hourly expected, but this I knew was not the case. I knew it by the sums of money paid to Mr Smith, or by his demands on Mr Robt Morris, & therefore I willingly consented that the Scrutiney should be made under the idea that he was only authorized to purchase 12000 barrels & that the overplus should be applied for the relief of the American Army. How far I have been grounded in my Conjectures your Excellency can but inform, by the return I have demanded of the flour seized by the State Commissaries and redelivered to my Agents.

With respect to the letter of a Committee of Congress of the 12th July 1779 I shall observe that 3000 barrels only were accepted of by Mr Smith in Consequence of my directions instead of 8000, though

ten thousand had been ordered by a Committee of Congress & were purchased for the use of the Royal Marine for purposes then in Contemplation. Brown Book No. 8

Mr Gerard claimed leave to export 5 or 6000 barrels of flour by his letter of the 21st of August. 3000 barrels thereof have not yet left your State, which you'll perceive by the return of the Naval office; therefore nothing has been done contrary thereto from the purchasing 12000 barrels, it is not allways to be concluded that the same is to be exported forthwith—whenever that would have become necessary I should have made application for the same, & it would have been so if three large * Store ships which sailed from Martinico on the 14th November under Convoy of three frigates with Cargoes of Salt & West indies produces could have reached the Shores of America.

Permit me now to observe to your Excellency that to this day from the moment of the arrival of the Count de Estaings fleet in the American Seas, 8000 barrels of flour have not yet been furnished to the Royal Marine from the United States comprehending the supplies furnished that very fleet, off New York, Rhode Island & in Boston.

It is also incumbent on me to inform you, that his Majesty's fleet off Georgia, was ardently wished for & expected in the run of October last. It was intended that it should Cooperate with the American Army & should be seconded by a large body of militia: this body was not assembled, no fleet arrived here & notwithstanding these two circumstances, all the flour procured in Pennsilvania for the sole use of that fleet, has been taken from my Agents for relief of the Continental Army: what was Shipped on board vessels bound to Join the fleet, has been demanded & granted; no flour has been delivered by the Commissaries on the eastern Shore: the whole of what remained & which had been purchased at the greatest expence &c with immense trouble by Mr Smith of Baltimore has been seized & wrested from the hands of my Agents under pretence of the immediate relief of the American Army. the Vessels chartered to export the same have been refused a permission to load; His Majesty's Ship the Fendant then in Chesapeak could not have been supplied from the King's Stores in Baltimore, because they were no more at my disposal, & what is still more incomprehensible the provisions have been seized in consequence of Circular letters under the dates of the 17th January & 3d february Coppies of two of which I have the honor of inclosing, in order to know from you whether they are genuine & whether they had the sanction of the Government of Maryland: I shall draw no Consequence, nor make any inference from those faits; I can only request you'll please to submit

* These vessels have been blown off the Coast, have put in Cape . . . . are refitting to proceed further.

them to the Consideration of the Honorable the General Assembly, should you think it necessary, in order to engage them to take some effectual measures, so as the King's service may be established on a secure and respectable footing: you may depend I shall very readily Comply to all the formalities which may be deemed necessary to inspire the greatest Confidence in the operations entrusted to my Care & to deserve general esteem & approbation.

Sir I have received and Stored at Chukamuxon and Pomonkey on Potomack River Seventy five Bushells Corn and one hundred and forty two and three quarter Bushells Wheat, this I have given Certificates for. I have been among the people and have taken and have the promise of one hundred and twenty Barrells more of Corn, which is yet to come in, the Weather has been so very bad that, it is been impossible till now for it to be brought to granerys. I expect to have the whole ready in Ten days from this.

[George Plater and James Forbes, Del in Congress, Philadelphia, to Gov. Lee]

Sir We are honor'd by your Excellency's Favor of 18th last. The Minister of France knows very well, however wrong he may have deemed the Measure, that the seizing the french Flour was to relieve the exceeding great Distress of the Army. & we have never understood, or even heard it suggested, that the Conduct of the State was imputed to any other Motive. We have no Reason to think that he doubts the Attachment of Maryland to the Alliance, & have heard him express Pleasure at the Receipt of your Excellencys late Letter, which he says is fully satisfactory. We have set before him, in the clearest Point of View we cou'd, the Extent of your Powers which will not permit the Suspension of any Law, without an Exception for that Purpose, & that it is your Duty to see all Laws executed in the utmost Extent; of all which he appears fully persuaded. The Consequences which he mentions to have imparted to one of us were, that as he found the Supplies were uncertain, & not to be depended upon, even after being purchased & stored, he could not, under such Uncertainty, invite a french Fleet to our Coast. We have ever esteemed it our Duty & hoped we had discharged it, to communicate to the Governor & Council, in Recess of Assembly, all Matters of Importance acted upon in Congress which may relate to Maryland, therefore am at some Loss for the Meaning of your last Paragraph, as we know of no Matter of Importance, relative to the State lately discussed which has not been forwarded—their is indeed a Report of a Committee on the Application of Mr Holker for three thousand Barrels of Flour over & above the Quantity last assigned, which when passed, we shall not fail to communicate.

Sir I received Your favor of the 2d Instant in Consequence of which I have released Mr Wederstrandt Flour. I wrote you the 3d of last month that there was little Probability of getting any Waggons, and requested You'd inform me to whom the Flour, Wheat &c should be delivered at the different Landings pointed out by the Law, that I might take the first opportunity on the opening of the Bay & Rivers to forward the supplies from this place not having yet been favored with an Answer Obliges me to order the bearer hereof Aron Ringrose Skipper of a Boat with 117 barrells of Flour to call on You for Your directions, contrary to my expectation some Waggons have been sent down & have taken 116 barrells of Flour which is all that I believe will go by Land Carriage, from the badness of the roads the expence this way is so much more than sending it by water I judged it right to discourage their sending more Waggons, Having seen extracts from two Letters to the Commissioners of Cecill giving it as Your Opinion that all the Wheat Flour &c purchased by the French Agents & Commissarys was liable to seizure and directing them to lay their hands on it, induces me to request you'd inform me whether such Orders were given in consequence of any misconduct of the Purchasers in that County, or whether You apprehend from the Words of the Law tis the Duty of All commissioners to make such Seisure. I hope from the present appearance of the Weather in a short time to have all the supplies from this County on its way to the Head of the Bay.

I hereby certify that I was in the Dellaware State some time last fall and having heared Mr Freeborn Garretson Preach a Sermon was much pleas'd with it, on conversing with him afterwards he informed me he was born in the State of Maryland and that he had been a Preacher of the Gospel in this and the adjoining States for near Nine years last past that the usual places he preach'd at when I saw him were in Somerset, the head of Dorsett, & Talbot Counties in this State and some part of Dellaware State, that his residence was in the Dellaware State generally.

On being thus informed knowing that the Gospel was more wanted in my Neighbourhood than any place I knew, I requested he would come and Visset our part of the County, on his coming he

was much approved of, after he had Preached, enquiry was made & it appeared he had not taken the Oath to this State but he produced good authority that he had complyed with every thing required by the State he belonged to. March 13 Red Book No. 26 Letter No. 41 [Richd Dorsey, Balt. Town, to His Excely Thos. Sim Lee, Esqr.]

May it Please your Excellency When I was last at Annapolis I applied to the Council to Relinquish two fines against Majr Smith for the non appearance of Henry Kelleker and William Delany two Soldiers in my Company, they were Prosecuted by Robt Toole and Gray for felony. Majr Smith become Security for their appearance at the next Criminal Court, but before the Court met I was ordered to Camp, and thought it a Pity two so good men as those should be taken out of the Service, as the Proprietors themselves Acknowledg'd

them to be Innocent at the Ensuing Court but notwithstanding as they did not appear the Recognance was forfeited, and Execution Issued against the security Red Book No. 26

The Pay of the Soldiers being so small that it would take at least twelve months to pay the Recognance which was forfeited should be Exceeding Happy if it lies in your Excellencys Power to Redress them.

[Nath'l Smith, Balt. to Gov. Lee]

Sir The above by Capt Dorsey is nearly as he has Represented it. Robt Tool & Jno Gray went with me to two different Courts, before their Worships & their declar'd that they were Sensible that the within mentioned Kelleker & Dulaney were Inocent of what they had laid to their Charge and desired the Court to have the Actions Struck off. I should not have ben Security for them, had not I ben Satisfied the men ware Inocent, as it afterwards Apered to the Court. March 13 Red Book No. 26 Letter No. 42

The Majestrates allways told me they woud have the affair Settled without Charge to myself. Since the Executions ware served, I have talked to them on the Subject, they told me they had forgot it (as it had been so long in Court) or they woud have prevented the Executions being served.

If what Capt Dorsey & myself have said is not Sufficient to Convince your Excelency of the fact, I will git it from under their Worships hands, tho I make no doubt but your Excelency from this, will be Satisfied that what I have done was with no other motive but to serve the Country & two Inocent men, from Ruin. Therefore must beg your Excelency wou'd order that I may be Cleared of any Charge on the acc^t

[Ben Stoddert Secry, War Office, to Gov. Lee]

Sir In answer to your favor of the 3^d instant, I have the honor to inclose a resolve of Congress of the 16th of August last, & the Cloth^r Generals estimates made in consequence thereof for the years 1778 & 1779 agreeable to which the soldiers who have Clothing due to them for these years should be paid for their deficiencies. March 13 Red Book No. 7 Letter No. 194 (vide Liber C C No. 22 p. 73)

The Honble Council will observe that the resolve of Congress points out the mode of settling with the Soldiers for their deficient Articles, but as it has hitherto been impracticable to comply with this mode in every instance, the board have not hesitated in ordering their Paymaster to pay such men as have been discharged before they were settled with; and the certificates of the Regimental Paymasters have been deemed sufficient vouchers of the Justice of their claims. But it is presumed that men still in service should be paid as Congress direct

P. S. A List of the men belonging to Maryland who have been here, will be transmitted by next post.

March 13 [Peregrine Tilghman, Talbot County to Gov Lee]

Sir Having engaged Craft to carry the supplies from this County to the head of the Bay, Obliges me to request a draught on the Treasurer of this Shore for Seven or eight Thousand Pounds. People who keep Craft have it not in their power to hire or pay Hands necessary to navigate them but with the money arising from their freights, and most people of that class of Life will sooner be idle than not have their Wages paid as soon as earnt & often times before. I must likewise begg to be furnished with two quire of Certificates

I have been given Certificates for 467 Barr^{s} of Flour @ £10 p^{r} C^{ts} 1300 Bus^{ls} of Wheat @ 20 ꝑ B^{s} 500 Bus^{ls} of Corn @ £ 10 p^{r} B^{s} & shall have ab^{t} 233 barr^{ls} of Flour 2 or 300 Bush^{s} of Wheat & some few Bush^{s} of Indian Corn more.

The Waggons that came down after Flour I supplied with Forrage & a small q^{ty} of Flour for the Drivers &c.

March 13 [Solomon Stympson, Mount^{ry} County to His Excellency Thos. Sim Lee Esqr]

May Please Your Excellency Since I had the Honour of seeing you at Anapolis I have made but very Little purchases the whole amount of my purchass is Three Barrels Flour one hundred thirty four Bushells Wheat three hundred two and a half Bushells Rye three Thousand three hundred and thirty three Bushells Corn the whole at the former Price. As I have certificates to give for Shelling Corn Waggonage Storeage &c if they are to be printed should be Glad that they would be sent I have a few of the former Certificates yett by me and it may be that I may gett more Grain but it is what I do not Expect for it is Really scarce in my Nighbourhood. I have Agreed with five or six Waggoners to carry the Corn to Georgetown at forty Two pound Ten shilling p^{r} day and the Distance on an Average I suppose to be about thirty five Miles I have Allowed three days to perform the Jurney and Carry Eight Barrells at a Load Allowing that they may Travell Twenty Miles per day some I Expect is begun but for want of bages other cannot begin I have Received no Linnen nor bages yett nor money to purchase them with, As I find by the Law that I am to Receive Instruction from your Excellency and the Councill should be Glad to have it as soon as possible As I have not pressed anything as yett and the people that hath Waggons do not Incline to go for the above price and I am Doubtfull if I were to press and Call on the third person the price would be much Greater, I have Delivered Certificates to the people mostley and as soon as I Deliver the Remainder which I expect will be this week I intend to Return the duplicates.

Red Book No. 23 March 15 [Peregrine Tilghman, Talbot County to Thos Sim Lee Esqr]

Sir Your favor of the 13th Instt is now before me I shall do all in My Power to forward the Flour &c in my Possession to Colo. Henry Hollingsworth as therein directed. In my Letter of the 7th Instant I meant to beg Your Opinion not only as to the Seizure of Wheat Flour &c purchased by the French Agents, but likewise as to the Purchase made by the Commissarys for the Use of our Army, Acting under Licence from you, on which Your Letter is silent. I wish not to be troublesome, but as I would avoid giving Uneasiness to Persons Acting under the Legal Authority of the State, I shall forbear taking into My Possession any Wheat, Flour &c Purchased by the Commissarys or their deputies having such License, Untill favor'd with Your Opinion particularly on the head, not being clear in my own either as to the Letter or Spirit of the Law respecting such purchases.

March 15 [John Green To The Honourable Govourner and Council]

I do agree To Serve in the State boat Dolphin as Commander For £150 ꝑ month, and to be allow'd for the use of my self and people 10 Gallons of rum 10 £bs Coffee or 1 £bs Tea with 12 £bs Shugar ꝑ month Likewise and to be allow'd provisions as has been usual In the State Servis my pay to Commence from the first day of this preasant Month

Sirs This is to inform you that I am desirous to know upon what terms I am to Continue as Commander of the boat Dolphin, and upon what terms I am to Ship men, for the said Boat, if the Wages and prevolidge allow'd me, is sufficient to support me, I am willing to Continue as Commandr of the said boat, after being in the service for this three years past as an Officer, I hope it will pleas your Honours to think of me for servis done.

March 17 [John Moale Baltimore County Green Spring Forrest to Gov Lee]

Sr Six days after I was qualified as one of the Commissioners for procureing Flour & other provisions for the Army, I was taken with the Gout, which confined me to my Bed three Weeks & to my House upwards of five, & am now only able to ride short Distances. I have collected in flour & Wheat to amount of near Two Hundred Barrells of Flour if my Health had continued, should have collected a much larger quantity, nevertheless am hopefull the State will not suffer much by my being incapable of acting as Mr Stevenson collected in my Rideing & what remains I will try to get. during my illness Mr Andrew Buchanan promised me to inform you of what I had done which he tells me he did, which is the reason I did not write to you before this. Mr Buchanan informs me that it will not be disagreeable to you, to have the Flour stored at Fells Point, there-

fore intend sending of it to that place without delay. I thought it would be to the advantage of the State, to have the Barrells nailed, & lin'd therefore have agreed with a Cooper to do the same. as no Person will Either let me have Barrells, Nails, nor do any thing Except what they are Obliged to by Law for Certificates, shall want money to pay for the above Articles & other Expences attending this Business. therefore if Your Excellency thinks proper be pleased Either to send the money or give an order on the Collector for about One Thousand Pounds, tho this seems large, yet it will not purchase more than Twelve or Fifteen pounds would have done before these wretched times. March 17

I am rendred by the Gout unfit for Militia Duty, being Convinced I could not endure the Hardships & fatigues required of an Officer in my Station, should I be Called out on Duty, do resign my Commission which is herewith inclosed.

Sr Since I wrote the above, I have received your Excellencys letter of the 11th Instant, I am Exceeding sorry our Army is in such distress for want of Flour you may depend that I will do all in my power to forward all I have ready to the place within Mentioned, allso will have the Wheat in my hands & what I may get Manufactur'd & the Flour arising therefrom forwarded without delay. if the £8000 mentioned in yours intended for all the Commissioners, the sum requested by me need not be sent—if not I cannot possibly do without it therefore hope your Excellency will Either furnish me with the money or an Order as soon as possible.

P. S. I have taken some Indian Corn but as the same is not shell'd Cannot Ascertain the Quantity but Expect there will be Two Hundred Bushels.

[Holker Philadelphia to His Excellency Gov. Lee] March 21 Brown Book No. 8 Letter No. 33

Sir In consequence of a resolve of Congress of the 11th currant, a coppy of which I have the honor of transmitting to your Excellency, it appears that congress have deemed it necessary to appropriate for the use of his most christian Majesty's royal navy, 15000 barrels of flour out of the Supplies demanded from your State, & that the flour seized in the Hands of Mr Smith should be returned to him.

it is my duty in consequence thereof to inform you that the whole of the flour mentioned therein, will be wanted for the first of May & that what has been Seized is necessary immediately for the following purposes.

1. in order to forward to Benjn Harrison Junr Esqr at James river 500 barrels of flour and as many of Biscuit to be lodged in his Stores, for contingent purposes for which I request your Excellency will condescend to grant a permit to Wm Smith Esqre of Baltimore.

2dly to Load the Schooners, Baltimore, Morris & Holker which have been freighted to go with flour to St Domingo and all which have been waiting for a permit to load & proceed on their voyage

3dly in order to prepare for the three Store Ships from Martinico, which have put back to y^{r} cape by Stress of weather & which I have a right to Expect hourly, in consequence of a Letter of the 5th January from the Commanding officer of this Expedition.

4^{thly} in order to prepare for other contingent purposes.

I hope your Excellency and the Honble the Council will please to attend to my Earnest remonstrances on this head, Least any misfortune may Ensue from further delays, & in order also to diminish the Expences encurred by the detention of the vessels which I Expect will be claimed by the Owners thereof, Either from me or from the Governour of your State.

I Remain with Sentiments of profound Respect

[J. Gunby Kembles near Morristown to Gen'l Smallwood] March 25 Brown Book No. 5 Letter No. 69

Dear Genl I beg leave to call your attention for a Short time, respecting, as I term it, unjust, partial, distribution of the Blue Cloth, sent up by the State of Maryland, for the use of her Officers.

Red Book No. 5 Sometime after Mr Randall had received the Cloth brought up by Mr Keeport, he took upon himself to deliver it Individually, no day or time was appointed for a delivery, no method taken to proportion the Cloth to the different Regimts agreable to its Quality, or quantity, & altho I demanded of Mr Randall the time he meant to deliver the Cloth to the Officers, it was kept from me while the prime & greatest part was delivered & this delivery was made on the very day, that I requested of Mr Randall to know when we might attend for our proportions of the Cloth, finding this to be the case I applied to Genl Gist, who Commanded the Maryland Division, to give some order respecting the matter, that Iustice might be done to the Officers; that Conceived themselves injured, his reply was, that he did not think the distribution a proper one, but that he had not Authority to give order respecting the matter I inform'd him that all distributions of State stores in our Line, had been made by order of Genl Smallwood, & never heard the authority doubted by any in the Line, except by Mr Randall & that very lately, but these Arguments proved to have no effect. A material difference there was in the Quality of the Cloth, & leave you to Iudge, from the nature of the distribution, whether those that were not among the foremost is not Injured, they are of your Brigade and did not expect an unjust distribution would have taken place. I am so unfortunate as to have none of the Cloth, & cannot conceive that the Assembly of Maryland, ever intended that Mr Randall should have had the entire order of the clothing furnished for the use of her Officers, or from the Letter of her Act, that an Ensign should have prefference to a Field Officer in distribution; I wrote to Mr Randall some short time after he had made delivery, requesting he owuld inform me the quality of the Cloth he had on hand, also what he had delivered, he inclosed me in his answer five or Six Samples of the cloth he had received; in them were papers pinn'd to the different Samples and on them were wrote Genl Gist choice, Colo Williams choice, Major Andersons choice, &c. &c. this is the true State of the treatment we have received, if any thing is necessary to be done to prevent, an injury of this kind's taking place again in your absence, I make no doubt but you will attend to it, I have nothing new, your Officers and Soldiers are in Genl very healthy, the Officers present their Compliments to you, & by accepting mine you'll very much Oblige dear Genl

March 26 Red Book No. 26 Letter No. 128 [Joseph Ford Saint Marys Co'ty to Gov Lee]

Sir I Purchased of Mr Charles Hayden Forty Barrels Corn and paid him for it at the rate of Twenty Seven Pounds pr Barrel Eigh-

teen of which I Returned for the Use of the United States Army, the Evidence I Reserved for my family. And had Rec'd Thirty Barrels of it in a Store Convenient for Transportation when Mr William Kilgore one of the Commissioners appointed for this County Pursuant to an Act of the General Assembly passed last December Seized it in the hands of Hayden and paid him a Certificate at the Rate of Thirty seven Pounds Ten Shillings ꝑ Barrel, Altho he was Previously informed by others and myself of my having Discharged the contract. Many People in this County Complain of having Two Commissions paid on the Necessaries for the Army but with Much more Iustice will they be disturbed when they come to know that so much more money was Paid than there was an Occasion for. I should be glad of your Excellencies directions in this matter which I hope to have by Return of Mr Athan Ford who will have the Honor of Delivering you this. March 26 Brown Book No. 1 Letter No. 31

Sir Your Excellency will have received I presume before this, a Transcript of an Act of Congress of the 25th of last month, calling on the several States for Specific quantities of provision, Rum & Forage for the Army, and directing the Articles of Supplies to be collected and deposited at such places in each of the States, as should be judged most convenient by me. In the case of a defensive war like ours, which depends almost wholly on the movements and operations of the Enemy, it is difficult if not impracticable to fix on places of Deposit for Stores, which may not be rendered improper by subsequent events, & all we can do upon such occasions, is, to collect them where it shall apear from a comparative view of circumstances, that they will be probably secure and most likely to facilitate the purposes intended. I have considered the point with respect to the supplies required of your State, and I beg leave to inform your Excellency, that it appears to me, they should be deposited at the following places & in the proportions set against each respectively, Viz

	Barrels Flour	Tons Hay	Bushells of C
Head of Elk	14.000	140	52.152
Baltimore	3.000	30	2.000

[Sam Huntington, President, Philadelphia to His Excy, the Govr (Lee) of Maryland]

(Circular) Sir Your Excellency will receive herewith enclosed an Act of Congress of the 18th Instant calling upon the several States to bring in the Continental Currency by monthly taxes or otherwise as shall best suit their respective Circumstances in Proportion to the Quotas assigned to each State by the resolution of the 7th of October 1779 and making provision for other Bills to be issued in Lieu thereof under the regulations and restrictions mentioned in the Act.

This Act is the result of much Labour and Deliberation as the happiest Expedient that could be adopted to extricate these States from the Embarrassment of a fluctuating Medium and at the same time in some Measure afford the necessary Means for supporting the ensuing Campaign.

You will readily perceive the Importance of this Measure and the indispensible necessity of unanimity in the States in conforming thereto.

It is requested that there may be no Delay in taking this Act under Consideration and that the Assembly if not sitting may be convened as soon as possible for that Purpose and that the Laws that may be enacted in pursuance thereof be transmitted to Congress without Delay.

The new Bills will be struck under the Direction of the Treasury Board and sent to the several States in due Proportion.

You have also enclosed an Act of Congress of this Day recommending the revision of such Laws as may have been passed making the Continental Bills a Tender in Discharge of Debts &c.

I have the honour to be with every Sentiment of Esteem & respect your Exc^ys^ hb^le^ serv^t^

Congress having call'd on the respective States to procure their Quoto of Supplies for the support of our Army and as I have ever experienced the most ready Disposition in your Predecessor, Self and Council to render every possible Assistance for the support of the Army, and indeed their present Existence is in a great measure owing to the Exertions of your State and Iersey.

As I shall continue at the head of the Commissaries Department and wish Active Men to be appointed to execute the Purchases in the sundry States I take the Liberty of pointing out an easy Method to procure the Supplies demanded from your State. The Head of Elk, Baltimore, George Town and Frederick Town are pointed out as proper Places for Magazines and will be continued, also Fort Frederick while prisoners are kept there.

The Commissioners of Elk & Baltimore ought to have a joint Appointment, then there will be no Contrast in their purchases, and they will have it in their power to command all the Supplies on the Eastern Shore & that part of the Western Shore contigeous to the Bay. George Town and that part of your State adjoining the Potomack another District, Frederick County to Supply Frederick Town Magazine and Washington County the Prisoners at Fort Fred^k

Mr Ewing has done my Business at the Head of Elk, Mr Buchanan at Baltimore, Mr Richardson George Town, Mr Murdoch Frederick Town and Col. Rawlings at Fort Frederick, they are well acquainted with the Business and I have ever found those Gentlemen attentive to execute my Orders with Care and Fidelity, and if they are disposed to continue and Your Excellency & Council think proper to Appoint them I am confident you will find them, faithful & capable of furnishing the Supplies and fully answering your Expectations and the Public. Mr Calhoon, Mr Rodgers and Mr Spear of Baltimore have made Application to superintend the Purchases of that district, they are all attentive good Men, your Excellency & Council will Appoint which of them you think proper, provided Mr Buchanan declines serving. I shall be happy in giving you any Information respecting Supplies.

Monsieur. J'ai recu dans le tems la lettre que Votre Excellence m'a fait l'honneur de m'ecrire le 18 Fevr. Sr. J'ai desiré de n'avoir à y repondre que par des remerciemens touchant le succès des peines que Vous avés prises pour faire reformer ce qui J'etoit passé dans la saisie de nos grains et farines et c'est cette raison qui m'a empêche de Vous repondre plutôt. Je Vous prie d'être intimement persuadé que malgré l'importance de l'affaire dont il s'agissoit elle n'etoit pas de nature à elever dans mon esprit le doute le plus leger touchant les dispositions patriotiques du Maryland et son attachment à l'alliance. Il en a donné des preuves trop solennes pour que ces faits particuliers puissent y apporter la moindre attraction et je ne les a attributés qu'à une précipitation occasionnée par un motif, même, d'attachment à la cause de l'independance M. le Col. Platter ne m'a pas laissé ignorer dans le tems la situation de Votre Excellence et l'impossibilité où Vous etiés de reprimer des mesures dont Vous sentiez cependant tous les inconveniens. J'ai vû avec une très grande satisfaction que l'Assemblée générale Vous avoit investi des pouvoirs necessaires pour terminer toutes les difficultes qui pourroient desormais s'elever. Nous ne pouvions desirer de voir cette Affaire en des mains plus justes et plus amies et je desormais parfaitement rassuré à cet regard Malgré les inconveniens qui ont accompagné la suite de cette Affaire j'ai ressenti un plaiser bien veritable des nouvelles occasions qu'elle Vous a fournier Monsieur, et aux different personnes chargeés de l'administration conjointement avec Vous de developer Vos sentimens et Votre zele pour nos interêts. M. Platter en particulier m'a montré autant de satisfaction de l'avoir heureusement consommé qu'il avoit eu de peine lorsqu'il a été instruct des difficultés qui s'etoient elever. Je partage bien sincerement les sentimens de ce digne Citoyen.

J'ai l'honneur d'être avec un respecteux attachement, Monsieur de Votre Excellence très humble et très obeissant serviteur.

Sir I rec^d yours of the 25th March, and agreeable to request, have taken the earliest opportunity of informing you, relating to the recruiting service in our Country, as far as I can get intelligence. Mr John Moor & Abraham Falconar are the only officers appointed to recruit here as I am told. the former I saw the other day, who I believe has done all that was in his power to perpetuate the purpose of his commission but as yet without success; the latter I have not seen, but have it from good authority that he would not act and intended to return his commission; Ensign Sears has enlisted three men & passed them before me, two of them to serve during the war, the other for the term of three years. I am very certain that none others are passed in this County except it has been done within a few days past at the upper part of it.

[J. Carvil Hall to Gov Lee] April 6

Sir Lieut Adam Hoops is entitled to a Capt: Lieutenancy vacated by the resignation of Mr Cromwell the 15th of Decemb: 1779

Mr John Randal was recommended last summer for a first Lieutenancy I know not whether he was approved of. He informs me he will resign his appointment of State Agent this spring if you think proper I hope he will receive an appointment in the 4th Reg^t James Clark has served four Companies with me. I think he would make a good officer & I am much in want. I beg leave to recommend him for Ensigncy

I shall go to Camp within these few Days if these recommendations are approved of, I beg you would be pleased to give the necessary orders that I may take them to Philad^a & receive the Commissions.

I have been told the State has made provision for Soldiers wives & children. I have several whose services entitle & whose merits claim every benefit allowed them but I know not how it is to be procured

Gent. I this Instant rec^d a Letter from the Clk of your Committee wherein you Desire to know the Quantity of flour & ^ca by the Act for the Immediate Supply of Flour and other Provisions for the Army. Flour there is none in my District Except One Hundred and forty Eight B^lls purchased by the French Agent, which I am Directed by the Governour and Council to Detain until further Orders

I have got into John Rawlings's Mill at the Head of Chester Two thousand four hundred Eighty Nine Bushells and one peck of Wheat Manufacturing into Flour, of which One Hundred and Sixteen Barrels is sent forward by the way of Duck Creek, and fifty Barrels in the Mill ready to go, on the return of the Waggons.

I expect to get about six Hundred Bushells of Wheat more into the Mill, and shall do all I possably Can to hasten the Manufacturing of the Whole. Had it not been for the Inclemency of the Season and the Difficulty of procuring Barrels to put the Flour in I think I cou'd nearly have had the Whole sent forward by this time. I have sent on three Hundred and Seventy Bushells of Corn and fifty five Bushells of Rye, And have about four hundred Bush^ls of Corn Collected ready to send on as soon as I can procure a Vessel. The Price of Wheat is Twenty Pounds p^r Bushell Corn ten pounds ꝑ Bushell and Rye ten pounds p^r Bush^l

Sir My Hastey departure from Annapolis, caused me to omit applying to your Excellency for those Instructions that are necessary for me, in the execution of my Office; there are some Difficult circumstances in the Surveyors business through its Various branches, in which I am not able to Act in every Case, with Impunity. I know that under the former Constitution there were Instructions carefully handed to the Several Surveyors of Counties, but whether such instructions will ans. under the Present Constitution I am not a Judge. However Your Excellencies & Council's instructions and directions under the Present times, shall be the invariable Rule of my conduct, with which, I humbly request you would take the earlyest opportunity of furnishing me by the Post, to be left at Elk, if none other more favourable opportunity offers.

The settlement of all the accounts of the Quarter Master's department is a work of absolute necessity independant of these circumstances, which however afford additional reasons for urging it the more speedily, I must therefore beg you will not fail to furnish me

with yours as soon as you can in which I would wish you to charge in one article the amount of the debts you owe in your public capacity at the same time transmitting, on a Separate paper, a list of the particular sums which compose that article and the names of the persons to whom they are respectively due. Red Book No. 18

I should also be glad to be informed, how many of them are ascertained by the printed certificates lately sent to you, and could wish they were all on that footing as well for our own convenience as because I am persuaded it would be beneficial to the creditors and the most probable road to obtain payment for them.

[W. Smith, Baltimore, to Gov. Lee] April 13

Sir I am now to acknowledge receipt of your Excellencys Letter dated the 5th Instant inclosing a permit for Loading the Schooner Baltimore & the Resolve of the general Assembly respecting the flour to be delivered the french Agent. The Naval officer has also informed me he has received your instructions for permiting the Bread & flour, requested, to be exported to Virginia.

As soon as I have it in my power you shall be duly informed of the Amount of my purchase for the Marine of France. I have pressd all those persons employed by me in that Business to deliver in their accounts as speedily as possible. I am directed by the Honble the Board of Admiralty to take charge of & sell the continental Stores at this place. they inform that 6½ of 12 pounders were lent to this State & employed on board the gallies. I am directed to apply for those guns. Your Excellency will therefore please to give orders for the delivery of them, at this place.

I am quite Satisfied with the explanation of your letter dated the 17th of Janry As I supposed the french Agent was in possession of a Coppy of that letter, & that he might be induced, from some expressions therein contain'd to believe, I had done some unjustifiable acts, as well to his Prejudice as to the public, I only wish'd to satisfy him on that head.

As to public clamours & groundless insinuations which have been industriously propogated to my prejudice, by low, designing men, I despise; a little time will shew the falsity of the many reports circulated respecting this Transaction; at the same time I confess I wish to remove any impressions that may have been made to my prejudice from the worthy part of the community, and will readily own I felt uneasy under what I thought reflected on my conduct in the extract of your letter refer'd to.

I am always ready to give the general Assembly every information in my power on this Subject when required

Sir I received your Excellencies favour of the 10th Instant Directing me to send some Pork to your City I am sorry that I am not able to comply with your orders as there is not one Barrel of Publick Pork at this place I applied to the Comasary of Issues as I understood he had some beef he give me to Know that the whole in his Possession did not exceed one hundred Barrels, And as there is not a Comasary of Purchas at this place to provide more he thought it much less than what would be wanting at this post. However if you should think proper to order him to deliver me what is necessary I will send it down Spedily. The cash I received on your order is nearly expended and as I have information that there will be shortly at this place a number of Horses belonging to the Army Least I should be short in Forage I beg that you would send me an order on the Commissioners of this County that I may receive a supply of Corn Bran and shorts if need require from them. A general order would answer best as I could have some from both the Town & Country. Please if Convenient to send an answer with the Bearer

[John Gibson Jr. Presidt Treasury to His Excellency Thomas Sim Lee Esqr] April 15 Red Book No. 7 Letter No. 184

Sir We inclose you a State of the Tax Account of Maryland to which we beg your Attention; we shall be careful to confine our Reports for Warrants to the exact Amount, and as large sums are due from the United States to the Inhabitants of the State, shall as far as possible appropriate the Continental Taxes thereof within the same, which we suppose will be both more convenient and more agreeable. Cases may occur in which this Rule cannot be adhered to but they will not be more frequent than is absolutely necessary.

The Drafts lately made, and those now making, are intended to discharge as far as practicable, Debts, now owing from the Public, as well as to keep the supplies from failing in the Interim till the State Purchases take effect. The Resolution of Congress of the 18 of March ult will shew reason of including the Taxes of January and February 1780

Sir This will be addressed by Serjeant MacLain, who has inlisted four fine Fellows for Soldiers all Natives, who he carries up to Annapolis to get cloathed & to obtain Blankets if possible for himself and them, complaining he has been obliged to give four Dollars pr

Brown Book No. 2 night for lodging for each oftentimes for want of Blankets, you will therefore be so obliging to order their Cloathing and by all means Blankets if to be had, as they will be very essential for the Recruits. You will also please order the Serjeant to be dispatched as soon as possible, as there is a prospect of his enlisting more men, for which purpose it wou'd be necessary to order him a further supply of Money, with which he may be trusted.

The inclosed Letter from Col° Gunby sets forth Facts which if just calls for Redress, or at least such Attention and Orders as may correct similar Abuses in future or anticipate like complaints of Partiality if found to be unjust, indeed if your Cloathing Act does not limit the Cloathier or place a correcting Power in the commanding Officer the distributions will frequently be complained of.

Sir There is a Quantity of Rum belonging to the Public (& which is much wanting) in your City, it has been represented to the Commercial Committee that the person with whom it is in charge makes a very unreasonable demand for Storeage, & therefore beg your Excellency & Council, to order the Rum on board one of your State Vessells or any other that will deliver it to the Commissary at the Head of Elk, as I intend for Annapolis in a few weeks, will settle the Freight & pay the Gentlem^n who has the Demand for Storage the valuation of any two Gentlemen.

April 15 [I. Taylor, Saint Marys to Gov Lee]

Gentlemen Under noted you have an Acc^t of the Indian Corn (have no other kind of Provisions) by me taken as a Commissioner under the Act of the General Assembly for the immediate Supply of Flour &c. Six hundred bushells I seized as engrossed corn, in January last, It lay along time on board the Vessell in the Ice, that when it was taken out thirty four bushells proved rotten and of no Value, this being the case, I insisted on the Person from whom I had taken it to pay a moiety of the damage, which he agreed to, the money for that part shall give the State Credit for in account for my Commission.

The remaining part of the Six hundred bushells, I stored with Col° Vernon Hebb No particular agreement being made relative to the Price. I told him he should receive what was Customary for storing. When I sent a Craft for the Corn she got only five hundred

forty four bushells & half, so that their was twenty one bushells & half short measure. The damaged Corn in the Vessell and the short measure diminishes the quantity of 844½ to 789 bushells, which is on its passage to the Head of Elk, at 30/ per bushell freight, high as it is was the best terms I could get. [Alex Somervel, Calvert County to Mr. Archibald Golder Clk Committee &c, Annapolis] April 17

Sir A Letter from you, to Mes[rs] Gray, Somervell & Chase was some time past put into my hands, relative to the Collection of Flour &c. for the army; I have only to inform the Committee, that about the first of February last I wrote to the Governour & Council letting them know, that there was neither Flour, Wheat or Rye to be got in this County as I could hear of. I also Inform'd them that I could get some Indian corn and requested them to furnish me with linnen to make Baggs to contain about 20 or 30 Bushels for the more Speedy collection (the roads then being excessive bad) and also desired their Instructions. The above Letter was Carried to Annapolis By M[r] James Morsel our late Sheriff and I having never receiv'd any Answer, Concluded that Corn was not wanting and therefore have Collected none.

[W[m] Whitely Caroline County to His Excellency Thomas Sim Lee Esqr] April 17

Your Excellency & Honours. Agreable to your request of the 28th March I have Called on the Several Field Officers of this County for lists of the men passed by them, and it is with regrett that I inform you, that there is not One recruit inlisted in this County.

Sir This will be addressed by M[r] Edward Hamilton who is desirous of entering into the Army provided he can obtain an Ensigns Commission. The young Gentlemen is a Stranger to me but I

Brown Book No. 2 know his Family to be reputable and his Brother has served under my Command ever since 1776 and is a good Officer from which circumstances and the inclosed Recommendations I am induced to think if there shou'd be any Vacancies in our Line he would be proper to fill one of them. he does not wish nor can it be desired that his Appointment should interfere with the Rank of such Serjeants and others who have applied & have been recommended before and who may be thought worthy of commissions if therefore you should judge it expedient to recommend him for an Appointment to the Board of War I believe he wou'd fill it with Propriety & he wou'd wish to be appointed in the 1st 3d or 7th Regiments if there should be a vacancy in either of those.

[Timothy Pickering by order of the Board War Office to Colo Hollingsworth]

Sir We are Just informed that the troops destined for Reinforcing the Southern Army are march'd, and will be at Trenton this Night, this inteligence (totally contrary to that we had received yesterday, on which our letter to you was grounded) obliges us to desire that you would retain all the Craft in your power at the Head of Elk ready to receive the Troops, and collect as many more as will be sufficient, in the whole to transport about two thousand men, we doubt not your Exertions on this occasion, to accomplish a business of so much Importance in due Season

[Ben Stoddert Secry, War Office to His Excellency Thos. Sim Lee Esqr] April 21 Red Book No. 7 Letter No. 211

Sir We have the honor to inclose to your Excellency, the extract of a letter from the Commander in Chief relative to the March of

Red Book No. 7 the Troops now on their way to the Southward. It was expected that the whole Maryland Line, the Delaware Regiment, a Regiment of Artillery, & the Infantry of Major Lee's corps would have embarked at the Head of Elk & proceeded by water as far as Petersburgh in Virginia; But as this will depend upon the operations of the Enemy in Chesapeak, it is not improbable that they may proceed all the way by Land, in which case they will necessarily be greatly indebted to the Executive of your State to expedite their march towards Petersburg. Should the Troops not go down the Chesapeak, we are aware of much difficulty on account of Waggons, with which they can be but very partially supplied here; the residue to enable them to prosecute their march from Petersburg being to be furnished in Virginia, and collected at that place agreeably to orders already given, from a full expectation that the navigation of the Bay, would not be interrupted.

It gives us pain that the Continental embarrassments, arising from the want of money, obliges us so often to trouble the Executives of the States; but without their aid in emergencies depending on the various events of war, the most fatal delays & distresses will ensue. And it is with real Satisfaction, grounded on the chearful & constant exertions of the State of Maryland, we can assure ourselves that nothing practicable which the public necessities may require, will be omitted by your Excellency, & the honble Council on the present occasion.

We have the honor to be with the highest respect y^r Excellency's most obed^t Most Humble Servt by ord

April 21 [H. Hollingsworth D. Q. M. Gl. Head of Elk to the Council]

Gentlemen Inclosed is a Report of the Flour Wheat Rye, Corn Oats & C^a Received at this post in this Month, as well from the several State Commissioners, as from the State of Virginia and sent on to Christeen on its way to Philad^a Camp & C^t the flour is all sent forward the Forage is not so forward. Occasioned by the want of Baggs which I am not at present able to purchase for want of Cash, we are the more in want of Baggs, as one of the Continental Brigades of ten teams with about 200 Baggs has been in Queen Anns and Talbot Counties Collecting Grain for this State, since the 10th of March. I have applied to my principles in Office, for Cash to puchase Bags in Lew of those and am put off with a desire to apply to this State not only for this but all other expenses accruing by the procuring Manufacturing and forwarding the supplies of this State (while within the State) as also for Casks and Nails for the flour, your Excellencys and Honors, will observe by the letters, which the bearer Mr Wright has with him that the Millers are continually applying to me for those articles which I have heretofore supply'd them with in part and also paid them for Waggoning the State Wheat, to

the Mills, but on settling my accounts with the Quarter Master General up to the tenth of March (which I did very lately) those expences are Objected to, as being out of the Department and belonging to this State, I must therefore beg the favour, of your Excellency & Honors that I may be Instructed and strengthn'd so as to be able to forward this Service, so far my Credit has supported it, but it will become Feeble in a short time if not supported, Certificates will neither pay for Nails, Waggonage or Casks, three Essential articles manufacturing and forwarding Wheat and Flower I am this moment served with the Inclos'd Express, from the Board of War, tho' I received a Letter Yesterday from that Honble Board (directly contrary) as I have not Vessells sufficient for this service here, have sent Express to George Town Newtown and Baltimore for the Craft of those Places, and all others that may be there. I must Rely on your Excellency and Honors, for your support and Assistance, and also to keep look out Boats down the Bay, as there is no doubt, but the Enemy know of this Minuver, and may attempt to Circumvent it, pray send me some Cash, and the Accounts against this State shall come down as soon as in my power, but at present I am much thronged April 21

Letter No. 3

Sir Having just received a Letter from a Friend, that informs me, that the State of Maryland has done me the Honour to nominate me, among other Gentlemen, as a proper person, Subject to the Choice of his Excellency Mr Franklin, to sell their Stock now standing in the English Funds, & transmit the same; I take the Liberty of addressing myself to your Excellency, to assure you, I receive this mark of my native Countries Confidence in the most sensible manner. Nothing can give me an higher Pleasure then to find my warm wishes & poor Endeavours, to serve the Common Interest meet with a public approbation. if I wanted any thing to Stimulate me to the Discharge of my Duty, & inspire me with a fresh love to my Country, & to the Cause of Liberty & Virtue, this Testimony from these, who are actuated by those great Principles would be a Sufficient motive. I know not whether his Excellency Mr Franklin will not find a more proper person among the other Gentlemen, nominated to Him for his Choice, than I am; but still my sense of the Honor done me by the State of my Native Country, & of the obliging Intentions of my particular acquaintance & Friends will ever make me bear in my Memory this mark of approbation in the most grateful manner

By this opportunity you will receive from many the particular State of Europe at this Juncture which is so favorable to the Common Cause as can be wished the neighboring unprincipled Island is brought to the lowest Condition rent & torn within by religious & civil Distractions caused by its malicious Attempt against the United

Red Book No. 29 States she seems at present disposed to acknowledge our Independancy but she will probably do it in the same insidious manner by which she has hitherto conducted Herself & in doing so plunge into fresh Difficulties. However if she is sincerely disposed to Acknowledge the Independancy of the United States (that great stumbling block which her madness & folly have raised) this Groundwork of a general Peace will be laid and we may be once more quiet & happy; for this purpose America cou'd not have trusted the public Interest in better hands than those of his Excellency Mr Adams, no man that I have seen, having a sincerer & truer Love to his Country. I am Confident He will pursue the Common Interest of the Alliance on which the Common Strength & Happiness depends

I mention'd to you Sir, that your Excellency would have perticular details by the Gentlemen, who come over by this opportunity, of the State of Europe if I was to draw a general outline thereof, it wou'd be as follows. The King of G. B. with a corruptd majority in the House of Commons the same in the House of Lords, two or three wicked ministers & a Jacobite favorite, stands agst the Power of France, Spain his declared & avowed Enemies. He insults Holland, Sweden, Denmark, the Empire of Russia & Turkey, who are ready to Confederate against Him as a violater of the Law of Nature, personally dispis'd by the King of Prussia, and Chargd with Ingratitude As Elector of Hanover by his Liege Lord, the Emperor of Germany all Europe wishes to see Him abased his own Subjects at Home distrustful of Him, & declaring that his Influence ought to be diminishd & those who were once his Subjects & that too most cordially & obediently so, now holding Him in Horror & opposing his Malice in the bravest & most successful manner. Surely this man must be humbled the Independancy of America will do it, & this all the insulted Powers of Europe see & I doubt not will either openly or secretly promote, for what was Ever their natural Interest to do, the Insolence of the Court of London has made a political Duty

I Have the Honour to be Sir Your Excellencys Most Obt Hble Servt

P. S. I should be Happy to Execute your Excellencys Command in Europe, if you think proper to entrust me therewith be pleased to direct to the care of Monsieur Joshua Johnson negociant á Nantes

[Thos Richardson, Georgetown to His Excellency Thomas Sim Lee Esqr] April 23

Sir By yesterdays Post I rec^d a letter from Col° Biddle dated Morris Town 13th Ins^t advising that the Maryland Division were under orders to march to the Southward, he expected they would move on the 15th their Rout is by Baltimore, Snowdens, Georgetown, Alexandria &c. requesting me to assist them with Forage as far as was consisttent with the Laws of the State. I apprehend this makes it necessary that I should inform you that there is some Forage in the Magazine here but I apprehend not so much as the Troops will require & request you would consider whether it would not be proper that the Commissioners of this County who have plenty should be directed to supply the Issuing Forage Master here during the present March, provided he has Occasion of their Assistance

I beg leave further to Suggest that the Troops might be benefited by orders being given to the different Commissioners on the Rout they are to march to supply them with Forage, as there are few or no Continental Forage Masters on the Western Shore. I hope the foregoing will not be thought impertinent but if it should I beg it may be imputed to the desire I have to comply with the Requisitions of my Friend & my Zeal for the Publick Service.

[William Smallwood, Portobacco, to Governor Lee] April 23 Brown Book No. 2 Letter No. 42

Sir I wrote you the other day by Mr Hamilton that I had received Advice from the Board of War that the Maryland Division was on the March for Carolina since which I have received no Intelligence respecting them. their route was then announced to be from Trentown by water to Christeen thence to the head of Elk where they were to embark for Petersborough in Virginia if you shoud have any Intelligence of their Arrival at the head of Elk, observe or hear of their passing Annapolis I shoud be much obliged to you for the earliest intimation thereof as it wou'd enable me to form a Iudgment when and where it would be most eligible to fall in with them. I have received no Instruction from General Washington relative to the

rendezvous of such Officers and Parties as may be on Furlough & the Recruiting Service tho it is essential they should be drawn to a point and ordered to hold themselves in readiness to March or embark for Petersborough to join their respective Corps the latter wou'd be most eligible as they may have Baggage not to be conveyed on the March provided Vessels can be Procured. Altho their rendezvous seems essential I cannot with Propriety order before I receive the Generals Commands respecting it which I daily look for I think it wou'd contribute much to the Ease and Dispatch of the Troops to order the rendezvous of those under the above Descriptions at Annapolis and this place as might be most convenient to their respective situations where if Vessels could be ordered the Transportation of them and their Baggage woud be attended with less Expence and difficulty than might otherwise be incurred by the Obstructions which might occur on their March if you shoud approve of this Measure you will be so obliging to give the necessary Order for Vessels to be provided if to be had and advise me thereof it also woud be necessary to provide at these Costs as speedy as possible a Stock of Hats Blankets Overals and Shoes Shirts I am well assured will also be wanting a full Supply of any of these species is not to be expected from the Board of War and Cloathier General those Ordered for this place might come round in the Vessels or be sent otherwise as you might judge most expedient

April 24 Red Book No. 7 Letter No. 35

[Sam Huntington, Philadelphia In Congress to His Excellency the Governor & the Legislature]

(Circular) It is the Duty of Congress to be as full and explicit in their Requisitions as the public Exigencies are great and pressing,

And they are confident that the Citizens of these States are not more desirous to be informed of their Affairs than they are ready and willing to afford the most vigorous assistance. It is unnecessary to mention our Embarrassments, they are known to you; to the means of relieving them we wish your Attention. Red Book No. 7

The whole of the Monies due on the Quotas of Taxes to the first of March last are become of immediate and indispensible Necessity. Numerous Debts have accumulated on the Public Departments and Justice requires they should be forthwith discharged. Large Sums are also requisite for the Purposes of Transportation and to continue the Purchases of Supplies for the Army until the states are prepared to furnish them. On these Quotas Draughts are now making and must continue to be made to the whole amount; nor can a Doubt be admitted of their being punctually answered. If any State should be unprepared, if the Collections are incomplete, not a Moment is to lost. Delay will be Disappointment and may involve Consequences too interesting, too fatal to be hazarded. Should the public Opportunity through Languor and Inattention be retarded and Stopped, should those Exertions which have hitherto rendered this contest conspicuous to the World, be intermitted, The fairest Prospects and most promising occasion may be irretrievably lost. Urge therefore the instant Execution of every Measure which has been adopted, and the speedy adoption of such as yet remain to be taken.

The specifick Supplies required by the Resolutions of the 25th of February last will forthwith become Matter of equal Urgency and Importance. These must be relied on in future as the principal, not to say the only resource from which the Army is to be supported, From the obvious propriety of adopting the Mode there described as best suited to the Case and Convenience of the respective States, As Making a just Apportionment of the Burthens of the War, and as necessary for correcting Abuses in the Expenditure of Public Money, Congress have received the fullest Confidence that the Measure will be approved and successful and by seasonably and amply providing for the Army enable them to act and cooperate as Circumstances may require with Vigour and Decision through the ensuing Campaign.

The Resources of our Country even after a five years obstinate and wasting war are still abundant, and in Articles the most essential scarcely impaired. The Spirit of the People is free to produce them, all that is wanting is an established Medium of Negotiation to be applied in effecting it. Such we are firmly Persuaded will be secured by a proper Attention to the Resolution of the 18th of March last, from which as the Object is not confined to the Purchase of public Supplies only, but extends to the various Transactions of the Community the most extensive Benefit may be justly expected.

The Crisis calls for Exertion, much is to be done in a little Time, and every Motive that can stimulate the mind of Man presents itself

Red Book No. 7 to view. No Period has occurred in this long and glorious Struggle in which Indecision could be so destructive, and on the other Hand no Conjuncture has been more favorable to great and deciding Efforts

We detain you no longer than to mention the Necessity of early and frequent Communications on the Subjects of this Address, and remind you how much they contribute on all Occasions to the Success of Arrangements for the Public Safety.

Gentlemen Having taken the Liberty to write your Excellency and Honours the 25th acquainting of the arrival of the Maryland division at this Place on their way to join the Southern army I am now to inform you that the whole are arrived here except the Field

Officers and Commandant who I expect this day & am sorry to say we have neither vessells or provision (of the meat kind) at this post sufficient for their daily consumption much less for their embarkation) yesterday I was apply'd to from Wilmington by the Commissary there acquainting that the Artillery was there on their way to this place and could not proceed for want of Provisions of the flesh kind. I cou'd not send them any as we have not three days provisions of that kind here. I have apply'd to Mr Ewing late Commissary who assures me he has none but a small Quantity at Mr Jno Pages Commissioner of Kent County, (which seems to be in dispute) I have sent a Vessell this morning to Mr Page requesting the Provisions on any terms not doubting but the State will pay him for such part as is not already paid for and flatter myself of its coming. In the mean time am obliged to send out and procure fresh Shad for the whole Troops this will do a day or two yet. (but not longer) I must therefore beg the favor of your Excellency and Honors to take Immediate order in it & direct as you may think Necessary. I have not half Vessells enough and shall want at least 200 Barrells Pork and Beef but if part cou'd be had, the other might meet them on their way down the Bay shall want a quantity of Pork for the Artillery and put the Baggage which go by Land, by way of Harford Baltimore and Alexandria to Petersburgh, as I am order'd to see them through this State by the Board of War and Q. M. Gl and am also order'd by the Navy Board to have a quantity (24 pieces) of Cannon haul'd from Mr Hughes Furness to Baltimore and to see them forwarded to Philadelphia suppose it may not be amiss to furnish me with orders for the Commissioners of Baltimore, Washington &ca Counties to serve my order with Forage, as it will take at least 24 Waggons for this Service and they cant take Forage from here, nor have I money to buy it, your particulars orders in this as in all other the matters related of, will much oblige Gentlemen Your Most Obedt Hum. I think it my duty to inform you that the first Brigade of Maryland troops will embark to-morrow forenoon. I am directed to call at Annapolis on my way down, where I expect to receive further orders, and Intelligence that you may have respecting the troops on this expedition, I should be extreamly happy in receiving & wish it as timely as possible.

[Geo Washington Head QRs Morris Town to His Excell'y T. S. Lee Esqr. Govr &c]

Sir On the 2^d Instant I received the Honor of Your Excellency's Letter of the 8th Ult^o and also one from the Board of War on the same subject. The information the Council had received, of particular States having made exchanges of prisoners taken by them for Officers belonging to their line, as well founded. It has been done in several instances, tho' without any interference in the business

on my part, and therefore I could not but direct the Commissary of Prisioners on Your Excellency's Application and the Board of War's opinion that it was also warranted by a late Act of Congress respecting Prisoners in the like predicament, to propose to the Enemy the Exchange of Lt Col^{o} Ramsay for Lt Col^{o} Conolly. For my own part I have wished to see the Exchanges of prisoners conducted on the broadest & most general footing, in the order of their captivity, as being the most equitable mode, and that all taken from the Enemy whether by the United or Individual States, should be considered as one, common Stock, for the common relief of Ours according to this Rule. This has been the case with respect to the Prisoners made by the Army in every instance of exchanges under my direction; but the system having not entirely prevailed, Maryland has certainly the same right to benefit her Officers by those of her own capture, that other States had. And the indulgence has not been exercised in any instance in favor of a more deserving Officer than Col^{o} Ramsay. He set out for New York yesterday and would carry with him the proposition for his release. Brown Book No. 1

I have the Honor to be with great respect & esteem Y^{r} Excellency's Most Obed^{t} Servant

[H. Hollingsworth, Head of Elk, to Gov. Lee in Council] May 4

Gentlemen Your several letters of the 29th April 1st & 2nd May came duly to hand by the first, I received your orders on the Commissioners of Baltimore & Washington Counties for Forage, 30 Bb^{ls} Pork & ten Thousand pounds by Mr Wormsley, and by the other 30 B^{bls} beef and pork Captn Price.

have communicated them to Col^{o} Gunby Commandant who is Indefatigable in forwarding the service and writes your Honors on the occasion, as the first Division is not yet embarked (tho' I expect it this day) I cant say how many Vessells may be yet wanted but from the number already obtained suppose we have near enough, and as I mean to urge that the second division should follow the first as soon as possible suppose it may be proper to stop the Impressing Vessells, as there appears to be enough already impressed if they were all forward, and if they should not come forward in time we shall send the Troops down to them by those we have. I would have your Excellency and Honors take no further Trouble about the Provision for this division as we have enough for the present movement but fear Salt provisions will be wanted for the Northern Army. Wheat and flour seem to be pretty plenty. My orders are from Genl Guest to order on the 2^{d} Division as soon as the first are embarked which shall be strictly observed. Col^{o} Gunby writes you regarding the Signals and Troops

May 4 [Ja. Hutchings to Gov. Lee]

Sir Upon my Sloop being impressed the other Day, I wrote to The hon^{ble} Jerimiah Chase Esqr informing him, that my Sloop was not in Condition to proceed down the Bay, and that I must beg the Indulgence of your Excell^{cy} and the Council for a few Days to put her into better Condition, if your Excell^{cy} and the Council insisted upon her going into the Service. I have since put her into a better State, by having her caulked, and I now send her over for the direction of your Excell^{cy} if she can be of any use to or in the Service. But I fear she will be found too shallow and too small for the Service. My Sloop was going up the Bay, but the Fleet coming down, she proceeds to Annapolis, to receive Your Excell^{ys} Orders

I having received no answer from Mr Chase, I fear my Letter miscarried. I thank your Excellency and the Council for letting my Sloop return Home with the Hay

Dear Sir The Bearer hereof Mr Peter Blake will present an order to you from Mr Keyport in my favour for thirty thousand Pounds this Curr^{y} wch you will oblige me much to pay as quick as Possible. Mr Blake has come Express from Virg^{a} for this Money in Order to pay for a Vessel I have bo^{t} part of the money is already paid wch I shall forfeit If the whole is not p^{d} by a certain day, & Mr Keypot gives me every assurance that I sh^{d} have the money for the Blankets the beginning of this Week, under these circumstances I hope I need say no more to Urge you to pay this Bill

May 6 [J. Randall, Head of Elk to His Exc'y Thomas Sim Lee]

Sir Since writing to your Excellency the 28th April, I have dispos'd of the Mix'd Cloth & Shalloon and have purchas'd white sufficient for fifty three Vests & Breeches which was all I could get

in Philadelphia, this is little more than half the quantity wanted I expect to leave this Place To Morrow with a quantity of Soldiers Cloathing drawn in Philad[a] we still want fifteen hundred shirts and five hundred Blankets to compleat the Troops, Including five hundred and fifty Recruits. I had orders on the Clothier General for the whole wanted but it Could not be Comply'd with, it will be needless to trouble you with particulars of the Sale, as I expect to be in Annap[s] in a few days. [J. Swan Baltimore to His Excell'y Thomas Sim Lee Esqr] May 6

Since I had the Honor of being with Your Excellency in Council I have laid Your proposals before the Owners of the Brig Porgey who agree to Keep Her in readiness ten or Twelve days (which I informed them would be Sufficient to get an Answer from New York) to take on board the Cargoe upon the terms propos'd them, the Plank will be a very troublesome article to procure and put on board and will without the Assistance of a number of hands take up almost the whole of the time allow'd for the loading, even after It is collected to one place which induces me to recommend to Your Excell[y] that it be immediately engaged and collected either to where the Vessell will take the other part of her Load on board or the mouth of some of the rivers on the Eastern shore that it may be put on board as the Vessell provids on her voyage

There is money in my Hands sufficient to procure the Plank and have it conveyed to the place You recommend it should be stored at, therefore request Your orders in the matter I have the Honor to be with much respect and Esteem Your Excellencys most Obedient very H[ble] Servant

[Holker, Philadelphia to Gov. Lee] May 8 Brown Book No. 8 Letter No. 34

Sir I had the honor of writing you several letters respecting the Seizure of his majesty's flour in the State of Maryland to which your Excellency has not yet condescended to answer: I shall only observe on this occasion that I am accountable for my transactions

Brown Book No. 8 to Monseigneur De Sartine His Majesty's minister in the Department of the Marine, and that it would be extreamly Satisfactory to be informed of the qualitys of the Wheat & flour seized by the State Commissioners so as I may compare the Same with the returns & accounts of Mr Wm Smith of Baltimore, and also whether any Embezzlements Grants & misdemeanors have been the consequence of that Gentleman's transactions for the King's Service.

Not receiving any answer from your Excellency I directed Mr Smith to transmit the resolve of Congress of the 11th March last relative to a Supply of 15000 Barrels of flour and to request from the Supreme executive Council a decisive answer thereon. Mr Smith informs that you have been pleased to direct the Commissioners of the Several Counties to restore to him the provisions seized, but that it is not in your power to fix the time of the delivery of the remainder of the flour alloted for the French by the State, & that you will endeavour to have it done as soon as possible.

Your Excellency & the Honorable the Council must be sensible, that the Supplies of fleets & armies, are of so great importance, that the persons to whom his Majesty's Service is Entrusted, cannot place sufficient dependance on such an answer; that plans or operations for the Execution whereof, the demands of 15000 Barrels of flour from your State have been made & granted by Congress, cannot take place, if assurances are not given that not only provisions can be obtained, but are actually delivered into the hands of my agent in your State. it is on this sole footing, that his majesty's commanders, can concert or Enter on the Execution of any naval operation whatever, it is therefore my duty to request, that Your Excellency and council, will please to inform, whether your Situation will permit you, to comply with the aforesaid resolve of Congress, or whether you'll permit Mr Wm Smith to continue his purchases to the amount of 15000 Barrels of flour, I supplying him, with the necessary means to prosecute the same forthwith, as your answer is of the utmost consequence, I hope, it will be attended with no unnecessary delay: I shall only add, that on application to the Governor and Council of this State, they have not hesitated to empower me to direct my Agent here, to purchase the provisions demanded by congress & to Employ to this purpose all the Means which I should deem most Effectual for the King's Service

May 8 Brown Book No. 3 Letter No. 17 [Mordecai Gist Annapolis to the Honble Josia Beall Esqr]

Sir The Resolves of the Honble The House of Delegates on the second reading of the Address of the Military Officers of the State has been communicated to the Maryland Division, who are truly sensible of the politeness of the House, and think themselves complimented by the very flattering Terms in which they are mentioned; but as the meaning of the Resolve is rather ambiguous, and the

Rights of Subjects serving in Military capacities left undefined it is the wish of the Gentlemen of the Line that the Hon^{bl} House will please to relieve them from their present State of suspense, by explicitly declaring whether they are considered as Aliens & Mercenaries, or entitled to the privileges of Free Citizens relying upon the justice of our claim to the latter, we beg leave to submit the matter to your farther consideration Brown Book No. 3

[Wm. Aisquith, Baltimore Town, To His Excellency Thos Simm Lee Esqr] May 8

Sir At the request of Mr George Letsinger, I have to Inform you, that some time in the first of April Last I apprehended two men, one by the name of Dickson the other John O'Neale on Suspicion of Robing John Jones of Philadelphia County in Pens^{a} of sundry Goods, it appeared to me that they were the persons that Committed the Robbery by an Advertisement of Mr Jones in the Pensilvania papers. they were both Examined by Mr George Londonburger one of the Magistrates of this County, for the feat aforesaid who Committed them on Suspicion, at the same time desired me to write to Mr Jones, and Acquaint him of the affair, which I accordingly did, and acquainted him that they could not be Long Confined in Jail on Suspicion only, and that he would come down as soon as possible, or write me an Answer whether the things taken with Dickson be his or not but have not received an answer, nor heard any thing further about it, and I dont believe Mr Jones will give himself the Trouble to come down for the Trifling things they have, that appeard to be his but whether they are or not cannot say. I am told that Dicksons real name is Kelly and wants to Inlist into the Service the Magistrate ses he cannot release either of them without your Excellencys sending up an order for that purpose before the next Special Court, theres nothing against Either the persons as I know of more then what I have said above, and should be Glad they could be released from Confinement.

Your Excellency will be pleased to Excuse my freedom in this Affair.

[Regrets he can not send money but has had the accounts for collection for two weeks only. He will begin to collect them soon and hopes to bring in a tolerable good sum, He thinks he is not bound to pay over collections until July 1.]

May 11 [W. Smith, Baltimore, to His Excy. Thos. Sim Lee Esqr]

Sir I am directed to acknowledge receipt of a letter from the Council dated the 8th Instant sign'd J. T. Chase Prest addressd to the commissioners of Baltimore Town, inclosing a resolve of the general Assembly respecting a Loan of two hundred thousd pounds. On receipt of this letter the inhabitants were immediately convened, and the requisition laid before them. It appeared, unanimously, to be the wish & desire of every one present, to comply fully with the demand from the assembly, but the great scarcity of cash amongst the trading people here at present, has prevented their complying so fully as they wish'd to do, for so Laudable a purpose. Inclosed you have a list of the money now sent by your returned express amounting to £100,845..0..0 which is the whole that is yet collected you may I presume expect the further sum of Thirty or forty thousand pounds more, in a few days, you may rely on every thing being done to promote this business that possibly can.

You'll please to observe there is £593..13..4 hard money amongst that now sent, which the several subscribers agree to receive again either in Specie or continental at Sixty for one. Many persons have offerd to contribute on this occasion, provided they may be allow'd to pay in such kind of goods as may be necessary for the officers & Soldiers.

When the collections are compleated you shall be furnished with the list of the whole the present being imperfect. Many persons having only paid in part

[Dan'l Jenifer, Portobacco, to Gov. Lee] May 13

Sir I some time ago committed a certain Joseph Thompson and his Wife to the Jail of this county on Suspicion of their having Robbed Mr Thos Reeder of a silver Watch and a considerable sum of Money As the proof I believe will not be suff^t^ to convict them and Thompson wou'd make an Excellent Soldier and is willing to go as such. Therefor should be glad that your Excellency, and the Council wou'd take the matter into consideration & either grant a pardon or order a Nole ꝑ seq^r^ which to your Excellency shall seem meet.

[Henry Dickinson Caroline County to His Excellency Thomas Sim Lee] May 13 Red Book No. 26 Letter No. 54 (See Liber C C No. 22 p. 102)

Honourable Sir I received your favor of the 11 Instant by the Express, and am sorry to hear the State is in such great want of money. I have about forty thousand pounds in my hands, which I wish you had, but have been so Poorly for sometime Past that I am not able to Carry it to Annapolis, and you have not directed me to pay it to your express, nor indeed had I have Choose to have sent it by him, he had no way of Carrying it, as he had nothing to carry it in, and if he had, should have thought it imprudent to have sent it by a man who appears to me to be too fond of Spirits, unless a Perticular Order from you to that Purpose. if its in my Power to get any Person to day or to morrow that I can Trust will send it over to you, but should I not be able to get any Person, I hope you will send an Order for it. I suppose you expected I had a much Larger sum in my hands, but the late Sherriffs has paid of their Balances in Certificates, and there is only three Collectors has undertaken this Present Collection of five pounds, two of which has paid off in Certificates and the other I hear, has got Certificates Sufficient to pay his off so that I immagine I shall not receive much money, untill all the Certificates are brought in.

Your Letters sent by the Express for the Different Collectors will take care to forward & will endeavour to Compell immediate Payments from them all. but I shall not be able to compell Payments unless the Assembly will oblige the Commissioners of the Tax to return the Collectors Bonds to the General Court, instead of giving the Bonds to the Collectors themselves to return, which they take care not to doe. for on application to the Clark to put several of their Bonds in Suite for the last Payment, I found there was only three return'd for this Shore, and them Complied with. the Late Collector of Kent County has made me no Payments at all, nor have never seen nor heard from him and his Bond was not return'd, so that no Action has been brought

Dear Sir Captain Dorsey of the Maryland Artillery waits on you for a proportion of the Money rais'd in Baltimore for the Officers

Brown Book No. 3 of the Maryland Line. Nine Artillery Officers and four of Infantry, march with the Ordinance & Stores, who will be in immediate want of money to defray the expences of their march to Richmond, and can receive it by the hands of Captain Dorsey. I think it advisable to forward the residue to Richmond, to be delivered into the hands of the Regimental Pay Masters in proportion to the number of Officers, who will receive it from the hands of the Paymasters & become regularly charg'd therewith.

May 15 Red Book No. 26 Letter No. 152 [U Forrest Lt Colo Com'dr Annapolis to His Excellency Govr Lee]

Sir There are in this City between twenty and thirty Continental Soldiers who require the Assistance of a Physician about one half of this Number are ill of trifling complaints and will not I apprehend require much medicine or care to restore their Health; the Remainder, say about fourteen, are exceedingly Ill, will require fresh Provisions and Attentive Care. I have order'd the Continental Quarter Master at this Post (Mr Bullen) to Procure Comfortable Barracks and Accomodate them with wood, and must request that your Excellency will order to be deliver'd to him what Mattresses there are in the State Store, with a few blankets for such as are without, and sheets for those who may require them, exact returns of which I will have the Honor to hand in, so soon as they can be made out, I must also request that you furnish a sufficient sum of money to Procure fresh Provisions, Vegetables &c for those whose situation render Salt Flesh improper, and that your Excellency will be pleased to appoint some Physician to Attend them, Doctor Murray has hitherto done it to perfect Satisfaction, but I apprehend that Gentleman could afford and might be got to attend them on less expensive Terms.

[H. Hollingsworth, Head of Elk, to the Council] May 17

Gentlemen The principle part of the troops having gone on to the Southard, gives me leisure to Examine a little into the State of the Wheat and flour at this post and its neighborhood (on State account) inclosed is an account of wheat and Flour received at this post since my last the greatest part of the Wheat is manufactured and now sending on at the time the second request was made to me for flour, by the Board of War being at George Town on Sassifras river, when I rec^d^ their request (which was very pressing) Immediately ordered a quantity of Flour, 60 odd Bb^ls^ then at George town to this place and from thence to the Army, this I did from the Urgencie of the case, as it was the most convenient to be forwarded since which a dispute has arose between Capt John Ward Veazy dep^ty^ French Agent, and the Commissioners of this county about the flour Captn Veazy says tis a purchase of his as French Agent the Commissioners say they had seized it, and it must be receited for to them. am sorry to trouble your Excellency and Honors with this matter but wish to know whither the flour thus sent on to the Army, must be replaced with other Flour (from here) supposing it to be bought for the French Agent as above if 'tis necessary it shall be replaced, if not shall receipt for, to whom it was recēd of. There is also large quantities of Ship Stuff in the Mills near this place made out of the State wheat, which I apprehend as the ensuing crop of wheat, is not so promising as could be wished for it would be of great use to the States to have Baked into Ship bread, and as there is two large Bake Ovens at this place entirely unoccupied (since the commencement of the War) submit it whether they might not be employ'd to advantage this State, as these Bake Houses are near the Landing where the wheat is all landed each miller could deliver these ship Stuff at the Bake House as the waggons come for wheat without any additional expence of waggonage. there is a number of the scippers and owners of the Vessells, which deliver the State wheat and Corn here that apply to me for their Freight and in several instances, the commissioners have requested me to pay the Freight, this I have not done for the two following reasons: the not having your orders for so doing, and not having Cash to do it with, as the Captains and owners

May 17 of the vessells seem much disappointed at not receiving their freight 'tis submitted where they ought to be paid here or not, as they all bring Bills of Lading of the quantity and quality of what they bring, and in many instances think it a hardship to return for their freight

P. S. Major Lees Light Infantry are Just now arrived here the Vessells & C^t^ are all ready for their Embarkation

May 18 [Solomon Stympson, Mount^ry^ County to Gov Lee]

May it Please your Excellency I have sent by Mr Edward Jones the Duplicates of the Last Purchase made by me and as I imagine the Assembly is Raised by this time of course my commission is at an End and I think very Little more could be purchased in my Nighbourhood till made the whole amount of my Purchase is three Barrell flour Quantity 6.0.0 139 Bush^l^ wheat 345½ Bush^ls^ Rye and 3569 Bushells corn, the Orders I have Received on the Collectors and the Publick Acts is as below State by which the Ballance due to the people appears I find in Waggoning the corn that there is Loss in the Measure sometimes a half a Bush^l^ in a Load and also in Shelling where they have Measured in Ears. I want much to be Directed what way I shall Settle with the Waggoners for carrying the corn as they seem much against paying for the Loss in Measure and Also with those I employed to Shell for both Partys are Ready to Prove that they suffered no wilfull waste nor Suffer any Loss by Neglegence I do not Expect from what I have seen that the whole Loss will Exceed Eight Barrell or thereabout the Wheat I have got Ground and the Greatest part sent to Georgetown I have given the Brawn for Packing and Grinding what Barrells I have got is at £3 p Barrell there is a few more wanting and what Price they will be at is uncertain I do Expect to have the whole of my Purchass down in two weeks

May 19
Red Book
No. 7
Letter No. 37

(Circular) Sir Congress have received authentic information that his most Christian Majesty is preparing to send a powerful naval & land force to some part of the continent of North America. This force generously calculated either to produce a diversion in our favour, or to forward the operation of our arms by being directed to the same object, may either by our exertions be made the means of delivering our country in the course of the campaign from the ravages of war, or being rendered ineffectual thro' our supineness serve only to sully the reputation of our arms, to defeat the benevolent intention of our great ally & to disgrace our confederacy in the eyes of all Europe.

Every State that reflects upon the depreciation of the currency and their own deficiency in the payment of their taxes must necessarily conclude that the treasury is exhausted. The military departments are at a stand for want of money to put them in motion. Congress have no resources but in your spirit & virtue upon these they confidently rely. You know the value of the prize for which you contend, nor need you be informed how much you are interested in a speedy termination of this distressing & expensive war.

But as the smallest disappointment in the requisitions they make may be attended with most serious consequences, they have endeavoured to limit their demands as not to exceed your power to comply with them.

The sum for which you are called upon by the within resolution they flatter themselves you will furnish to the treasury by the fifteenth of June at farthest without neglecting to discharge the orders that have been drawn upon you for the whole of which you will receive credit on your account of taxes due on the first of March last.

As this money is absolutely necessary to put the army in motion independent of the purchase of provisions, we trust you will by no means remit your attention to the forwarding your quota of supplies, which the present exigency renders more requisite than ever.

It may not be improper to suggest to you, that if a strict and immediate collection of taxes shall be insufficient to procure the necessary sums within the time limited, it may perhaps be more speedily obtained by loans.

Congress for the greater dispatch have thought it expedient to appoint a committee to assist the commander in chief in drawing out supplies. As their powers will be inadequate to the purposes of their appointment, unless they shall derive their force from the States to whom they will be under the necessity of applying, They most earnestly request you if you should find it inconvenient to

Red Book No. 7 continue your sessions to lodge such powers in your executive or some part of your legislative body, as will enable them at this interesting period on the application of the committee to call forth the resources of your State.

Congress trusts that these requisitions will not appear unnecessary, when compared with the information on which they are grounded. In the importance of which they doubt not that you will find a sufficient apology for the demand, and the warmth with which they intreat you to carry these measures into immediate execution

May 19 [H. Hollingsworth D. Q. M. Gl, Head of Elk, to His Excellency, Thos. Sim Lee in Council]

Gentlemen The flour received of Capt Nutter is so much injur'd both in quantity, and quality, that I have thought it most Advisable to store it at this place, until your further orders are received on it, my Principle reason for this is, that as it is going to Philadelphia, or the army on State acco^t Experience has taught me, that (bad as it is) the State would not get Credit for its full worth, as the Casks are very bad. The flour both sour and musty, many of them near one third and some near one half out. this being the case it would be condem'd by the Commissarys spurn'd at by the Soldiers and most like let lay out & wasted & be entirely lost, and as I had taken the Liberty to write to your Excellency and Honors, regarding the Ship Stuff at the Mills, in this Neighbourhood, that it might be Baked to Advantage. I think it my duty now to recomm^d that this flour be mixed with the ship stuff and baked into hard bread, which will be useful for our fleet or Army, it will make the Bread much better or at least be better receiv'd, and be a saving to this State. I have therefore stored it here contiguous to the bake house untill your further orders, if 'tis thought best to send it on, it shall be done Immediately, if to bake it with the ship stuff. I can set the Ovens to work in a few days

Sir I am directed to acquaint you that there being but one Delegate from Maryland attending at Congress that State is not represented.

That Matters of great Importance are now lying before Congress, which require the United Councils, and vigorous Exertions of all the States; and it earnestly requested that Maryland may be represented in Congress as soon as possible.

Sir In the Spring of 1778 There were several parcels of Goods on Public account arrived in this State addresst Mr William Lux Continental Agent. Among others which arrived at the Eastern Shore Inlets, were 2 Bales Buckrorms, 2 Tierces and one hhd Medicine markt as below which it seems never got to head Quarters

As these Goods were Carted up to Cambridge and from thence taken on board one of the Galleys (Capt. Matthews) to be forwarded to Elk, I am inclined to think some, if not all of those missing must have been received in the public Stores at Annapolis.

Doctr Bond informed me some time ago that he saw a hhd of medicine which answered the discription of one of the missing exactly. As the public are now in want and have sent the Bearer Doctr Wilson down on purpose to search for them. Your Excellency will no doubt have Enquiry made, and if found, deliver them. I have made a note at Bottom of the Contents of the hhd which if it answers to the one seen by Doctr Bond amounts to a certainty it is the same we want

Sir I take the liberty of sending you the inclosed Copy of a Letter from Mr Joshua Johnson to the late Governor, which will be forwarded you by Genl Gist. The Occasion of it, is this. One of the Young Gentleman alluded to Mr Beavet is arrived in the Tom Johnson, his desire is to get into our Army. his Zeal has hurried him so far as to induce him to quit Europe not only without other necessary Letters of recommendation, except one I have from Capt: Robinson at Nantes, but even without the means of support, should he fail in his intentions. He is an entire Stranger to me; but I have inquired of him from Mr Stewart who came in with him & he gives him a good Character. Upon mentioning the Affair to Genl Gist he kindly and I may say humanely undertook to recommend him & endeavour to procure for him such Commission as our present regulation of the Army would admit. He is young & modest, and I do believe from what opinion I can form from the little I have seen of him will not be wanting in gratitude or duty for any Favor confered him. If in your Power to assist his intentions I hope you will. He has been bred to the Law but as inclination prompts him to the military Line he may with a little instruction & experience make a

as may be nessesary for their immediate use they have no objection to, but they cannot think of admitting any kind of Traffick whatever. Sir I am this moment favor'd with yours of the 24th You should have been furnished with the information wanted respecting my purchase for the Marine of france Long ere this, had it been in my power, but my agents for Kent County (where the principal part of that purchase was effected) advise me that as late as last week, the comrs for seizing flour in that county alledged they had not recd any instructions for the delivery of the French wheat & flour seized by them, this circumstance has prevented me getting returns, as their purchases could not be ascertained with any degree of certainty before the delivery. From the best information I have hitherto obtained, I expect the whole of my purchase will amount to nearly 30000 Bushells of wheat, this I suppose will make 5000 barrells of flour. add to this about 2500 bbls of flour, or perhaps something upwards, say in the whole 7500 to 8000 barrells, some part of which is in the hands of the Commrs. or perhaps sent forward to the army. For a week or 10 days past considerable quantitys of flour has offered at this market, should it continue to come in, I will engage as much as I possibly can, but at present I am not in cash for that purpose not

May 27 expecting it necessary. I will however continue to go on, till I receive your orders to desist. had I cash I have no doubt I could procure a considerable quantity.

May 27 [Robert Harris To his Excellency Thomas Sim Lee Governor of the State of Maryland and the Honourable the Council of State.]

The Memorial of Robert Harris of Baltimore Town Humbly Sheweth to Your Excellency and Honours.

That Your Memorialist and Several of the Inhabitants of the Counties of Baltimore and Harford from the Severity of the past Season and other unavoidable Causes were obliged to consume the Residue of their last years Crops of Indian Corn and from the known great advantage of having it upon their Plantations in preference of wheat or Wheat Flower and from the present almost unpracticability of obtaining that so beneficial an Article upon Deliberation conceived an exchange of Wheat Flower with a different part of this State where less quantities of Wheat was raised would be the most probable and advantagious Method of furnishing their Families with such quantities of Indian Corn as was absolutely necessary for their support not apprehending it by any means contrary to the Laws of this State to Exchange or Barter Articles prohibited to be exported out of the State for other prohibited articles within this State for the necessary consumption of their Families. In pursuance whereof they agreed with the Master of a small Schooner Boat to transport a small quantity of Wheat Flower consisting of Forty seven Barrels from Baltimore Town up the River Potomake and to return such quantity of Indian Corn from thence to Baltimore Town as might be procured by your Memorialist therefore And that Your Memorialist was entrusted by the other Gentlemen to make the exchange In Consequence whereof the Flower on the 24th Instant May at Mid Day & from a public warf was laden on Board the same Schooner in Baltimore Town and that upon the evening of the 26th Instant for the want of a favourable Wind to stand down the Bay Your Memorialist put into the River Severn for a convenient Harbour where a Certain William Middleton upon your Memorialists declaring he had Wheat Flower on Board the Schooner from an apprehension of Your Memorialists intentions of conveying it out of the State Seized and brought your Memorialist to this City where at present the wheat Flower and Vessel is detained From the State of the above Facts which are strictly true Your Memorialist apprehends that the Vessel and Flower cannot be legally seized and de-

tained and consequently after trial would be permitted to pursue her intended Voyage but as such delay must frustrate the Intentions of the owners and tend to distress their several Families Your Memorialist apprehends your Excellency and Honours taking into your Considerations the above Stated Facts and being fully satisfied of the truth thereof would in your wisdom direct that your Memorialist be permitted to pursue his intended Voyage either with or without your Memorialists giving Bond to exchange at the Place mentioned or to be answerable for the Vessel and Flower if Condemned by the Court of Admiralty your Excellency and Honours taking into your Consideration the above Case of Your Memorialist and doing therein as you in your wisdom shall seem right it shall engage Your Memorialist ever to pray. Sir A few Days will consume all the Salt Provisions in our Magazines, little in this part of the Country and no Money to buy it with. the severity of last Winter and backwardness of the Spring will deprive us of any Grass Beef till the latter end of July or begining of August. Should we have Assistance from our Allies as is certainly expected, every possible exertion of the States will be necessary to feed the Army. have therefore to beg the aid of your Excellency and Council to adopt ways and means to secure all the spare Salt Provisions in the State. I obtained an Order from Congress early in April for One Million eight hundred twenty two thousand five hundred thirty three Dollars and thirty ninetieths payable to my Deputies agreeable to indorsement, this Money is to enable them to pay part of their old Debts, and secure all the Salt Provisions they possibly can. should their purchasing be contrary to the Laws of your State, would wish your Excellency & Council to give them permission, or order your County Contractors to secure all the Salt Provisions within their respective districts. The requisitions of Flour made by Congress from the States for the support of the Army will not be Adequate to the Consumption, therefore they should make an Additional demand.

We hourly expect to hear of the French fleet being on our Coast, every good man here wishes their first Object may be Charles Town, if they are not there very soon, I fear the Consequences shou'd they come to New York, I have not the least doubt but two weeks after their Arrival within the Hook General Washington will be completely possessed of the City of New York and its dependencies and that I shall be able to aggregate such a quantity of Salt Provisions as will give our Army three months Supplies, and procure a sufficient Magazine of Salt to serve the Continent two years. We had two different Accounts of the Arrival of the Fleet off Sandy Hook but it is yet premature.

May 27 I beg leave to inform your Excellency & Council that you have the warm Acknowledgment of the Commander in Chief for your Exertions in forwarding Supplies, and it is greatly owing to you that I was able to feed the Army with Bread thro the Winter, and be assured I am happy of having an Opportunity in all Companies of declaring how much the United States are indebted to you for the Supplies render'd

[Luke Marbury, Nat. Ramsey, Edwd Tillard, Aa Giles, Jno Eccleston, Long Island, to His Excellency Thomas Sim Lee Esqr.]

May it please your Excellency We the field Officers belonging to the State of Maryland, Prisoners on Long Island in behalf of the whole of the Captive Officers from that State, beg leave to Express our Gratefull sence of the Humane, and Generous Attention, paid to our distressed Situation, by that Legislature, at the Head of which you preside; an intimation whereof we have lately received by Lieu^{t} Col^{o} Ramsey. In Consequence of some enquiries made by him in New York antecedent to his going out on Parole, we as well as he, conceived an Idea, that a pass port could be Obtained, and Liberty granted for a flag to Come round to New York with Produce, which might be sold in that Market, in order to raise money to discharge our Board, and Other Contnngent expences; But upon our Making a Regular Application on that Subject to the proper Authority, we have received through the Commissary General of Prisoners, an Answer in the Negative, a Copy whereof we beg leave to inclose you. We therefore earnestly entreat that your Excellency may be pleased (agreable to the powers with which you are invested) as soon as possible, to transmit us a Supply in Specie. We esteem it unnecessary to mention how pressing our wants are, they are already known, and we bear them with less regret, as we are Convinced our Country wish and are taking every Step to relieve them, By the Answer which we have had the Honour to receive from New York, your Excellency will perceive the great probability, that the Officers in stead of receiving billets, will shortly be Obliged to procure and bargain for their own Boarding; in which case we would beg leave to Observe, that each Officer being supplied with a few Barrells of Good flower, and a sufficient Quantity of Bacon Hams, for his own Consumption, would have a great influence in procureing, and Continuing him good Quarters, and we Apprehend, that your Excellencys permission together with granting a flag to any small Coasting Vessell for that purpose, agreable to the Liberty in the enclosed letter expressed, would be Quite Sufficient without any formal passport, we take the liberty of Hinting this Idea, in as much as we presume a Quantity of those Articles are already provided, and Can

be forwarded in a very Short time, and we must Acknowledge that even a Small Supply of any Kind, either Victuals, or money, would at present be very Acceptable. Red Book No. 26

The former recommending to those of the States where Debts are due to the Inhabitants from the Quartermasters & Commissary's Department, by Notes, or Certificates given as mentioned in the Act; to make Provision for discounting & discharging such Debts by empowering the Collectors to receive them in Payment of the Taxes due to the first of March last in the Manner prescribed in the Act. It is hoped this mode may prove beneficial in those States where considerable Debts are due under the Circumstances above mentioned, and in those States only can the Act be properly applied.

By the other Act of the 27th you will be informed of the Measure adopted by Congress to equip for Sea the naval Force of the United States with the utmost Expedition as also their recommendation to the several States to adopt the necessary Measures for promoting Harmony & forwarding the common Views of France & America as expressed in the Resolutions enclosed; which it is not to be doubted will meet with due Consideration & Attention from the several States, and receive the necessary Aid of the Legislatures to carry the same into Execution as speedily as the nature of the Case will admit.

Sir Agreeable to your request I have applied to a number of the Inhabitants of this County to lend money to the State, I shewed them your Letter together with the extracts of a letter from Congress, and urged them to comply, but have hitherto failed of Success. they say they would willingly lend, could they command the money, but their sold dependance is on the Sale of their Tobacco to raise it, which the present Stagnation of that Business renders Impracticable. They are looking forward to the payment of their Assessments, and I am well convinced three fourths of the Inhabitants have no way of making their payments but by the Sale of Tobacco. a few Individuals I believe have Cash by them for that purpose but will not part with for any other. had I been Impowered to give receipts for any money I might borrow to be deducted out of their Assessments, it would have Induced such as have it by them to lend, but otherwise twould be needless to apply for it. This I mentioned to Col^{o} Fitzhugh the other day and he promised me to write you on the Subject.

Should it be thought expedient to borrow on these terms and I am directed to Attempt it, will Chearfully undertake it, altho at this time it is very Inconvenient to me

[George Washington Head Quarters Morris Town to His Excellency Govr. Lee]

Sir By a letter, from the Honorable the Committee of Congress at Morristown, which this accompanies, Your Excellency will find, that those Gentlemen and myself, after maturely considering the

matter, deem it essential to the success of the measures in contemplation to be carried on against the Enemy, to call on the States for certain Aids of Militia, in addition to the requisitions for Men already made, and that they should be at places of rendezvous apponted by me, by the fifteenth day of next month. The aid requested, in this instance, of your State, is founded on a principle of apportionment common to all the States from New Hampshire to Maryland inclusive, (the others on account of their distance and the operations in the southern quarter not being nor called on) and is Stated as *Two thousand two hundred and five* Rank and File. This number of Militia *well armed,* and equipped in every other respect for the Field in the best manner circumstances will admit, under proper Officers, I wish to be at the Head of Elk at the time mentioned by the Committee, which appear to me a suitable place for their rendezvousing in the first instance, and from whence they will proceed, on my orders as occasion may require. It will also be material, on account of disciplining and organizing the men, as well as on account of public economy, that they should be formed into full Regiments. If this is not done, it will render our arrangements extremely difficult and irregular, and will add by greatly encreasing the number of Officers, very considerably to the public expence. I would beg leave to observe, that I think the whole number of Militia requested from your State should be comprised in four Regiments. This additional aid will not, I trust, and erneastly intreat, impede in the smallest degree, the filling up the Regiments of the State, by draft, to their full Complement, as requested by the Hon^{bl} the Committee in their letters of the 25th ult^{o} This is a point of such vast importance, so absolutely essential to give the least prospect of success to our operations, and indeed on which they depend, that I could not forbear mentioning it. If the Regiments are compleated by drafts, it is possible our demands for Militia may be a good deal diminished, but this must be governed by Events, and therefore for objects so very interesting, so important as those are to which we at present look, we should provide whatever may be possibly requisite

Sir Inclosed is copy of a letter I yesterday received respecting the forwarding of Forage to Elk which I do myself the Honour to transmit your Excellency that measures may be taken to comply with this requisition

June 9 Your Excellency well knows that I have long since resigned the Quarter Masters Office, and I cannot think of resuming it under the present System however if I can render my country any Service in this or any other matter at this critical and alarming period shall chearfully do it being consious that there never was a time since the commencement of this contest when the exertions of the Citizens of America were more wanted

June 10 [Thos. Richardson, Geo. Town, to His Excellency Thomas Sim Lee Esqr]

Sir By this days Post I received a Letter from Owen Biddle Esqr Deputy forrage Master Genl & Inclose you an extract of it by which you will see that forrage is much wanting to the northward & like to be still more so. the State of Pensilvania & Jersey have been so much exhausted by the two armies that they Cannot be supported from them, but must look to the Southward for Suplies, the Forrage Master Generall has requested me to apply to the different agents of the State to forward the Forage they have collected, but they would not be Justifiable to send it forward in consequence of my applications. I can therefore only beg you to take the matter into Consideration whether it would not be for the good of the Service to order the different agents, to ship of the Forrage they have on hand, or may be able to Collect as Speedily as Possible. I am confident much depends on their being Speedily Supplied both with forrage & Provision & doubt not but your Excellency & the Hon^{r} the Councill will adopt the most Salutary measures, to give them the needfull assistance

P. S. Mr Becraft has ab^{t} 4000 of Corn & Rye & 33 Bb^{ls} Flour collected by the commissioners in Chas County in Mr Mushits hands 1900 Bush^{ls} Corn Mr Dyson & Mr Douglass have some.

Mr. Thomas Beall informs me the late Sheriff of Fred. County has been with him and informed him that he has orders to deliver him what wheat Corn & Rye he Collects, that it will be down in a few days. Should it be found necessary to be Sent to the North ward would it not be more expedient to order Mr. Beaty to send it to Baltimore as the Risque of Shipping from here & the head of Elk would be avoided the difference in land Carriage Counter Ballanced by the difference of the freight & Craft may be more Readily got there to carry it than from hence

June 10 Brown Book No. 8 Letter No. 28 [Holker Philadelphia to His Excellency T. S. Lee]

Sir I received the favor of your letter of the 25th ultimo respecting the 15000 barrels which are to be compleated in the hands of Mr Smith for the use of the royal marine in consequence of the late assembly of Maryland & with it a coppy of your letter to that Gentleman empowering him to purchase flour for this purpose I am sorry

Mr Smith did not furnish you the account of his purchases but I cannot conceive how this cou'd have deprived you of the Knowledge of the quantity he was master of since the Commissioners of the State had Possession of the whole for several months & could better than him, have given you the fullest information. Brown Book No. 8

Mr Smith will undoubtedly do everything in his power to second your views & request & I have sent him & will Supply him with whatever quantity of bills on France he can negotiate at 45 dollars per 5 livres tournois, so as he may purchase all the flour that offers at market & what he can contract for with the millers, but as I perceive that his Efforts at this late period can realise but very small quantities we cannot place dependance on them & I must therefore humbly entreat you to comply with all possible speed with the resolve of the Assembly & that you'll please to order four or five thousand barrels into the hands of Mr Smith who will store the same for the use of the fleet, which may very soon be Expected & which Entertains the strongest hopes of being amply supplied when here. Should you deem Necessary that I shou'd forward you, some bills on France I shall readily do it, on account of the flour to be delivered, on your Excellencys application to me, or Mr Wm Smith in Baltimore

[J. Swan, Baltimore to Gov Lee] June 11

I had the Honor of receiving Your Excellencys letter of the 9th Current recommending Captn Kelty to take charge of the flag Brig to New York, in consequence of which I applied to the Owners, who inform'd me they had appointed a person to take charge of her some time ago, that He had been at a considerable expence and trouble in fiting the Vessels for Sea, that in justice to him they could not take Her from him, nor could they appoint any person for that voyage upon an uncertainty, who would not continue in their employ after Her return, finally that they had lost a part of the best season for sending Her to Holland, and would keep Her no longer in a State of Suspence, that they would begin to load Her on Monday for Holland, without they were put upon some certainty, I requested they would give me one day, and not begin to load untill Tuesday that I might have an Opportunity to consult Your Excellency, by to morrows post, they require a demurage of five pounds hard money ꝑ day, untill the 20 Days for Loading commence, laying a stress upon the time she hath already been detained. At present I think the uncertainty such that I would prefer running the risque of geting another Vessel altho: I know of none that will answer the purpose so well, yet a demurrage of five pounds ꝑ day will soon increase the freight considerably, and the Enemy I apprehend wish to gain time untill they know the destination of the French fleet, expected on this Coast.

[Benjamin Rogers, Baltimore County to His Excellency Thomas Sim Lee Esqr]

Sir Agreeable to your request of the 26th Ultimo I made application to a number of the Inhabitants of this County both in and out of Baltimore Town to lend money to this State for the purposes contained in your Letter, but to my great disappointment have not been able to procure one Shilling from them. The General cry was that they had no money nor could they get it, otherwise they would have lent it chearfully for so good a Purpose. If it should be in my Power hereafter to do any Service in any matter your Excellency

& Council should want done here, shall always be ready to do my part. I Return you many thanks for the favourable Letter you wrote Mr Blain in respect to myself June 15

[Jno. Thomas West River to His Excellency Thomas Sim Lee Esqr] June 15

Agreable to the Direction of your Excellency & the Council I have applied to such Persons as I thought could & would lend Money to the State on the present emergent Occasion, but have been so unfortunate as not to be able to procure a Shilling, not that there was any unwillingness to lend, but I beleive from a real Scarcity of Money among us.

I should have done myself the Honour of making my Return blank as it is, in Person, but am prevented by Indisposition

(Circular) Sir Congress repeat their applications to your State. They would willingly hope that their former representations have not been ineffectual and that the States are pursuing measures to enable our armies to take the field with a force superior to that of the enemy and with such ample supplies of provision as will not only maintain them in plenty but enable the commander in chief if necessary on any extraordinary occasion to avail himself of the aid of the Militia. But upon these hopes Congress dare not rely. every moment presses. It is necessary they should have the most explicit assurances not only that their requisitions will be compiled with but that such compliance will be as immediate as the public wants are urgent. The letters from our committee at head quarters to you state those wants without exaggeration They State some facts and leave to your judgments to supply others, which it would have been improper to commit to paper. The object of this address is only to enforce their requests and to entreat you not to repose your safety upon the spirit and vigilance of others while any means within your own power are left untried. The present occasion calls for the united force of America. It gives us great consolation that notwithstanding the difficulties in which we are involved, the resources of the States if speedily applied are sufficient to releive us from them.

Every State in the Union is bound by the strongest obligations to afford us their aid and we trust that at this critical emergency no

The objects which claim your immediate attention are clearly pointed out by the requisitions of Congress and their committee at head quarters. Let them be complied with. Sir We inclose you a copy of General Washington's letter to us of this day.

Brown Book No. 5 We have in our former letters dwelt so forcibly on the several matters contained in the General's letter, that it is now become almost unnecessary for us to say any thing more on them. But when we consider the season for operation wears fast away, the small force we have now in the field, being still fed in a scanty and uncertain manner, the hourly expectation of the fleet and Army of our ally, on our coast, and that the commander in chief, as well as ourselves, are as yet totally uninformed, what are to be our expectations on the subjects of our former letters; Be assured Sir, we feel an anxiety congenial with his. You will therefore we are perswaded, pardon us for being thus solicitous, when we again intreat you, in the most earnest, in the most urgent manner, to use every exertion in your power to engage your State, to a speedy and decisive compliance with our former requisitions. The two points we would wish to impress most forcibly on yours, and the minds of the legislature of your state, are the immediately forwarding your quota of troops necessary to compleat your battalions in the Continental Army and of supplies of provisions agreeable to the estimate inclosed you in our letter of the Instant. At the same time we would not wish you to consider any part of our former requisitions, as become in the least degree unnecessary, on the contrary, we are more strongly convinced, that they are already as small as the important objects in view can possibly admit of. We only mention the two first, as the most *immediately* and *indispensibly* necessary. For, reinforced as the enemy now are, by the from the reduction of Charlestown, momently expect will be made on our weak and almost resistless army. should this event happen, whilst in this State, we seriously dread the result.

From the well known indefatigable attention of your State to the welfare of the united States, we cannot entertain a doubt of its exertions, at this interesting conjuncture. And we most earnestly intreat you, to give us the earliest information of the final determinations of your state on the subjects of this and our former letters.

June 20 [Bennett Dyson, Charles County, to Gov. Lee]

Sir I Received your Letter Requesting me to acquaint you with what provision we have been able to procure under the Act for the Immediate supply of the Army. I have Received Six hundred and Sixty Bushels Corn, and have this day sent off Four hundred and Fifty Bushels in a Vessel lately Built to be delivered to Col. Henry Hollingsworth at the head of Elk, and shall forward the Balance as soon as the Vessel Returns. It has not been in my power to forward the Corn before, as there was no Vessels that wou'd answer for Carrying Grain. Sir The Commissions to private armed Vessels of War were heretofore ordered to be attested by the Secretary of Congress. But upon establishing a Board of Admiralty it was judged proper that they should issue from that board and be attested by their Secretary. Accordingly on the 2d of May last having made some alterations in the form of the commission Bond & Instructions for commanders of private armed Vessels of War Congress passed the following resolutions—

"Resolved, That the Board or Admiralty be empowered and directed to cause to be printed so many Copies of the said forms as they shall judge necessary. That the President transmit to the Governors or Presidents of the respective States so many copies of the said forms as the Board of Admiralty shall advise"

You will therefore, please for the future to apply to the Board of Admiralty for the commissions Bonds &c which may be wanted in your State and transmit to the said Board, the bonds given by the Commanders to be lodged in this Office.

[Jos'a Beall, P^s G^s C^ty to Gov Lee] June 21

S^r I was informed the Other day that one Andrew Wailes who lives in Bladensburgh, had Entertained one of the Convention prisoners who had made his Escape from Virginia, I Examined the person who I was informed, had seen him there on Oath, But by his deposition he appeared to be something of a pedler, I can as yet here of no Other person who saw or knows any thing about this Stranger, but what is somthing remarkable, this Wailes the next morning made several bets two to one that Charles Town surrendered to the Enemie the Twelfth of May.

Wailes is one of those fellowes who was accused with Assisting one of the Goodricks & some Other prisoners in making their Escape from Alex^a some years ago, and though he was Acquited of the charge in Virginia, The People in Alex^a were so fully convinced of his Guilt in that & Other Villenys, that they drove him from thence; And he on taking the Oath to the State has been suffered to live since that, in Bladensburgh. But from what I can learn of the fellows beheavior, he is as vile a tory as any in America, he is now become one of the greatest traders in Town, and by his artfull conduct seems to be gaining some influence over the weak unthinking People, and has of late become a companion & high in Esteem among the Torys of the first rank, having been lately Admitted as I understand to a very high Entertainment kept by them, some say to celebrate the Kings birth day, Others on the News of the surrender of Charles Town, which seems to have been the real & true cause of their feastivity, For certain it is, that the Torys & Enemies to America, have mutch speedier & Truer Acc^ts of those Events, than any other people on the Continent. But, This is not mutch to be wondered at, While there are such Numbers of people daily Passing & repassing & no Question Askt, some as Officers, some as Express, & others as Speculaters, many of whome though they have bound themselves by Oath to support the independance of America, its to be feared are the worst kind of Torys among us; I fear without some change in our conduct, America will at length be Duped out of all she has been contending for. Would it not be highly Necessary at this time to issue Orders, or rather pass an Act Enjoyning all Officers both Civil & Military, to take up & Examine all persons whatever that are passing through this State let their business be what it may, & those who cant give a very good Acc^t of themselves, or some Testimonials of their honest intentions, to confine in Goal till such time they can give such Satisfaction; some such Expedient seems to be highly Necessary for the welfair of America at this juncture. Would it not be necessary to Oblige this

June 21 fellow Wailes to give very good securety for his Good behaviour Nothing but the good of the cause of my country could have induced me to take the freedom of Troubling you with this.

June 22 [George Dashiell, Somerset County, to Gov. Lee.]

Sir I have made a return of 1280 bushels of corn purchased by me in this county for the use of the army. At the time I made the purchase to prevent disappointment, I gave certificate, and took obligation for the delivery when required. On sending for the corn sundry persons refuse to furnish the quantity sold and alledge that they are rendered unable to comply with their Contracts by the hard winter, out of the above quantity there is not a probability of Collecting but 7382 bushels. Those persons are soliciting me to take in the certificate they have received in payment, and to give them others for the Quantities they have furnished. As a commissioner I dont consider myself at liberty to do it, and begg your Excellencys Instructions in what manner I am to proceed with respect to them.

Sir Your Excellency will herewith receive an Act of Congress of the 21. Instant, which will no doubt be duly attended to.

Those parts of the Act in particular that relate to giving Information to Congress and their Committee at Head Quarters, it is

most earnestly requested may be attended with the utmost Expedition and Punctuality. Red Book No. 7

The Time is come when we may hourly expect the Arrival of the Forces of our Ally, and the Plan of Operation ought to be completely formed, and ready to be communicated upon their Arrival, which cannot be done for want of proper and certain Information, of the number of Forces, Quantity of Supplies &c which the States will furnish.

Under these Circumstances you will easily perceive, that Congress and the Commander in Chief are placed in a most painful situation, and that the Interest, Honor & Safety of these States are too much affected to admit of the least Delay or Neglect of any & every Execution which the present situation of our Affairs demand

June 23. Sr This covers a Copy of Col^o Hen: Hollingsworths Rec^t for seventy Barrels of Herring (purchased of Mr Joh^n Hudson) alledging that one half of them are spoiled. When I Rec^d them from Mr Hudson he declared to me that he had them carefully examined before he woud pay the person who undertook to cure them & assured me that they were very good. This was prior to Col. Stones Letter ordering me to examine them. This morning had all that remained, opened & found but fifteen Barrels of Shad & fifteen Barrels of Herring passable, which I send by Capt. Middleton to The Assistant Commissary of Issues at Annapolis, by which means none remains with me. Mr Hudson is not in Town. When he comes will acquaint him that he can't have a Settlement untill Col^l Hollingsworths Report comes to hand.

Mr Willm Smith informs me that he will not receive any Flour but what will pass Inspection & as there's reason to apprehend that a great part of what comes to me is not Merchantable, I beg to be fully Instructed on that Head.

Rec^d June 23^d 1780, by the Schooner Dolphin, Capt William Middleton, Seventy Barrels of Herring wch from appearance are one half Spoil'd wch cannot be immediately Examined as Capt. Middleton wants dispatch, but shall be examin'd and Reported. hereafter. Recd by H. Hollingsworth D. Q. M. G.

June 27

Gentlemen I was last Evening honored with yours of the 22^d Ins^t containing propositions of both Houses for substituting a compleat additional Battalion enlisted for the War, in lieu of the aid of Militia required by the Committee of Cooperation in conjunction with me. The reasons urged by you, in support of this Alteration, are weighty, and such as, all circumstances considered, I think are sufficient to induce an acceptance of your offer, provided you can be upon a certainty of filling and marching the Battalion to the place of rendezvous by or near the time fixed upon for the junction

Brown Book No. 1 of the Militia in at furthest by the last of July. But this you will be pleased to observe is only my opinion upon the Subject. As the Committee of Cooperation are yet at Morris Town, some distance from hence, I have taken the liberty, to save time, of putting this letter under a flying Seal to them, and have desired them, if they coincide with me, to forward it to you, with their approbation of the measure.

It cannot yet be determined whether the whole or any of the Levies to compleat your Continental Battalions will be wanted to the Southward, perhaps circumstances may require that part of them should be sent to that quarter, and part come to this. It would be therefore most convenient to form them into two Corps for the present, under the care of such number of Officers as Major General Baron de Kalb will be able to spare from the Line. The number I am confident will be but few, as the Regiments were most of them very deficient of Subalterns when they marched from this Army. Inclosed you will find a letter to the Baron upon the Subject.

I cannot help impressing upon you Gentlemen the indispensible necesity of filling and forwarding the additional Battalion in the time I have before mentioned, or of having the whole, or the greater part of the Militia required, ready for service, in case you see no probability of compleating the Battalion as twenty five hundred Militia from your State we by our Estimates, deemed essential to the cooperation you will easily perceive that so great a diminution of force, alto the composition will be better, must be attended with many inconveniences. The compleating your Continental Battalions is a matter of equal importance.

Give me leave Gentlemen, to present through you, my warmest acknowledgments to both your Houses for their ready attention to and compliance with the several requisitions, more especially of provisions, which I have lately been under the necessity of making from them: And from the tenor of the letter which I have now the honor of answering. I am confident that no means will be left untried to furnish the men in question, either upon a permanent establishment, or if that cannot be done in a reasonable time, for a temporary service

I have the Honor to be with the most perfect Respect Gentlemen Your most ob^{t} and most h^{ble} Servt G^{o} Washington

June 29 Red Book No. 27 Letter No. 26 [John Carlile, Capt.; Michael Gilbert, Capt.; John Hughes, Capt.; Joseph Lewis, Lt; Camp New Jersey to Gov. Lee]

Sir We did ourselves the Honor of addressing your Excellency some time last winter on the Subject of our necessities. We were induced to believe that our grievances would soon be redressed from a Resolve of your Assembly which passed soon after enabling you to afford us the same supplies as were allowed the troops serv-

ing in the line of the state, but we are sorry to find that the matter rested here and that no farther Provision than the bare Resolve has been made, which your Excellency must be sensible is insufficient to answer our present Exegencies. We therefore beg that whenever the more weighty concerns of your State will admit of it; that your Excellency will please to cast your eyes for a moment on the officers and Soldiers of your State belonging to this Regiment, and order the same Supplies of money Cloathing and other stores as were given the troops of the Maryland line to be forwarded to them as soon as possible. Your Excellency we trust will have due regard to the time of furnishing the different sums of money to the officers of your line and make such farther allowances for the Depreciation of the mony as you may think just and equitable, as the gratuity given in the Spring of 1779 and the fall following will be found entirely insufficient to answer the purpose it was intended for, and as to the sums furnished the officers on their March to the Southward we can say nothing of. We would only wish to remind your Excellency that we performed as long and fatiguing a march in the course of the last summer without the Assistance of any State or other County. Red Book No. 27

We have directed Mr Amos Loney to wait on you for the several sums of Money allowed us by the Assembly and request it may be paid into his hands in order to be forwarded to us.

NB in furnishing the Stores for The troops y^r^ Excellency will please to have reference to the return from the Board of War, for the numbers.

[Sam Huntington, President, Philadelphia to His Excellency Gov. Lee.] June 29 Red Book No. 7 Letter No. 53

Sir The urgent necessity of drawing into the public Treasury the ten millions of Dollars mentioned in the Act of the 19th May was so fully pointed out, that Congress exceedingly regret the failure of this necessary supply. the conjuncture is already arrived when it is become essential not only to the operations of this Campaign but to the very existence of the Army.

Congress therefore can no longer delay reiterating the most importunate Sollicitations that the proportions of each of the States be forwarded immediately. For this purpose they have dispatched a special Messenger, & they trust he will not meet with disappointment. A further sum must also be speedily had or it will be impossible for the operations to proceed. Congress have therefore drawn on those States for the remainder of their Quotas to the first of March last inclusive; And it is their duty to conjure the several States, if they should still be unprepared that they will at all events transmit their arrears to the period last mentioned to the Continental treasury within thirty days from the date of the warrants.

Red Book No. 7 The monthly estimates of money heretofore made were but barely sufficient at that time. their value has since greatly diminished & the payment has been delayed long after it become due. These circumstances have already involved our affairs in much perplexity & driven to expedients which nothing but the last necessity could justify. Permanency & arrangement in the public finances must at every hazard be introduced & supported. In this view Congress do again with the most earnest Solicitude press on the several States the necessity of vigorous & decisive measures for carrying into full & immediate execution their resolutions of the 18th of March last. The doing which at the same time that it places public credit on the surest basis will in the course of the year give all the relief that could possibly result from a further emission equal to the whole that is now in circulation. These resolutions Congress are persuaded are every day better understood, & that upon giving them their full effect very much depends the final establishment of our Liberties.

It is unnecessary that Congress should suggest to the several States the expediency of providing by Loans against any deficiency they may have reason to apprehend from their taxes.

The blank bills for the several States will be forwarded as fast as the Acts of their Assemblies providing funds for them are transmitted to Congress

June 29 [Isaac Perkins, Kent County, to the Council]

Gentn By the Inclosed Deposition you'll observe that my Invaluable set of Mills were burned to the Ground on the 27th Instant at night before I reached home from Annapolis My Conjectures are that the Tories in the upper part of this County flushed with the Enemys success against Charles Town and the Arrival of Clinton with Troops from the Southward to New York and knowing The precarious supply that our army has had for some time past and the Considerable Consequence my Mills has been in Manufacturing such large Quantitys of Grain for the Army and french

fleet added to the hatred to me they have taken for my steady Attachment to the Independence of America and my Acceptance of the Execution of the Act to procure flour and other provisions for the Army Especially The seizure of the wheat at New Markett that was Intended to be Carried out of the State has caused those Villians to hire some Abandoned Wretch to set those Mills on fire I am the more Inclined to this Opinion because it was known that I was at Annapolis and it is said the Tories were Industrously reporting that I was at Annapolis to apply for a Commission of the like nature. Now Gentlemen I have no doubt but you'll Consider this Crime in full as heinious a light as myself and that it proceeded from the same Motives I therefore request the favour of you to apply for me to the Governor and Council to Issue their proclamation Offering a reward to any person whoe will discover the persons Concerned and proclaiming full and free pardon to the person making the Information unless he should be the principal and if the Governo^r and Council can doe nothing for me to apply to the General Assembly or both in your Discretion to doe what you think Just and reasonable for me if any Expence should Acrue in printing or any other manner if you'll pay it for me I will reimburse you the money. June 29

The deposition of John Cooper aged seventeen being duly sworn saith, that he has been Clark to Col^o Isaac Perkins about five months & superintendant of his Mills, that on the 27th instant at night between Sun set & Dark he was at the Mill, at which time, no fire was in the Mill or near it to his knowledge, that the negroe Fellow (Miller) brought him the said Cooper the Key of the Mill within ten minutes after; that about one o'Clock in the night, he was awaked by Daniel Greenwood blacksmith to the said Isaac Perkins, who told him that the mill was on fire that he immediately arose & went towards the Mill, at which time it was nearly consumed together with a Saw Mill & fulling Mill, & that about an hour & half, the said Mills were entirely reduced to ashes, that there was destroy'd in the Griest Mill a Quantity of Flour which he supposes to be from fifty to ninety barrells & about one hundred & thirty or forty barrells of ship stuff & that he is of opinion the said Mills were set on fire designedly. But Hope Both those Will be Paid as the 10 hh^ds of Rum is still Behind and am in Want of the Whole and am under the Necessity of Asking you your Compliance Will Oblige your Needy friend and Humble serv^t

June 30 [Rd. Hooe, Alexandria to Gov. Lee.]

S^r By the bearer Roger Chew you will receive two Letters brought here this Morning by an express.

I am exceedingly sorry Parker did not get here in time to send the despatches all by one rider, for it has disconcerted us a good deal, being obliged to send the Man Stationd for you with Parkers Letters to Richmond, & now have to hunt for one to go to Annapolis

Besides it will unnecessarily Cost at least 200 £ Virg^a Currency sending the extra express all owing to Parkers delay.

Your Excellency was very obliging in the good news you was so kind as to give me by Burk, it has revived us much, and I am very thankfull for it.
